(57) **CLAIM**

The ornamental design for an display screen with an animated graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front view of a first image of a first embodiment of an display screen with an animated graphical user interface showing my new design;

FIG. 2 is a front view of a second image thereof;

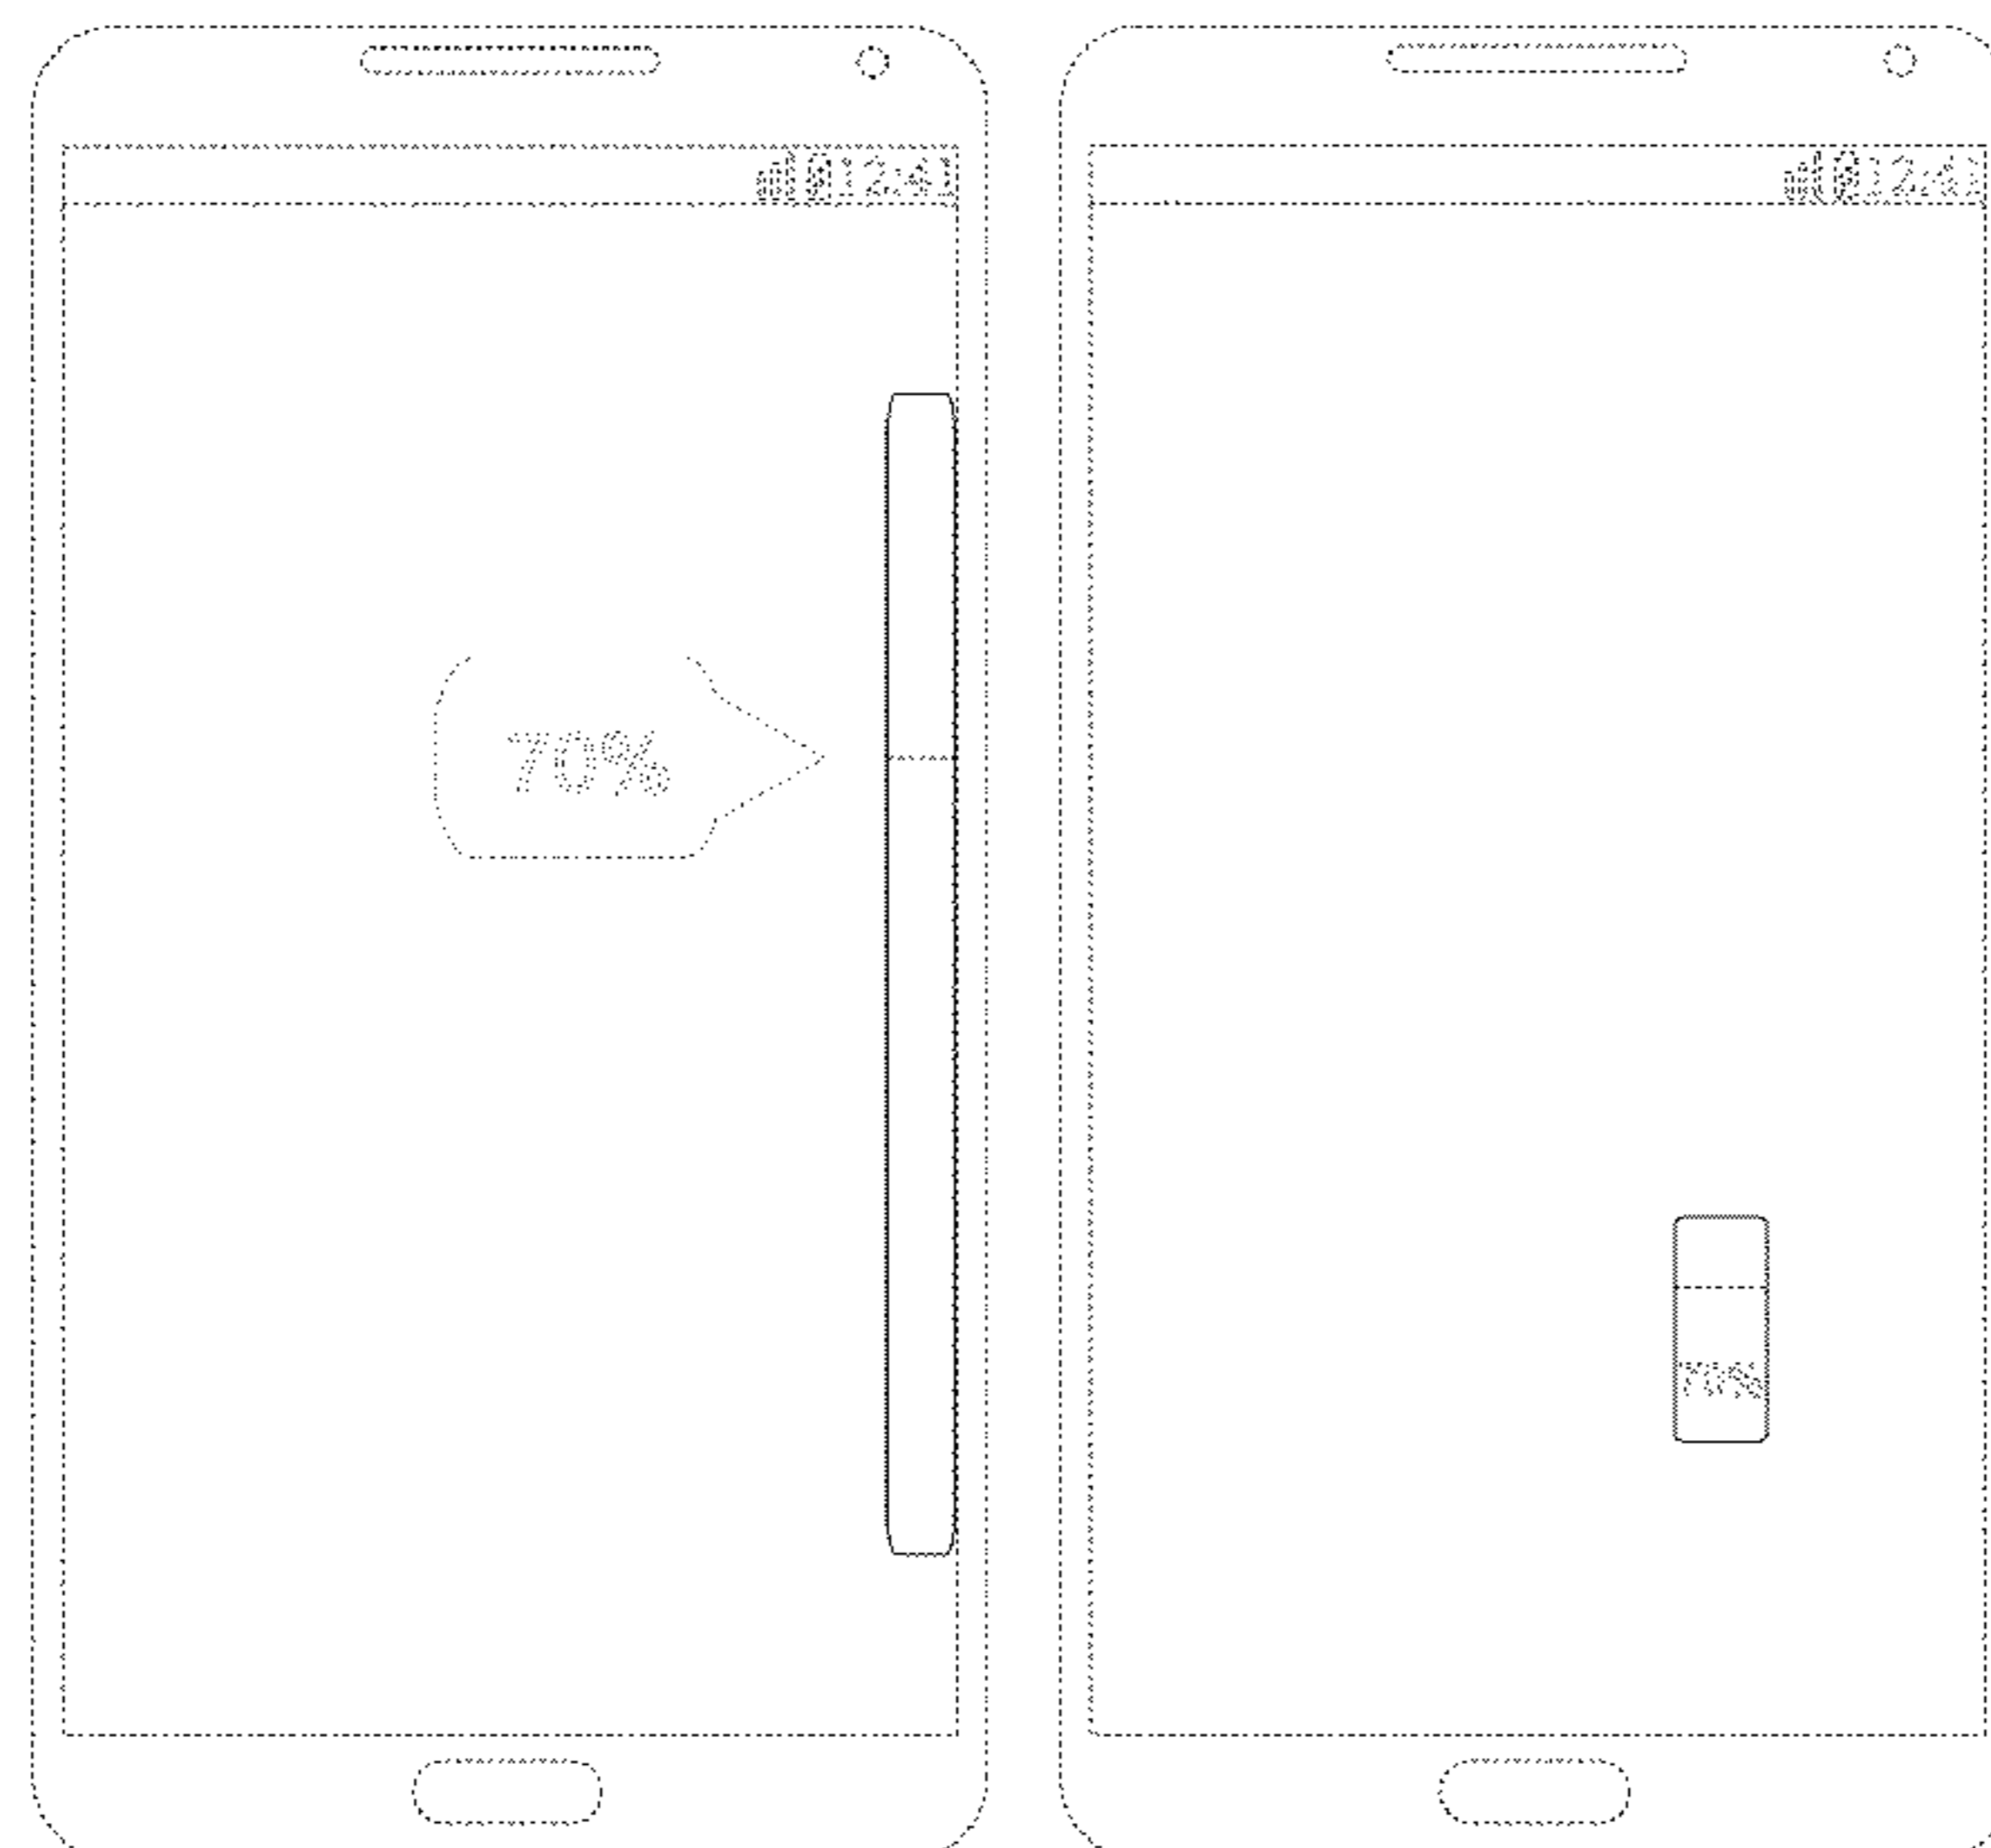

FIG. 3 is a front view of a first image of a second embodiment of an display screen with an animated graphical user interface showing my new design; and,

FIG. 4 is a front view of a second image thereof.

In the first embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 2. In the second embodiment, the appearance of the transitional image sequentially transitions between the images shown in FIGS. 3 through 4. The process or period in which one image transitions to another image forms no part of the claimed design.

In the drawings, the broken lines are for the purpose of illustrating portions of an display screen with an animated graphical user interface and an environmental mobile device that forms no part of the claimed design.
