(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first usage state in a sequence for a display screen with graphical user interface;
FIG. 2 is a front view of a second usage state in a sequence for a display screen with graphical user interface;
FIG. 3 is a front view of a third usage state in a sequence for a display screen with graphical user interface;
FIG. 4 is a front view of a fourth usage state in a sequence for a display screen with graphical user interface;
FIG. 5 is a front view of a fifth usage state in a sequence for a display screen with graphical user interface;
FIG. 6 is a top view of a display screen with graphical user interface, the bottom view being a mirror image thereof;
FIG. 7 is a right side view of a display screen with graphical user interface;
FIG. 8 is a left side view of a display screen with graphical user interface; and,
FIG. 9 is a back view of a display screen with graphical user interface.

The broken lines showing the display screen and the remainder of the graphical user interface form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIG. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.
