(57) **CLAIM**

The ornamental design for a gift card box set, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a gift card box set according to an embodiment of the present invention, wherein the broken lines depict indicia on an interior card positioned within an exterior card box of the gift card box set, a charm to be carried by a chain connected to the interior card, and indicia positioned on an exterior portion of the exterior card box, wherein the indicia on the interior card, the charm connected to the chain, and the indicia on the exterior card box do not form a claimed feature of the present invention.

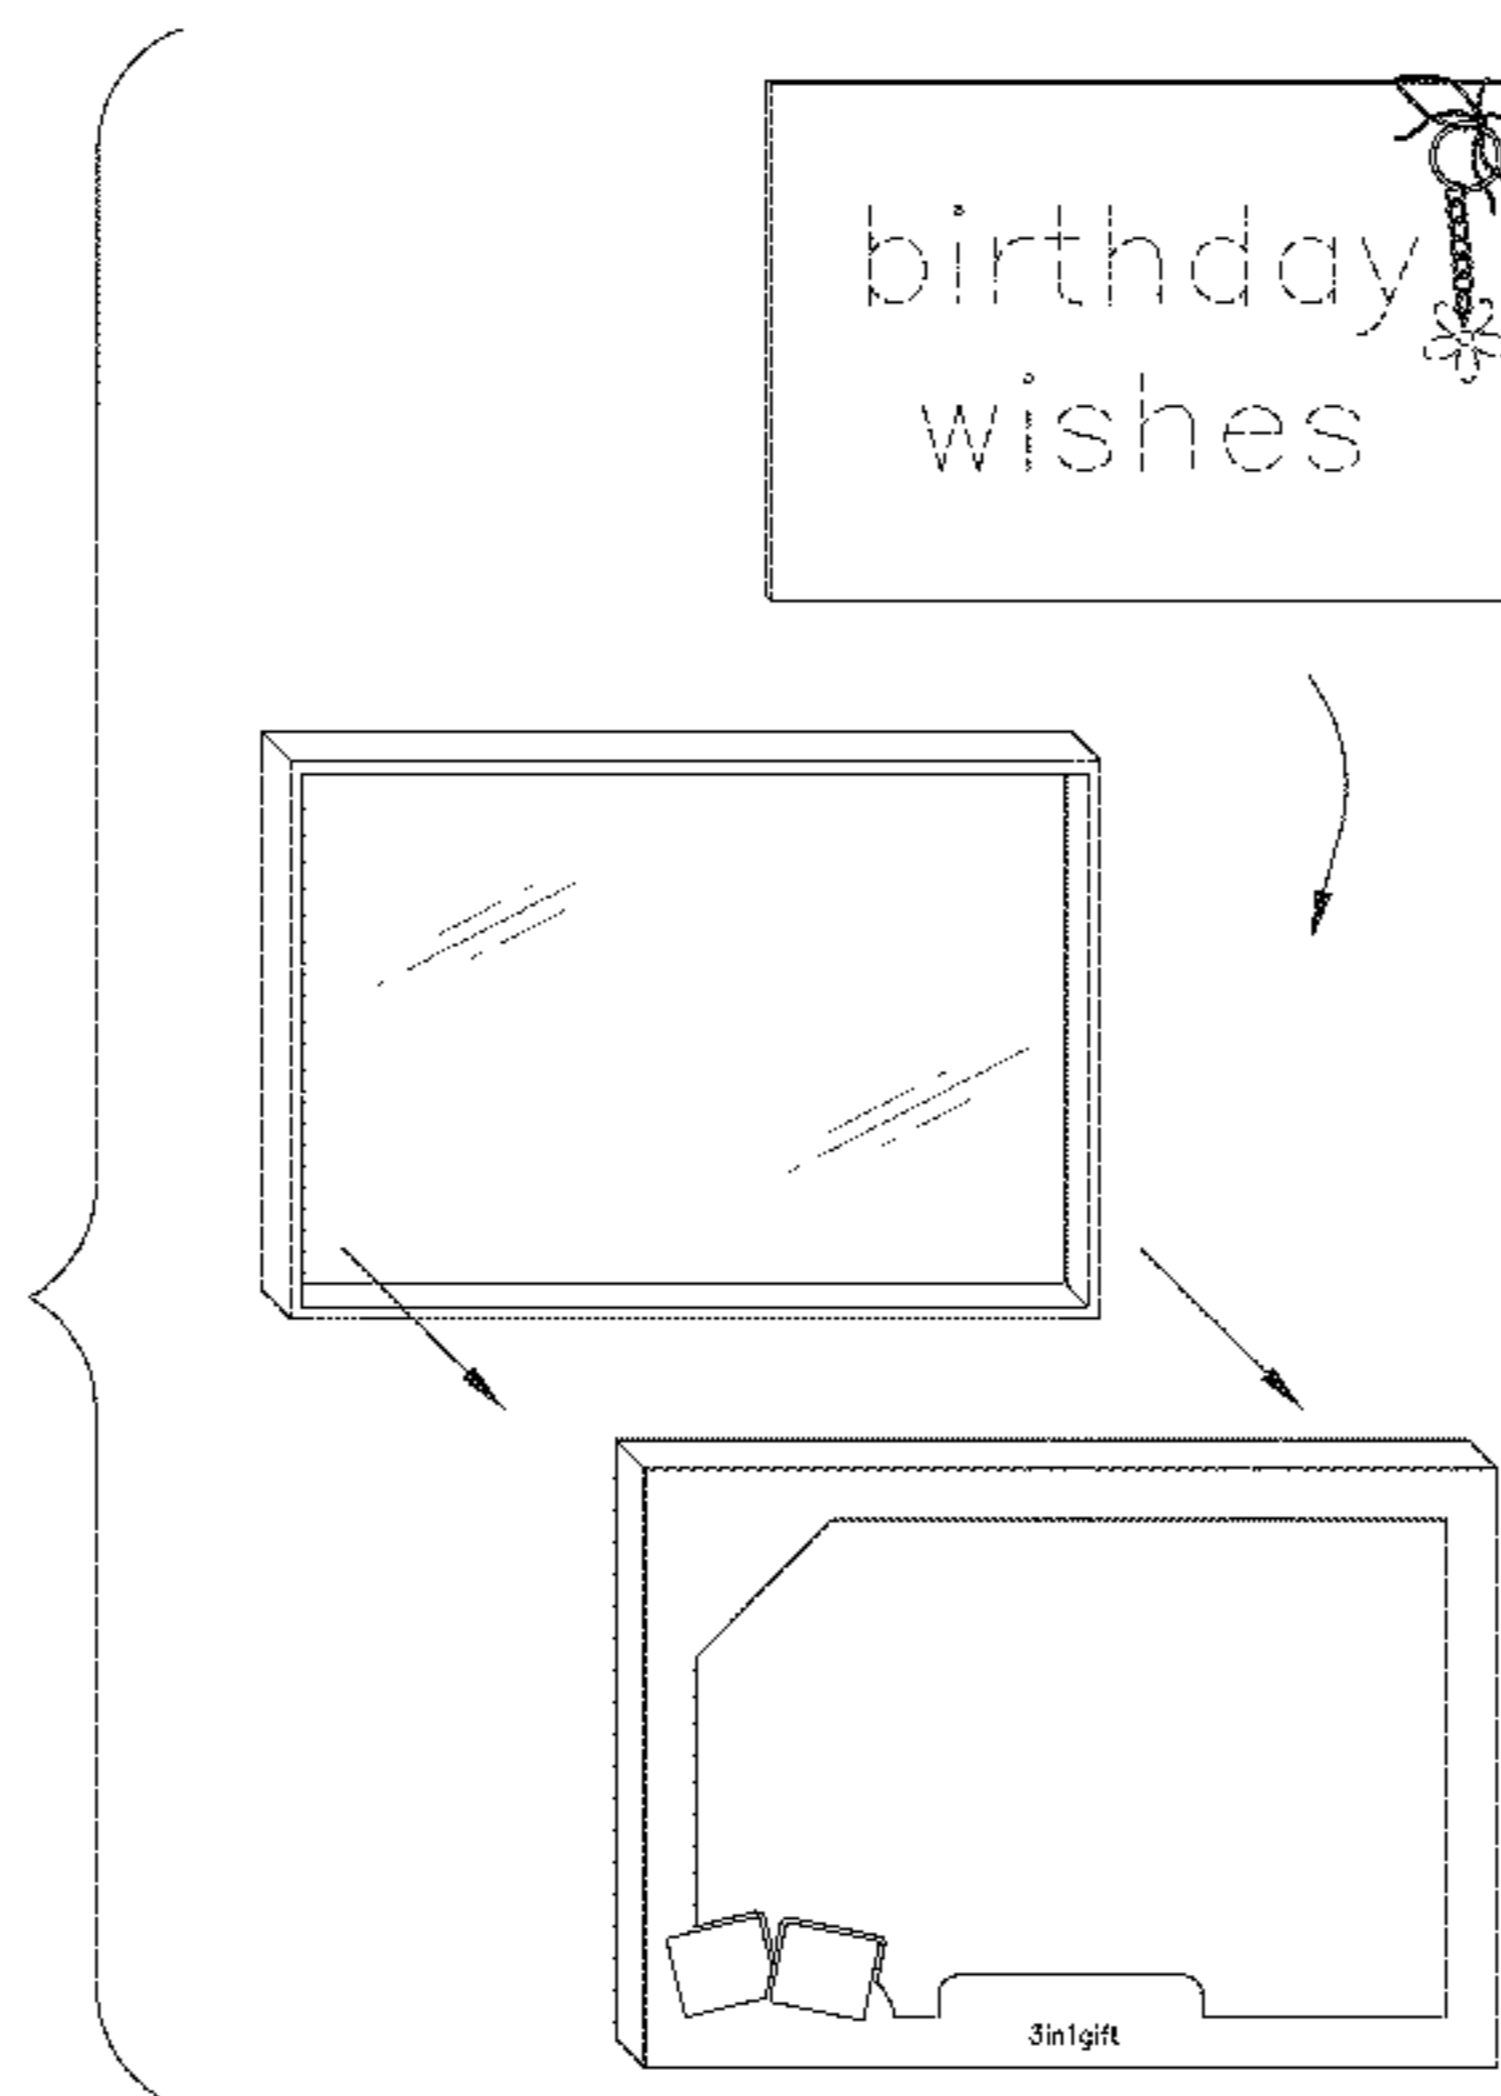

