(57) **CLAIM**

The ornamental design for a display panel portion with transi-  
tional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display panel portion with a  
transitional graphical user interface showing a first image in a  
sequence of the claimed design; and,  
FIG. 2 is a front view of a second image included in the  
sequence of the claimed design.

The longer-incremented broken lines showing of a portion of  
a display panel of a communications terminal illustrate envi-  
ronment and form no part of the claimed design. The images  
and text in shown in finer-incremented broken lines illustrate  
features of the transitional graphical user interface that form  
no part of the claimed design.

The appearance of the transitional image sequentially transi-  
tions between the images shown in FIGS. 1 to 2.
