(57) **CLAIM**

The ornamental design for a mount for an electronic personal training device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing the upper surface of the mount.

FIG. 2 is a perspective view showing the lower surface of the mount.

FIG. 3 is a right side view, the left side being a mirror image thereof;

FIG. 4 is a front elevation view thereof;

FIG. 5 is a rear elevation view thereof;

FIG. 6 is a bottom plan view thereof; and,

FIG. 7 is a top plan view thereof.

The design comprises a mount, preferably for attachment to a bicycle, capable of supporting a an electronic personal training device or module thereof; the module comprising a display panel for providing information to a user while performing activities such as running, swimming, cycling or the like, and a 4-way button or other user input device for receiving commands from the user. The module may comprise location determining means, e.g. a global navigation satellite system (GNSS) receiver.
