(57) **CLAIM**

The ornamental design for a fixation instrument, as shown and described.

DESCRIPTION

FIG. 1 is a front left side isometric view of a fixation instrument in accordance with the new design;
FIG. 2 is a right side elevational view thereof;
FIG. 3 is a left side elevational view thereof;
FIG. 4 is a top plan view thereof;
FIG. 5 is a bottom plan view thereof;
FIG. 6 is a front elevational view thereof; and,
FIG. 7 is a rear elevational view thereof.

The dashed break lines have been applied to the drawing views to indicate that no particular length, with the understanding that the undisclosed portions of the fixation instrument not shown in the drawings forms no part of the claim design. Patentability is based only on those portions of the article that are shown in solid lines.
