(57) **CLAIM**

The ornamental design for a display screen or portion thereof with graphical user interface, as shown and described.

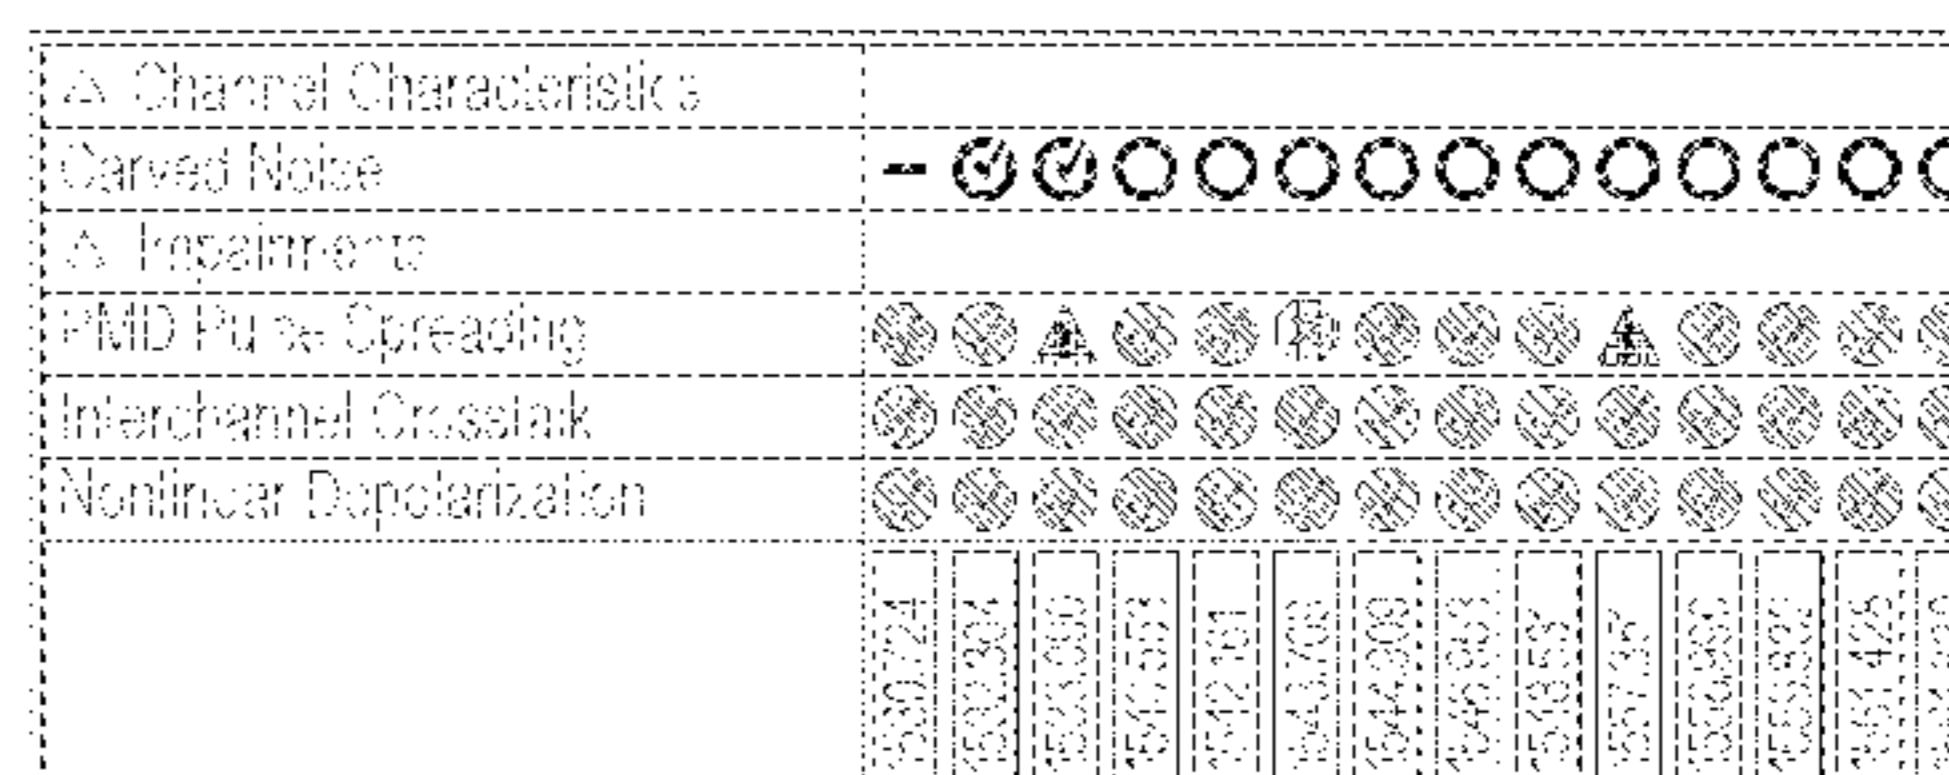

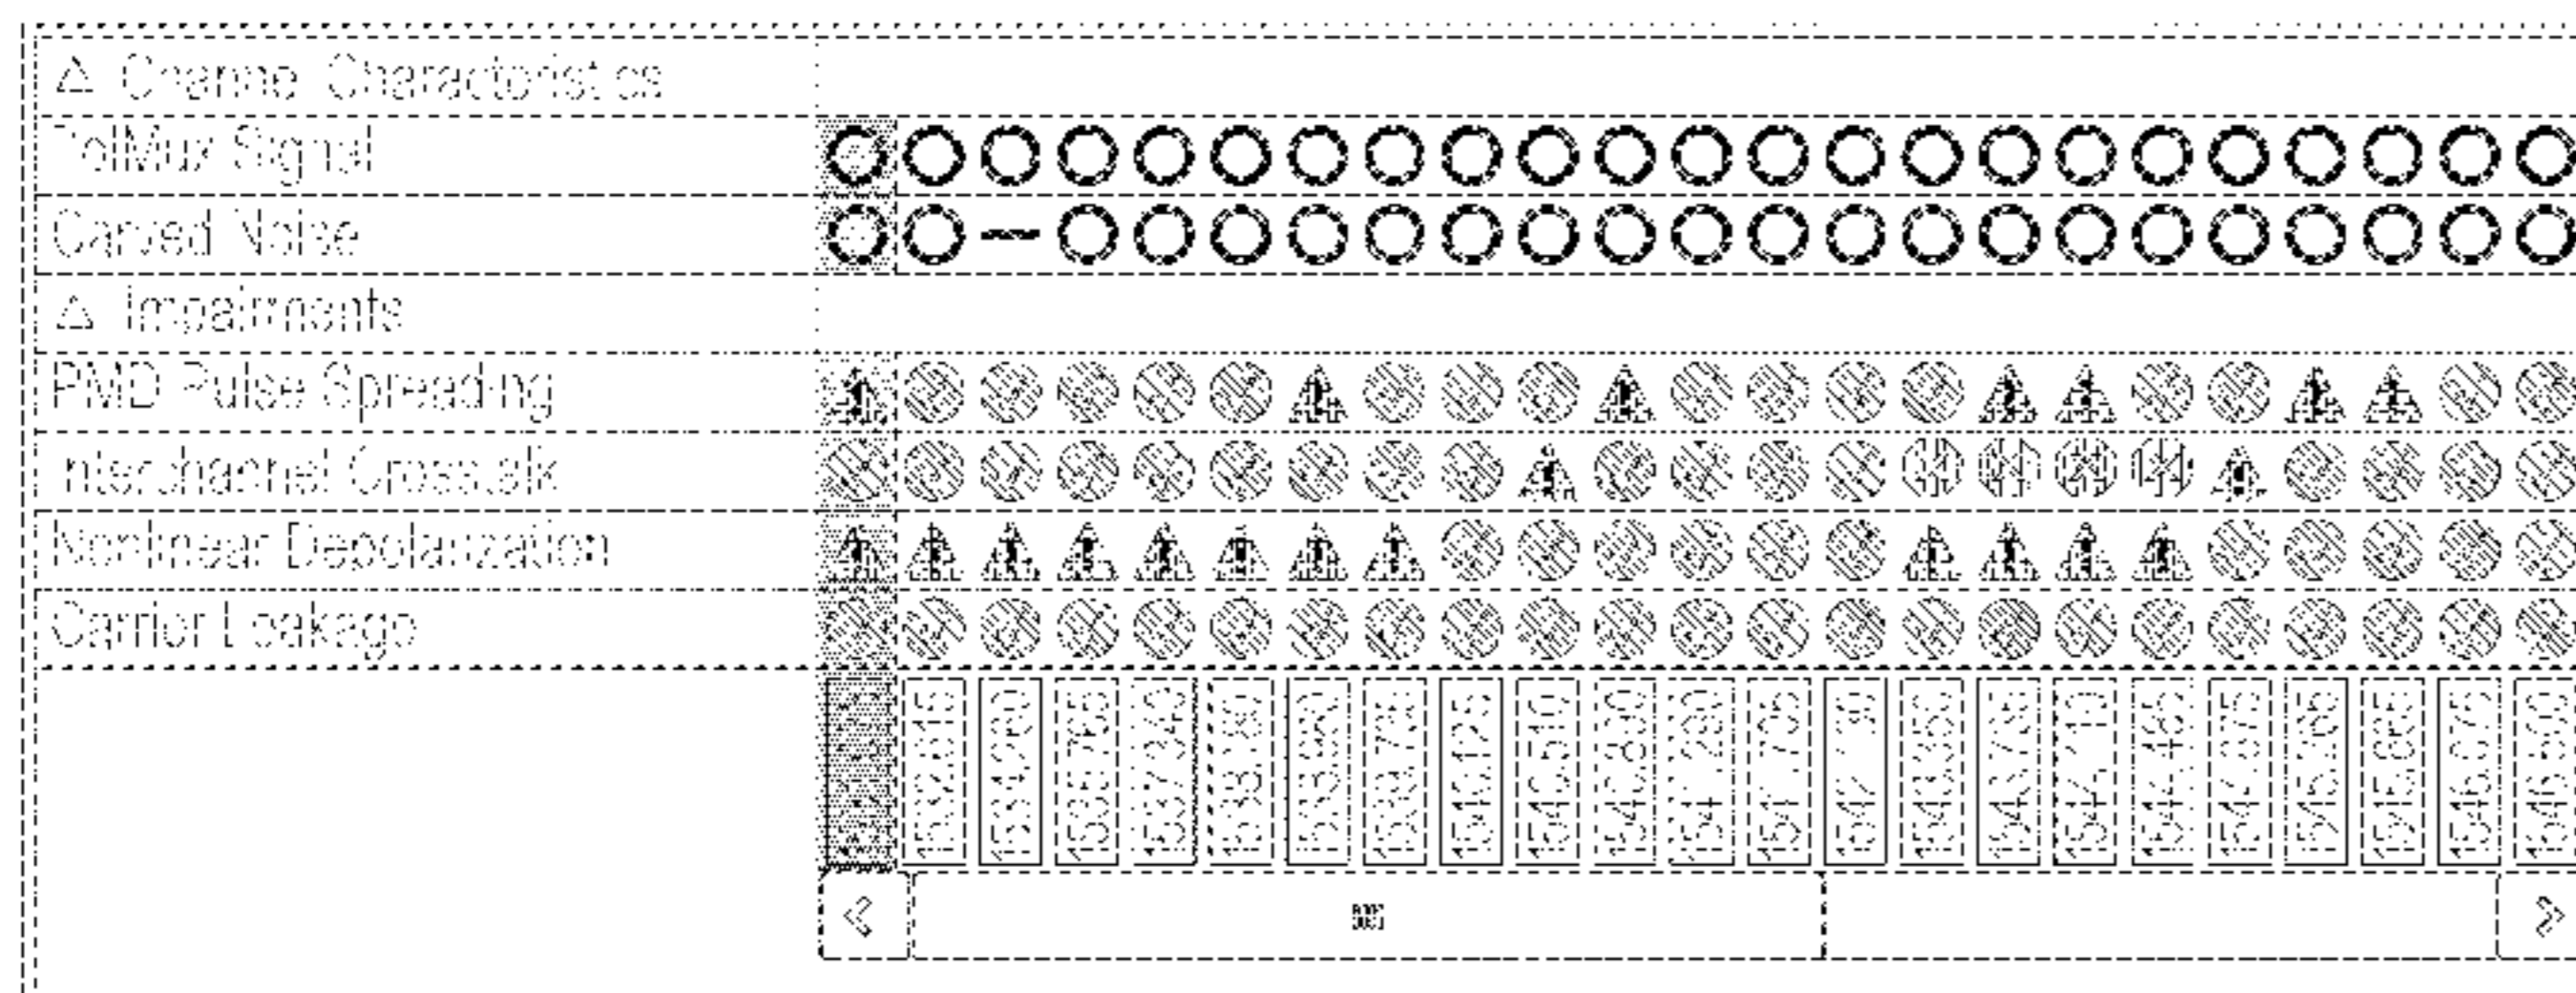

DESCRIPTION

FIG. 1 is a front view of display screen or portion thereof with graphical user interface, showing our new design; FIG. 2 is a front view of a second embodiment thereof; and, FIG. 3 is a front view of a third embodiment thereof.

As represented by corresponding hatching, solid circular icons each marked with a check mark are of a green color, solid octagonal icons each marked with an “X” are of a red color and solid triangular icons each marked with an exclamation point are of a yellow color.

The broken line showing of the display screen, text or other graphical elements are included to show environmental unclaimed subject matter and form no part of the claimed design.
