(57) **CLAIM**

The ornamental design for a display screen with a transitional leak detection icon, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a display screen with a transitional leak detection icon showing the first image of a sequence.

FIG. 2 is a front view thereof showing the second image of the sequence.

FIG. 3 is a front view thereof showing the third image of the sequence.

FIG. 4 is a front view thereof showing the fourth image of the sequence.

FIG. 5 is a front view thereof showing the fifth image of the sequence.

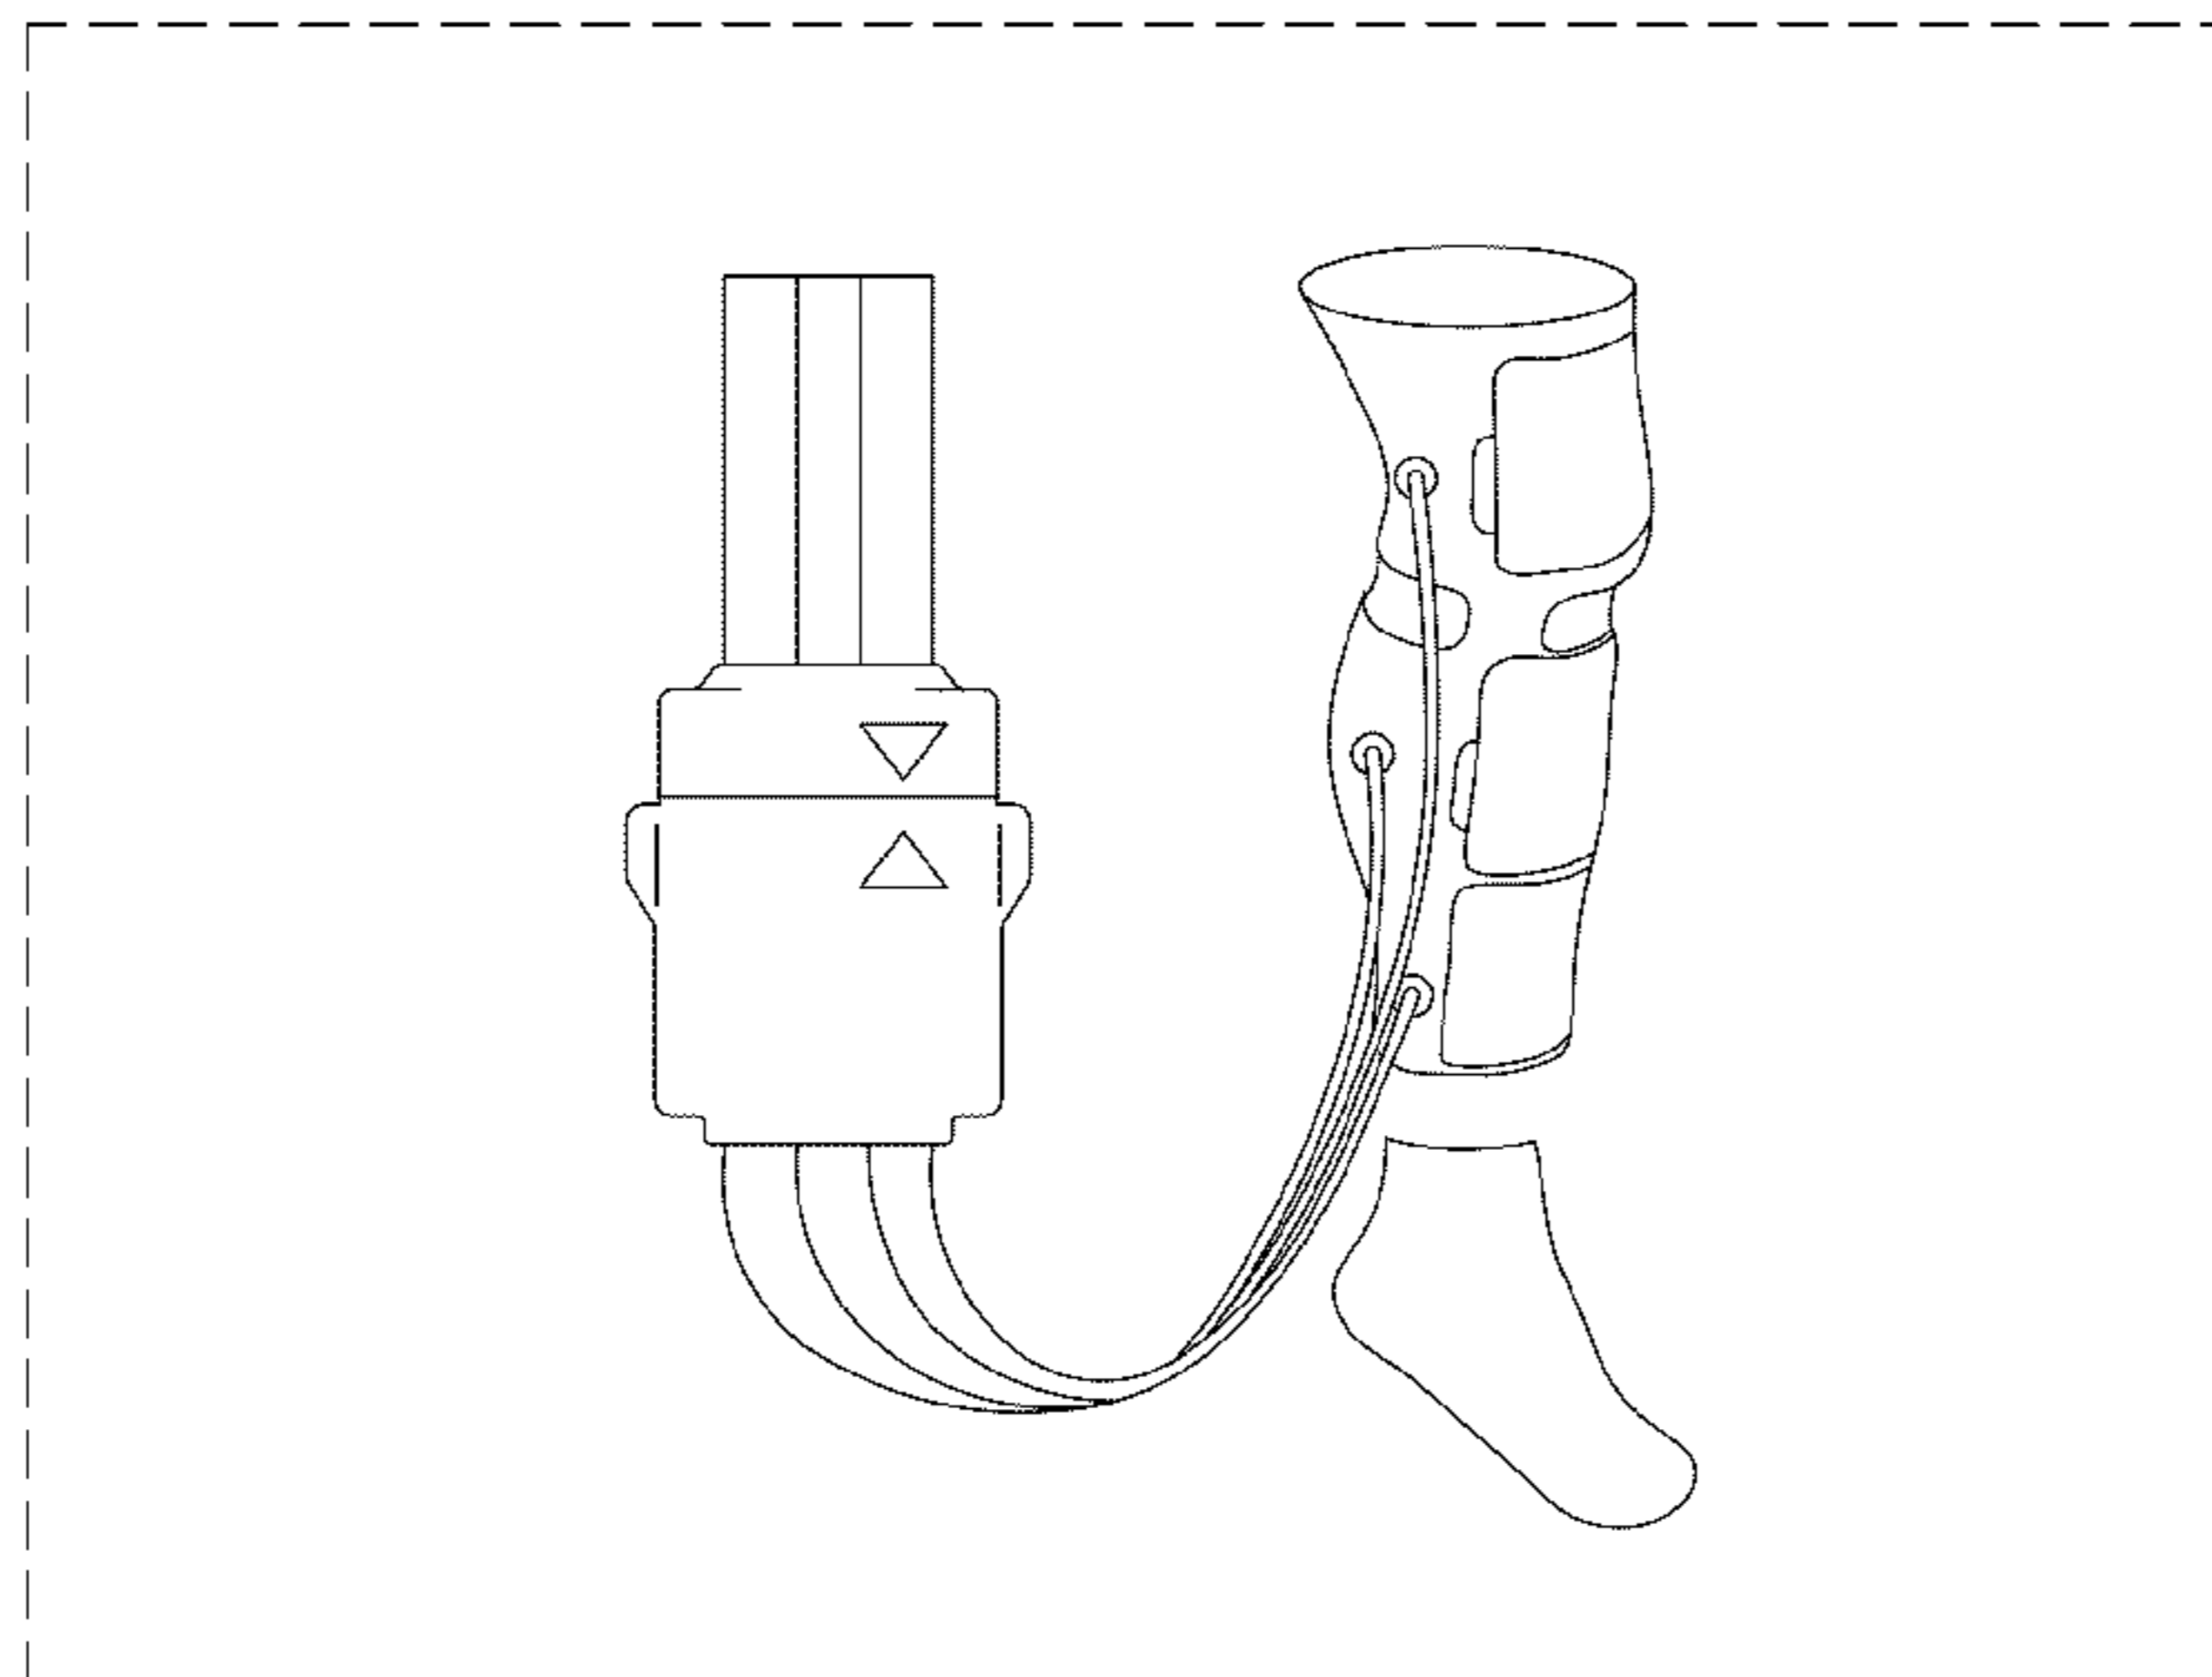

FIG. 6 is a front view thereof showing the sixth image of the sequence; and,

FIG. 7 is a front view thereof showing the seventh image of the sequence.

The broken lines showing the display screen are included for the purpose of illustrating environmental structure and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-7. The process or period in which one image transitions to another image forms no part of the claimed design.
