(57) **CLAIM**

The ornamental design for a computer display screen with graphical user interface, as shown and described.

DESCRIPTION

The FIGURE is a front view of a computer display screen with graphical user interface showing our new design.

The outer solid line perimeter in the figures represents both the boundaries of the display screen and the graphical user interface. This outer edge of the portion of the display screen is understood to be congruent with the outer edge of the graphical user interface.

The broken lines in the drawings illustrate portions of the computer display screen with graphical user interface that forms no part of the claimed design.
