(57) **CLAIM**

The ornamental design for a cut resistant glove with elastomeric strap, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of the cut resistant glove with elastomeric strap showing my new design, the elastomeric strap being shown in a relaxed state; FIG. 2 is a front elevation view thereof; FIG. 3 is a left side elevation view thereof; FIG. 4 is a rear elevation view thereof; FIG. 5 is a right side elevation view thereof; FIG. 6 is a top plan view thereof; FIG. 7 is a bottom plan view thereof; FIG. 8 is a top plan view thereof showing the elastomeric strap in a stretched state; FIG. 9 is a top plan view thereof showing the elastomeric strap removed from the cut resistant glove for clarity of illustration; and, FIG. 10 is a left side elevation view of the elastomeric strap shown in FIG. 9.

The broken lines in the drawings illustrate features of the article of manufacture that form no part of the claimed design. The mesh, although shown intermittently in the drawings for ease of illustration, is understood to be distributed uniformly over the surfaces of the glove.

A portion of the disclosure of this patent document contains material which is subject to copyright protection. This patent document may show and/or describe matter which is or may become trade dress of the owner. The copyright and trade dress owner has no objection to the facsimile reproduction by anyone of the patent disclosure as it appears in the Patent and Trademark Office patent files or records, but otherwise reserves all copyright and trade dress rights whatsoever.
