(57) **CLAIM**

The ornamental design for an instrument panel for an automobile, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of an instrument panel for an automobile in accordance with our new design;

FIG. 2 is a top plan view of the instrument panel in accordance with our new design of FIG. 1;

FIG. 3 is a bottom plan view of the instrument panel in accordance with our new design of FIGS. 1 and 2;

FIG. 4 is a left side elevational view of the instrument panel in accordance with our new design of FIGS. 1 to 3;

FIG. 5 is a right side elevational view of the instrument panel in accordance with our new design of FIGS. 1 to 4;

FIG. 6 is a front, left and bottom side perspective view of the instrument panel in accordance with our new design of FIGS. 1 to 5;

FIG. 7 is a front, right and top side perspective view of the instrument panel in accordance with our new design of FIGS. 1 to 6;

FIG. 8 is a front, right and top side perspective view of the instrument panel in accordance with our new design of FIGS. 1 to 7 in which the area with oblique hatching indicates a translucent portion; and,

FIG. 9 is a cross-sectional view of a segment taken along line 9-9 in FIG. 1.

The rear view of the instrument panel forms no part of the claimed design.

The cross sectional view of FIG. 9 is provided to clarify the exact contour or configuration of the exterior surface of the instrument panel, and no attempt is made to illustrate features of internal construction.

The shading of gray in the drawings is provided for purpose of depicting the shape of the three-dimensional article.
