## CLAIM

The ornamental design for an electronic meter, as shown and described.

## DESCRIPTION

FIG. 1 is a front, top, left perspective view of an electronic meter according to a first embodiment of my new design; FIG. 2 is a rear, top, left perspective view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a rear elevational view thereof; FIG. 5 is a left side elevational view thereof; FIG. 6 is a right side elevational view thereof; FIG. 7 is a top plan view thereof; FIG. 8 is a bottom plan view thereof; FIG. 9 is a front, top, left perspective view of an electronic meter according to a second embodiment of my new design; FIG. 10 is a front elevational view of FIG. 9; FIG. 11 is a front, top, left perspective view of an electronic meter according to a third embodiment of my new design; FIG. 12 is a front elevational view of FIG. 11; FIG. 13 is a front, top, left perspective view of an electronic meter according to a fourth embodiment of my new design; FIG. 14 is a front elevational view of FIG. 13; FIG. 15 is a front, top, left perspective view of an electronic meter according to a fifth embodiment of my new design; FIG. 16 is a front elevational view of FIG. 15; FIG. 17 is a front, top, left perspective view of an electronic meter according to a sixth embodiment of my new design; FIG. 18 is a front elevational view of FIG. 17; FIG. 19 is a front, top, left perspective view of an electronic meter according to a seventh embodiment of my new design; FIG. 20 is a front elevational view of FIG. 19; FIG. 21 is a front, top, left perspective view of an electronic meter according to an eighth embodiment of my new design; FIG. 22 is a front elevational view of FIG. 21;

FIG. 23 is a front, top, left perspective view of an electronic meter according to a ninth embodiment of my new design; FIG. 24 is a front elevational view of FIG. 23; FIG. 25 is a front, top, left perspective view of an electronic meter according to a tenth embodiment of my new design; FIG. 26 is a front elevational view of FIG. 25; FIG. 27 is a front, top, left perspective view of an electronic meter according to an eleventh embodiment of my new design; FIG. 28 is a front elevational view of FIG. 27; FIG. 29 is a front, top, left perspective view of an electronic meter according to a twelfth embodiment of my new design; FIG. 30 is a front elevational view of FIG. 29; FIG. 31 is a front, top, left perspective view of an electronic meter according to a thirteenth embodiment of my new design; FIG. 32 is a front elevational view of FIG. 31; FIG. 33 is a front, top, left perspective view of an electronic meter according to a fourteenth embodiment of my new design; FIG. 34 is a front elevational view of FIG. 33; FIG. 35 is a front, top, left perspective view of an electronic meter according to a fifteenth embodiment of my new design; FIG. 36 is a front elevational view of FIG. 35; FIG. 37 is a front, top, left perspective view of an electronic meter according to a sixteenth embodiment of my new design; FIG. 38 is a front elevational view of FIG. 37; FIG. 39 is a front, top, left perspective view of an electronic meter according to a seventeenth embodiment of my new design; FIG. 40 is a front elevational view of FIG. 39; FIG. 41 is a front, top, left perspective view of an electronic meter according to an eighteenth embodiment of my new design; FIG. 42 is a front elevational view of FIG. 41; FIG. 43 is a front, top, left perspective view of an electronic meter according to a nineteenth embodiment of my new design; FIG. 44 is a front elevational view of FIG. 43; FIG. 45 is a front, top, left perspective view of an electronic meter according to a twentieth embodiment of my new design; FIG. 46 is a front elevational view of FIG. 45; FIG. 47 is a front, top, left perspective view of an electronic meter according to a twenty-first embodiment of my new design; FIG. 48 is a front elevational view of FIG. 47; FIG. 49 is a front, top, left perspective view of an electronic meter according to a twenty-second embodiment of my new design; FIG. 50 is a front elevational view of FIG. 49; FIG. 51 is a front, top, left perspective view of an electronic meter according to a twenty-third embodiment of my new design; FIG. 52 is a front elevational view of FIG. 51; FIG. 53 is a front, top, left perspective view of an electronic meter according to a twenty-fourth embodiment of my new design; and, FIG. 54 is a front elevational view of FIG. 53.

The broken line showing of structural features is included for the purpose of illustrating non-claimed subject matter and forms no part of the claimed design.
