(57) **CLAIM**

The ornamental design for a multimedia terminal with transitional graphical user interface, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of a multimedia terminal with transitional graphical user interface showing our new design in a first state of a dynamic image including a button image;

FIG. 2 is another front perspective view in a second state thereof;

FIG. 3 is another front perspective view in a third state thereof;

FIG. 4 is another front perspective view in a fourth state thereof; and,

FIG. 5 is another front perspective view in a fifth state thereof. The broken lines shown in the drawings are for illustrative purposes only and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-5. No ornamental aspects are associated with the process or period in which one image transitions to another image.
