(57) **CLAIM**
The ornamental design for a cabinet with extension, as shown and described.

DESCRIPTION

FIG. 1 is a right, top, and front perspective view of a cabinet with extension showing a flip-up door disposed in a vertical, closed position and an extension in a retracted position; FIG. 2 is a right side view of the cabinet with extension shown in FIG. 1, the left side view being a substantially mirror image of FIG. 2; FIG. 3 is a front view of the cabinet with extension shown in FIG. 1; FIG. 4 is a top view of the cabinet with extension shown in FIG. 1; FIG. 5 is a bottom view of the cabinet with extension shown in FIG. 1; FIG. 6 is a rear view of the cabinet with extension shown in FIG. 1; FIG. 7 is a right, top, and front perspective view of the cabinet with extension showing the flip-up door disposed in a horizontal, open position, an interior shelf in an extended position, and the extension in the retracted position, the rear view of the cabinet with extension being substantially identical to the rear view shown in FIG. 6; FIG. 8 is a right side view of the cabinet with extension shown in FIG. 7, the left side view being a substantially mirror image of FIG. 8; FIG. 9 is a front view of the cabinet with extension shown in FIG. 7; FIG. 10 is a top view of the cabinet with extension shown in FIG. 7;

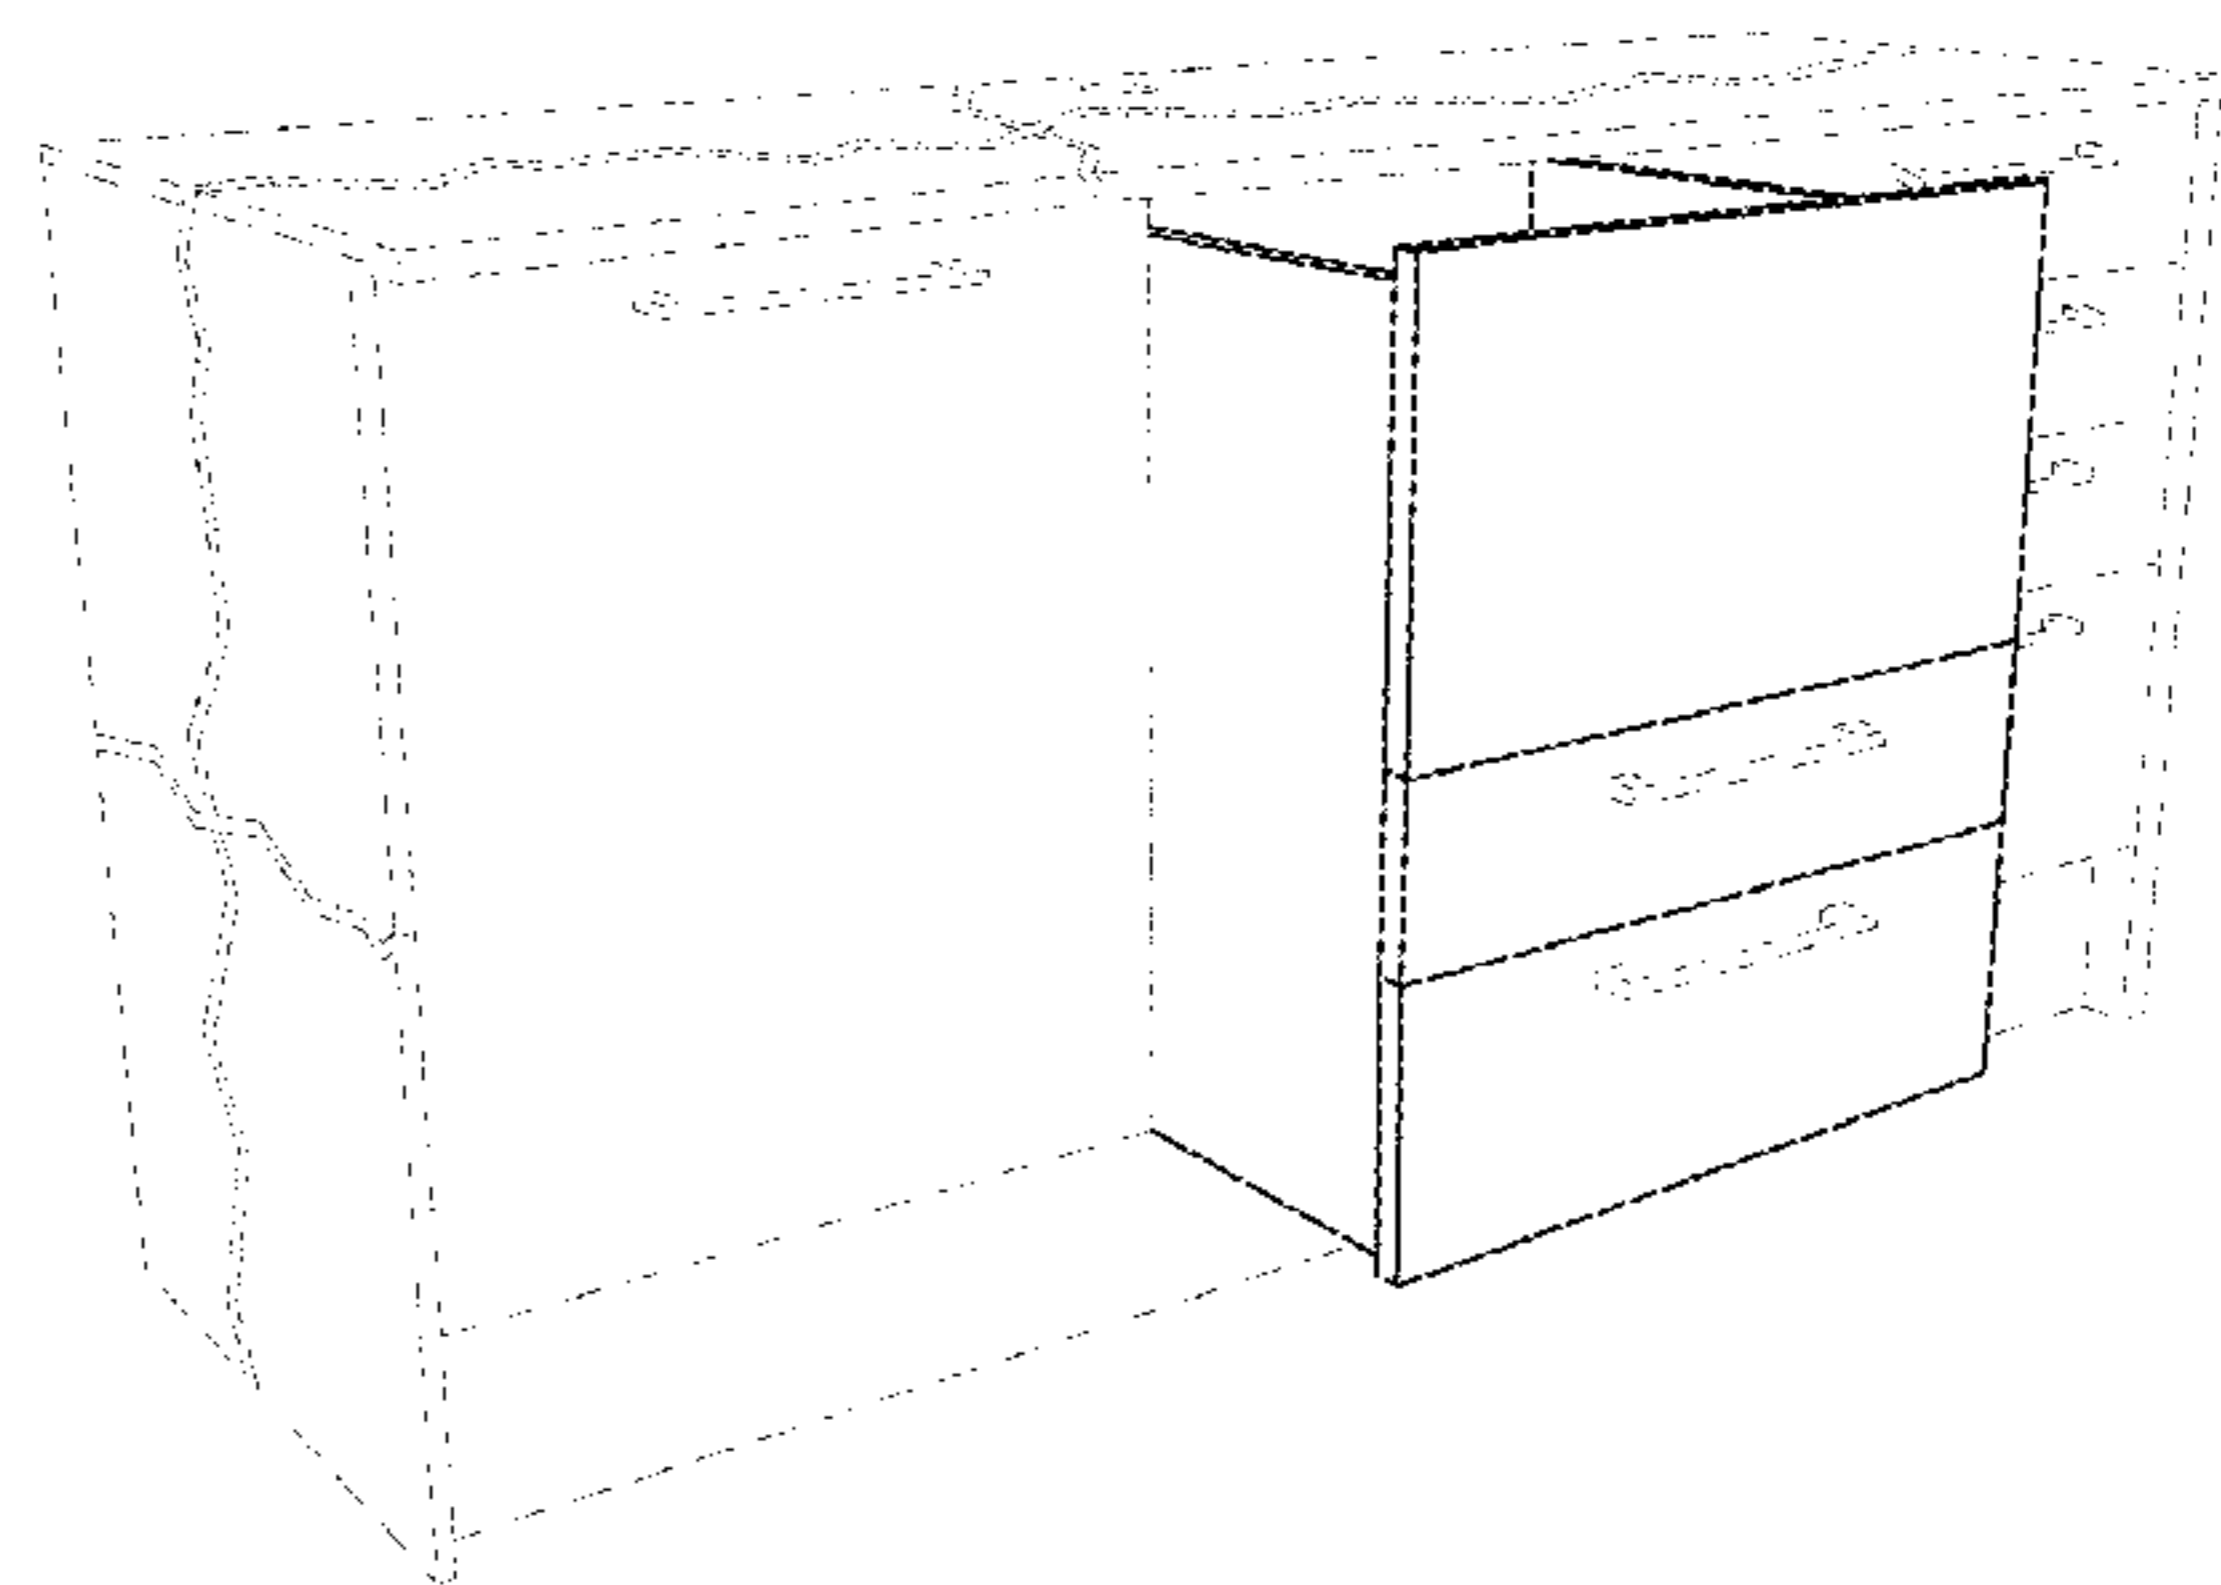

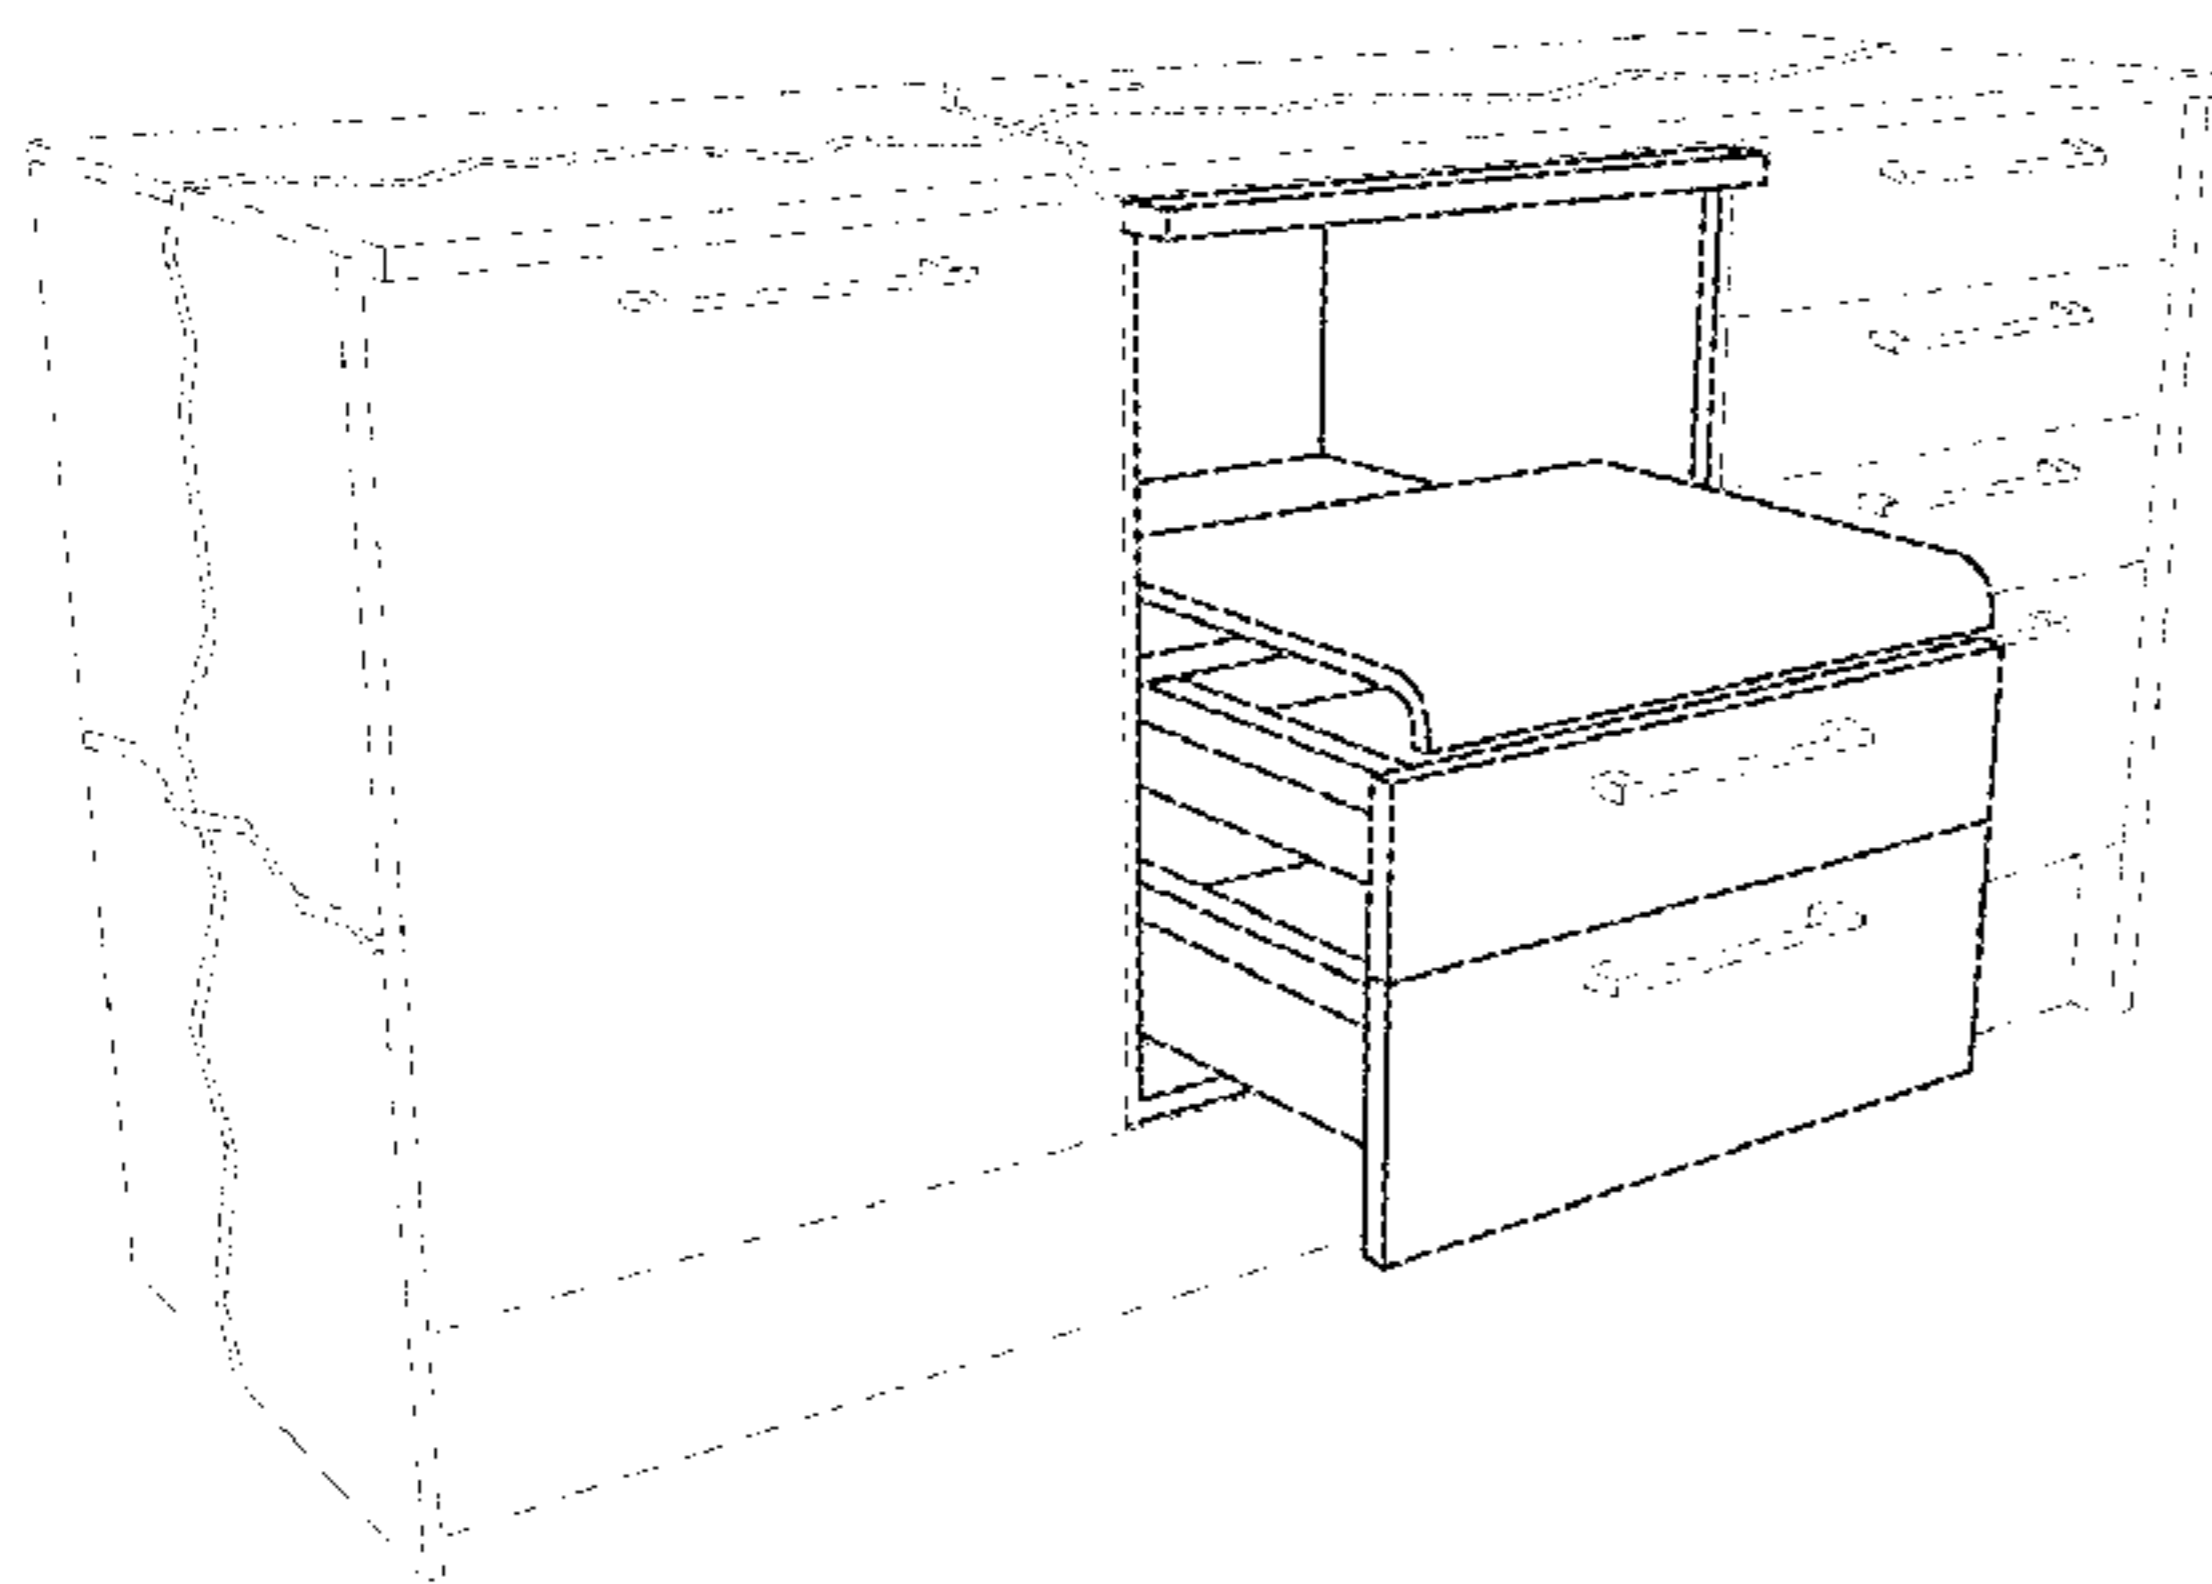

FIG. 11 is a bottom view of the cabinet with extension shown in FIG. 7;

FIG. 12 is a right, top, and front perspective view of the cabinet with extension showing the flip-up door disposed in the