FIG. 2 is a rear perspective view of the gift card box set illustrated in FIG. 1, wherein the broken lines depict indicia on an exterior portion of the exterior card box, and does not form a claimed feature of the present invention.

FIG. 3 is an exploded perspective view of the gift card box set illustrated in FIG. 1, wherein the broken lines depict indicia on the interior card, the charm to be carried by the chain connected to the interior card, and indicia positioned on an exterior portion of the exterior card box, wherein the indicia on the interior card, charm connected to the chain, and indicia on the exterior card box do not form a claimed feature of the present invention.

FIG. 4 is a front perspective view a gift card box set according to the present invention and showing an alternate interior card having an alternate charm carried thereby positioned within the box, wherein the broken lines depict indicia on the interior card, the charm to be carried by the chain connected to the interior card, and indicia positioned on an exterior portion of the exterior card box, wherein the indicia on the interior card, charm connected to the chain, and indicia on the exterior card box do not form a claimed feature of the present invention; and,

FIG. 5 is a front perspective view of the interior card that is to be positioned within the exterior card box of the gift card box set depicted in FIG. 4 and having indicia positioned thereon and a charm connected to a chain that is carried by the interior card, wherein the broken lines depict the indicia and the charm connected to the chain that does not form a claimed feature of the present invention.
