(57) **CLAIM**

The ornamental design for a shoe sole, as shown and described.

DESCRIPTION

FIG. 1 is a front top side perspective view of the embodiment of the present invention.

FIG. 2 is a bottom front side perspective view of FIG. 1.

FIG. 3 is a front elevation view of the embodiment shown in FIG. 1.

FIG. 4 is a rear elevation view of the embodiment shown in FIG. 1.

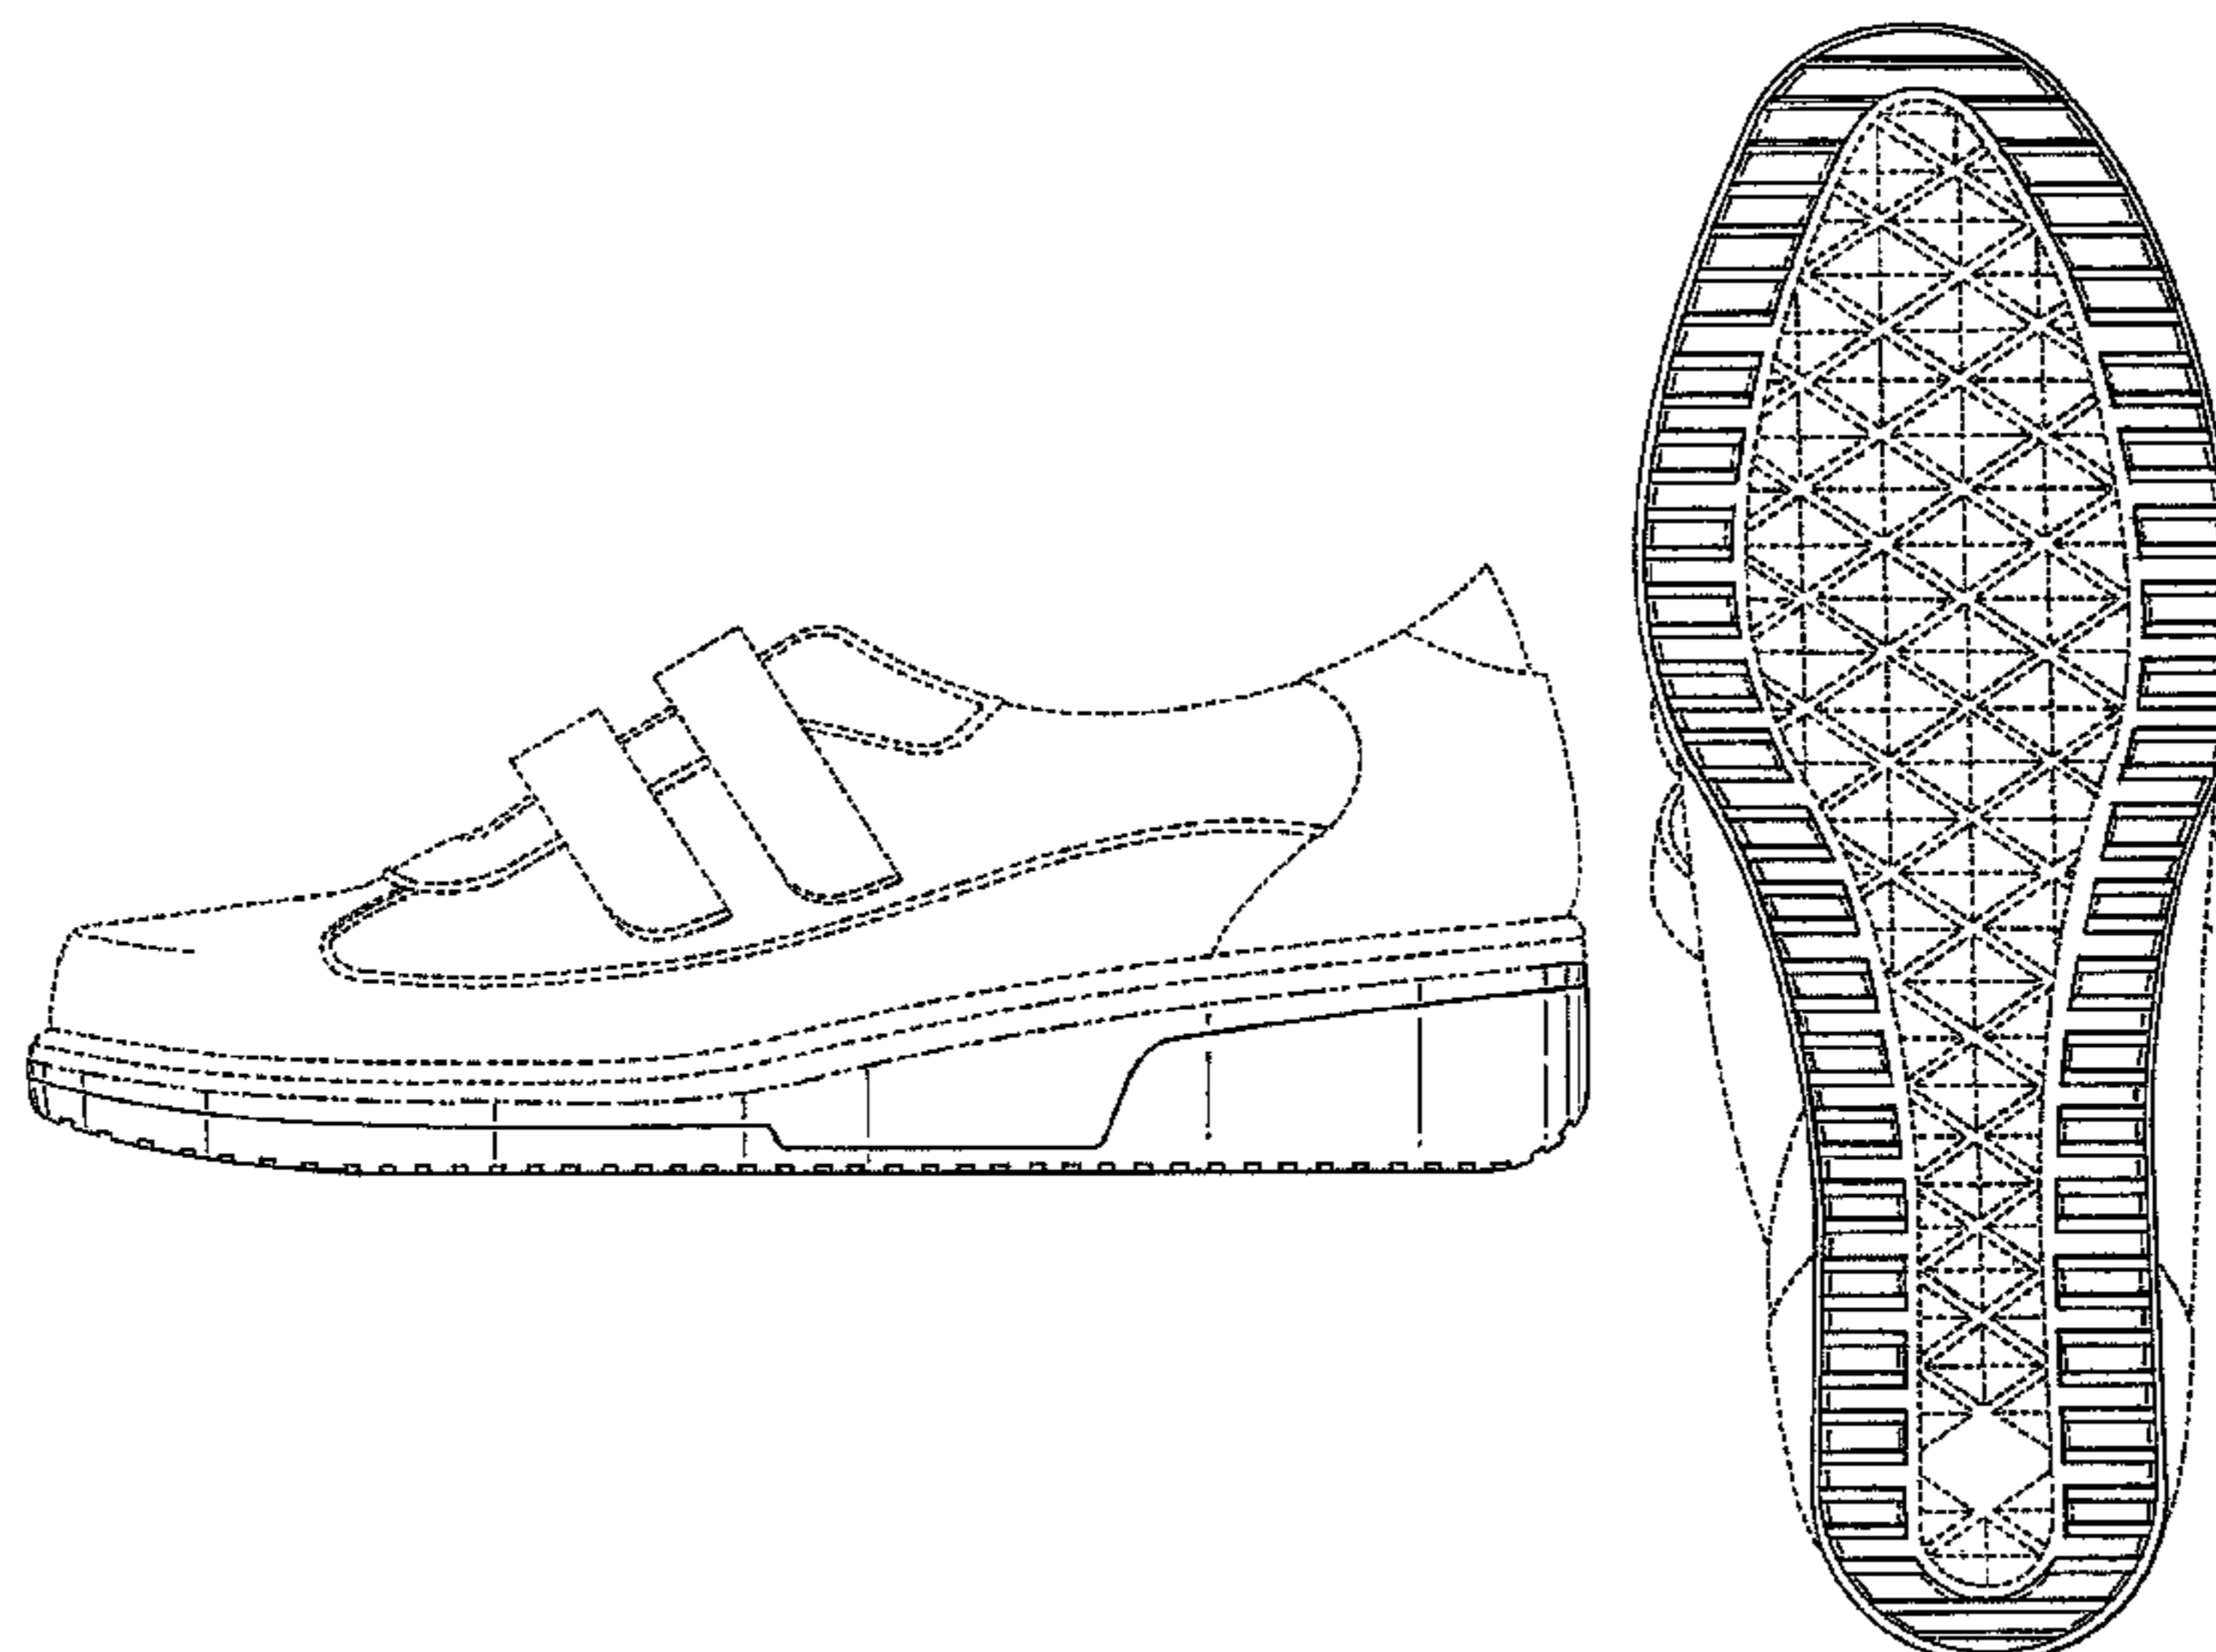

FIG. 5 is a bottom plan view of the embodiment shown in FIG. 1.

FIG. 6 is a left side elevation view of the embodiment shown in FIG. 1; and,

FIG. 7 is a right side elevation view of the embodiment shown in FIG. 1.

No claim is made to the dashed line regions on the shoe sole, including the inner diamond-tread-type-region and toe-region and the sole portion above the dash-dot-dot-dash break line including the entire upper of the shoe. The dashed lines indicate disclaimed portions forming no part of the claimed design, and the break-lines (dash-dot-dot-dash) indicate the boundaries of the claimed portions. No claim is made to the top portion or disclaimed side portions of the shoe and this is shown as an environmental illustration only to aid the public. No portion of the claimed shoe sole is visible directly from the top plan view and this view is eliminated for that reason.