vertical, closed position, the extension in an extended position, and an opening in the top of the extension, the rear view of the cabinet with extension being substantially identical to the rear view shown in FIG. 6;

FIG. 13 is a right side view of the cabinet with extension shown in FIG. 12, the left side view being a substantially mirror image of FIG. 13;

FIG. 14 is a front view of the cabinet with extension shown in FIG. 12;

FIG. 15 is a top view of the cabinet with extension shown in FIG. 12, wherein the interior shelf is visible through the opening in the top of the extension;

FIG. 16 is a bottom view of the cabinet with extension shown in FIG. 12;

FIG. 17 is a right, top, and front perspective view of the cabinet with extension showing the flip-up door disposed in

the horizontal, open position, the interior shelf in the extended position, and the extension in the extended position, the rear view of the cabinet with extension being substantially identical to the rear view shown in FIG. 6;

FIG. 18 is a right side view of the cabinet with extension shown in FIG. 17, the left side view being a substantially mirror image of FIG. 18;

FIG. 19 is a front view of the cabinet with extension shown in FIG. 17;

FIG. 20 is a top view of the cabinet with extension shown in FIG. 17; and,

FIG. 21 is a bottom view of the cabinet with extension shown in FIG. 17.

The broken, dashed lines shown in the drawings are for illustrative purposes only and form no part of the claimed design. Pairs of closely spaced, jagged dot-dash lines indicate indeterminate length and form no part of the claimed design.
