Primary Examiner — Marcus Jackson

(57) **CLAIM**
The ornamental design for a solid state light assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the new design for a solid state light assembly having a transparent or semi-transparent optical guide for distributing light from solid state light sources, such as light emitting diodes, and an integrated thermal guide for dissipating heat from the solid state light sources;

FIG. 2 is a front view thereof;

FIG. 3 is a rear view thereof;

FIG. 4 is a right view thereof;

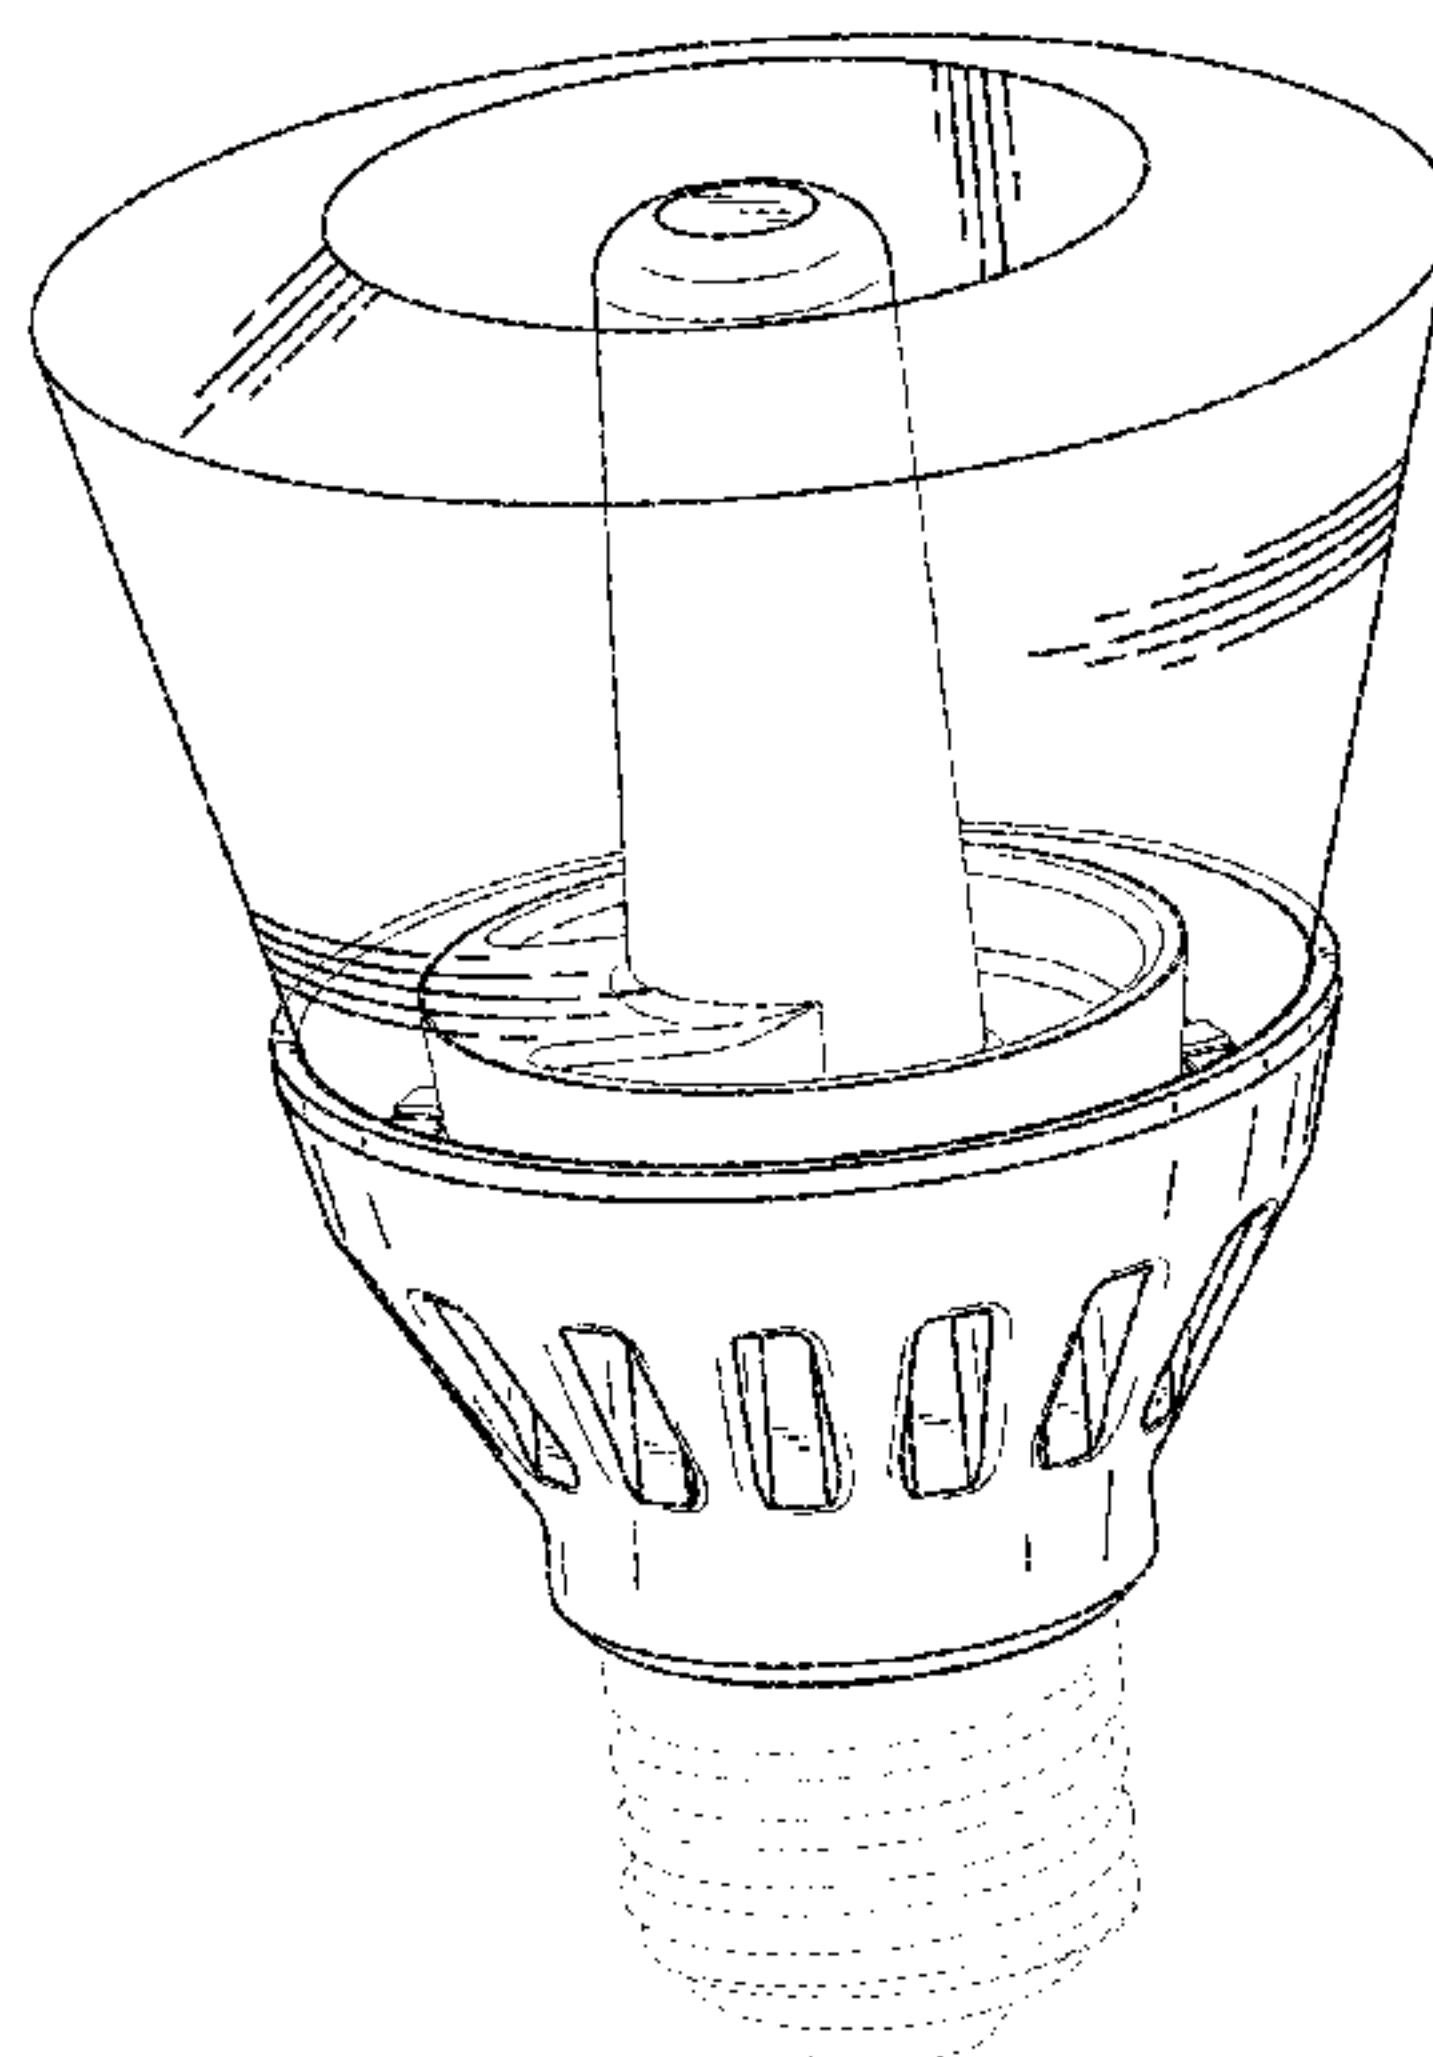

FIG. 5 is a left view thereof;

FIG. 6 is a top view thereof; and,

FIG. 7 is a bottom view thereof.

The claim is directed to the collective appearance of the components of the solid state light assembly shown. Broken lines are used to show a base that forms no part of the claimed design.
