(57) **CLAIM**

The ornamental design for a medical imaging display screen or portion thereof with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first embodiment of a medical imaging display screen or portion thereof with graphical user interface showing our new design; and, FIG. 2 is a front view of a second embodiment of a medical imaging display screen or portion thereof with graphical user interface showing our new design. The broken lines showing a display screen or a portion thereof and graphical user interface represent portions that form no part of the claimed design.
