(57) **CLAIM**

The ornamental design for a display screen with a transitional graphical user interface, as shown and described.

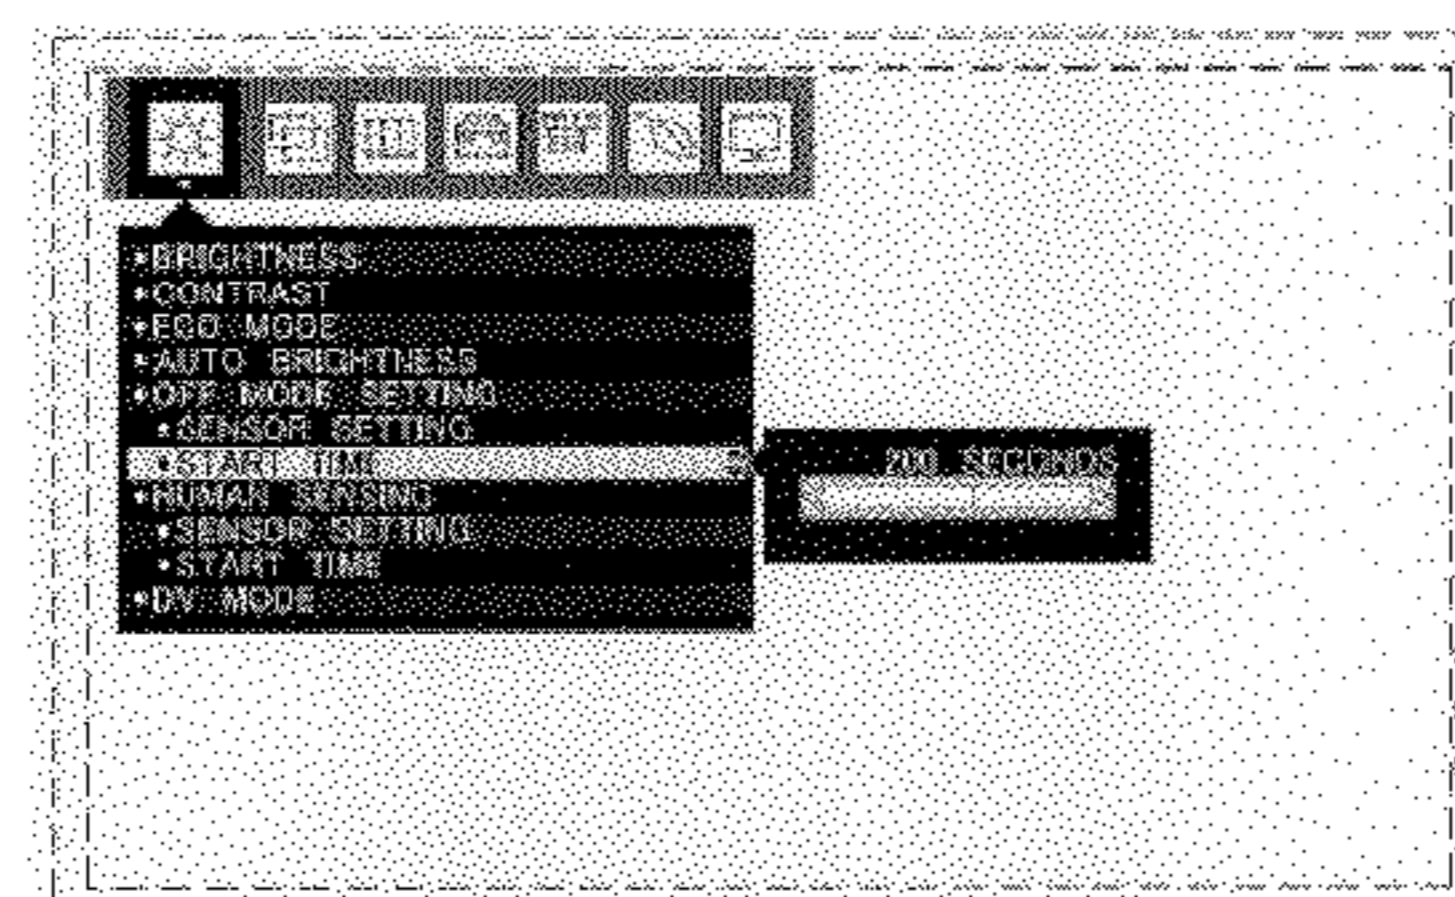

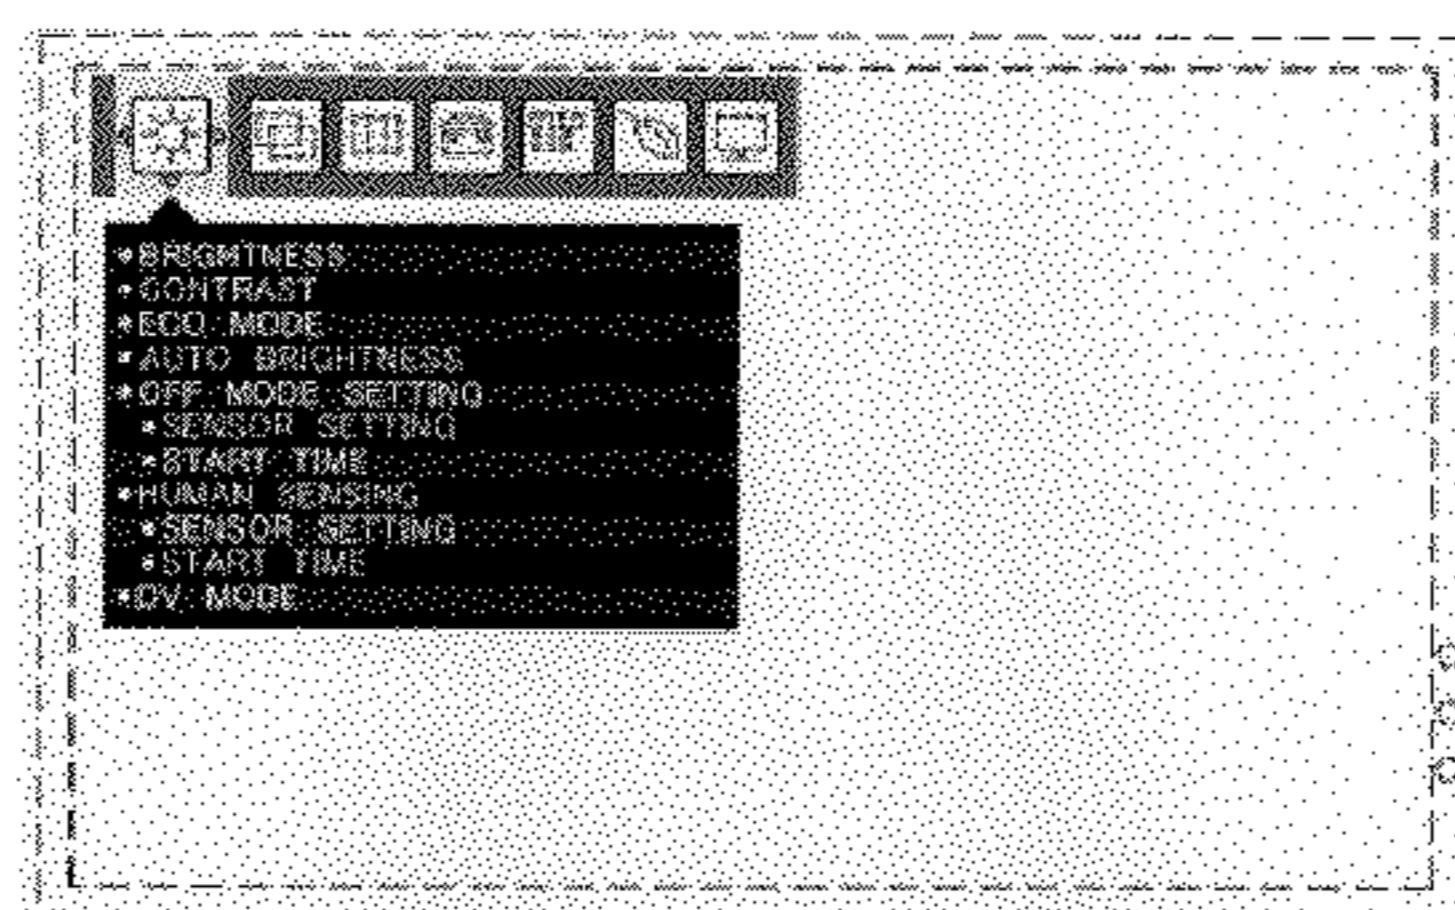

DESCRIPTION

FIG. 1 is a front elevational view of a first image in a sequence of a display screen with a transitional graphical user interface showing our new design;

FIG. 2 is a rear elevational view thereof;
FIG. 3 is a left side view thereof;
FIG. 4 is a right side view thereof;
FIG. 5 is a top plan view thereof;
FIG. 6 is a bottom plan view thereof;
FIG. 7 is a front elevational view thereof, showing a first changed state of the image;
FIG. 8 is a front elevational view thereof, showing a second changed state of the image;
FIG. 9 is a front elevational view thereof, showing a third changed state of the image;
FIG. 10 is a front elevational view thereof, showing a fourth changed state of the image;
FIG. 11 is a front elevational view thereof, showing a fifth changed state of the image;
FIG. 12 is a front elevational view thereof, showing a sixth changed state of the image;
FIG. 13 is a front elevational view thereof, showing a seventh changed state of the image;
FIG. 14 is a front elevational view thereof, showing an eighth changed state of the image;
FIG. 15 is a front elevational view thereof, showing a ninth changed state of the image;
FIG. 16 is a front elevational view thereof, showing a tenth changed state of the image;
FIG. 17 is a front elevational view thereof, showing an eleventh changed state of the image;
FIG. 18 is a front elevational view thereof, showing a twelfth changed state of the image;
FIG. 19 is a front elevational view thereof, showing a thirteenth changed state of the image;
FIG. 20 is a front elevational view thereof, showing a fourteenth changed state of the image;
FIG. 21 is a front elevational view thereof, showing a fifteenth changed state of the image;
FIG. 22 is a front elevational view thereof, showing a sixteenth changed state of the image; and,
FIG. 23 is a front elevational view thereof, showing a seventeenth changed state of the image.

The broken lines shown in the drawings represent portions of the display screen with a transitional graphical user interface that form no part of the claimed design.
The appearance of the transitional image sequentially transitions between the images shown in FIGS. 7-23. The process or period in which one image transitions to another image forms no part of the claimed design.
