See application file for complete search history.

FIG. 1 is a perspective view of a fishing reel spool for a spinning reel that includes a fishing reel portion in accordance with our new design;
FIG. 2 is a first side elevational view of the fishing reel spool illustrated in FIG. 1 with the fishing reel portion;
FIG. 3 is a second side elevational view, opposite from FIG. 2, of the fishing reel spool illustrated in FIG. 1 with the fishing reel portion completely hidden from sight;
FIG. 4 is a top plan view of the fishing reel spool illustrated in FIG. 1 with the fishing reel portion;
FIG. 5 is a bottom plan view of the fishing reel illustrated in FIG. 1 with the fishing reel portion;
FIG. 6 is a first end elevational view of the fishing reel spool illustrated in FIG. 1 with the fishing reel portion completely hidden from sight; and,
FIG. 7 is a second end elevational view of the fishing reel spool illustrated in FIG. 1 with the fishing reel portion completely hidden from sight.

In the drawings, the broken line illustration of the environmental structure (the remaining structure of the fishing reel) in the drawings is not part of the claimed design. The broken line portion of the fishing reel spool does not form part of the claimed design.
