(57) **CLAIM**

I claim the ornamental design for a nasal dilator, as shown and described.

DESCRIPTION

FIG. **1** is an isometric view of a first embodiment of a nasal dilator shown with a first environment;

FIG. **2** is a top view of the nasal dilator of FIG. **1** shown with a first environment;

FIG. **3** is a bottom view of the nasal dilator of FIG. **1**;

FIG. **4** is a right side view of the nasal dilator of FIG. **1**, the left side view being a mirror image thereof;

FIG. **5** is a front elevation view of the nasal dilator of FIG. **1**;

FIG. **6** is a rear elevation view of the nasal dilator of FIG. **1**;

FIG. **7** is an isometric view of a second embodiment of a nasal dilator shown with a first environment, the bottom, right side and its mirror image left side, front elevation, and rear elevation views being identical to the corresponding views illustrated for the first embodiment;

FIG. **8** is a top view of the nasal dilator of FIG. **7** shown with a first environment;

FIG. **9** is an isometric view of the nasal dilator shown in FIG. **1** shown with a second environment;

FIG. **10** is a top view of the nasal dilator of FIG. **1** shown with a second environment;

FIG. **11** is a right side view of the nasal dilator of FIG. **1** shown with a second environment, the left side view being a mirror image thereof;

FIG. **12** is a front elevation view of the nasal dilator of FIG. **1** shown with a second environment;

FIG. **13** is a rear elevation view of the nasal dilator of FIG. **1** shown with a second environment;

FIG. **14** is an isometric view of the nasal dilator shown in FIG. **7** shown with a second environment;

FIG. **15** is a top view of the nasal dilator of FIG. **7** shown with a second environment;

FIG. **16** is a right side view of the nasal dilator of FIG. **7** shown with a second environment, the left side view being a mirror image thereof;

FIG. **17** is a front elevation view of the nasal dilator of FIG. **7** shown with a second environment; and,

FIG. **18** is a rear elevation view of the nasal dilator of FIG. **7** shown with a second environment.

The broken lines are directed to environment and form no part of the claimed design.
