(57) **CLAIM**

The ornamental design for a swaddle blanket, as shown and described.

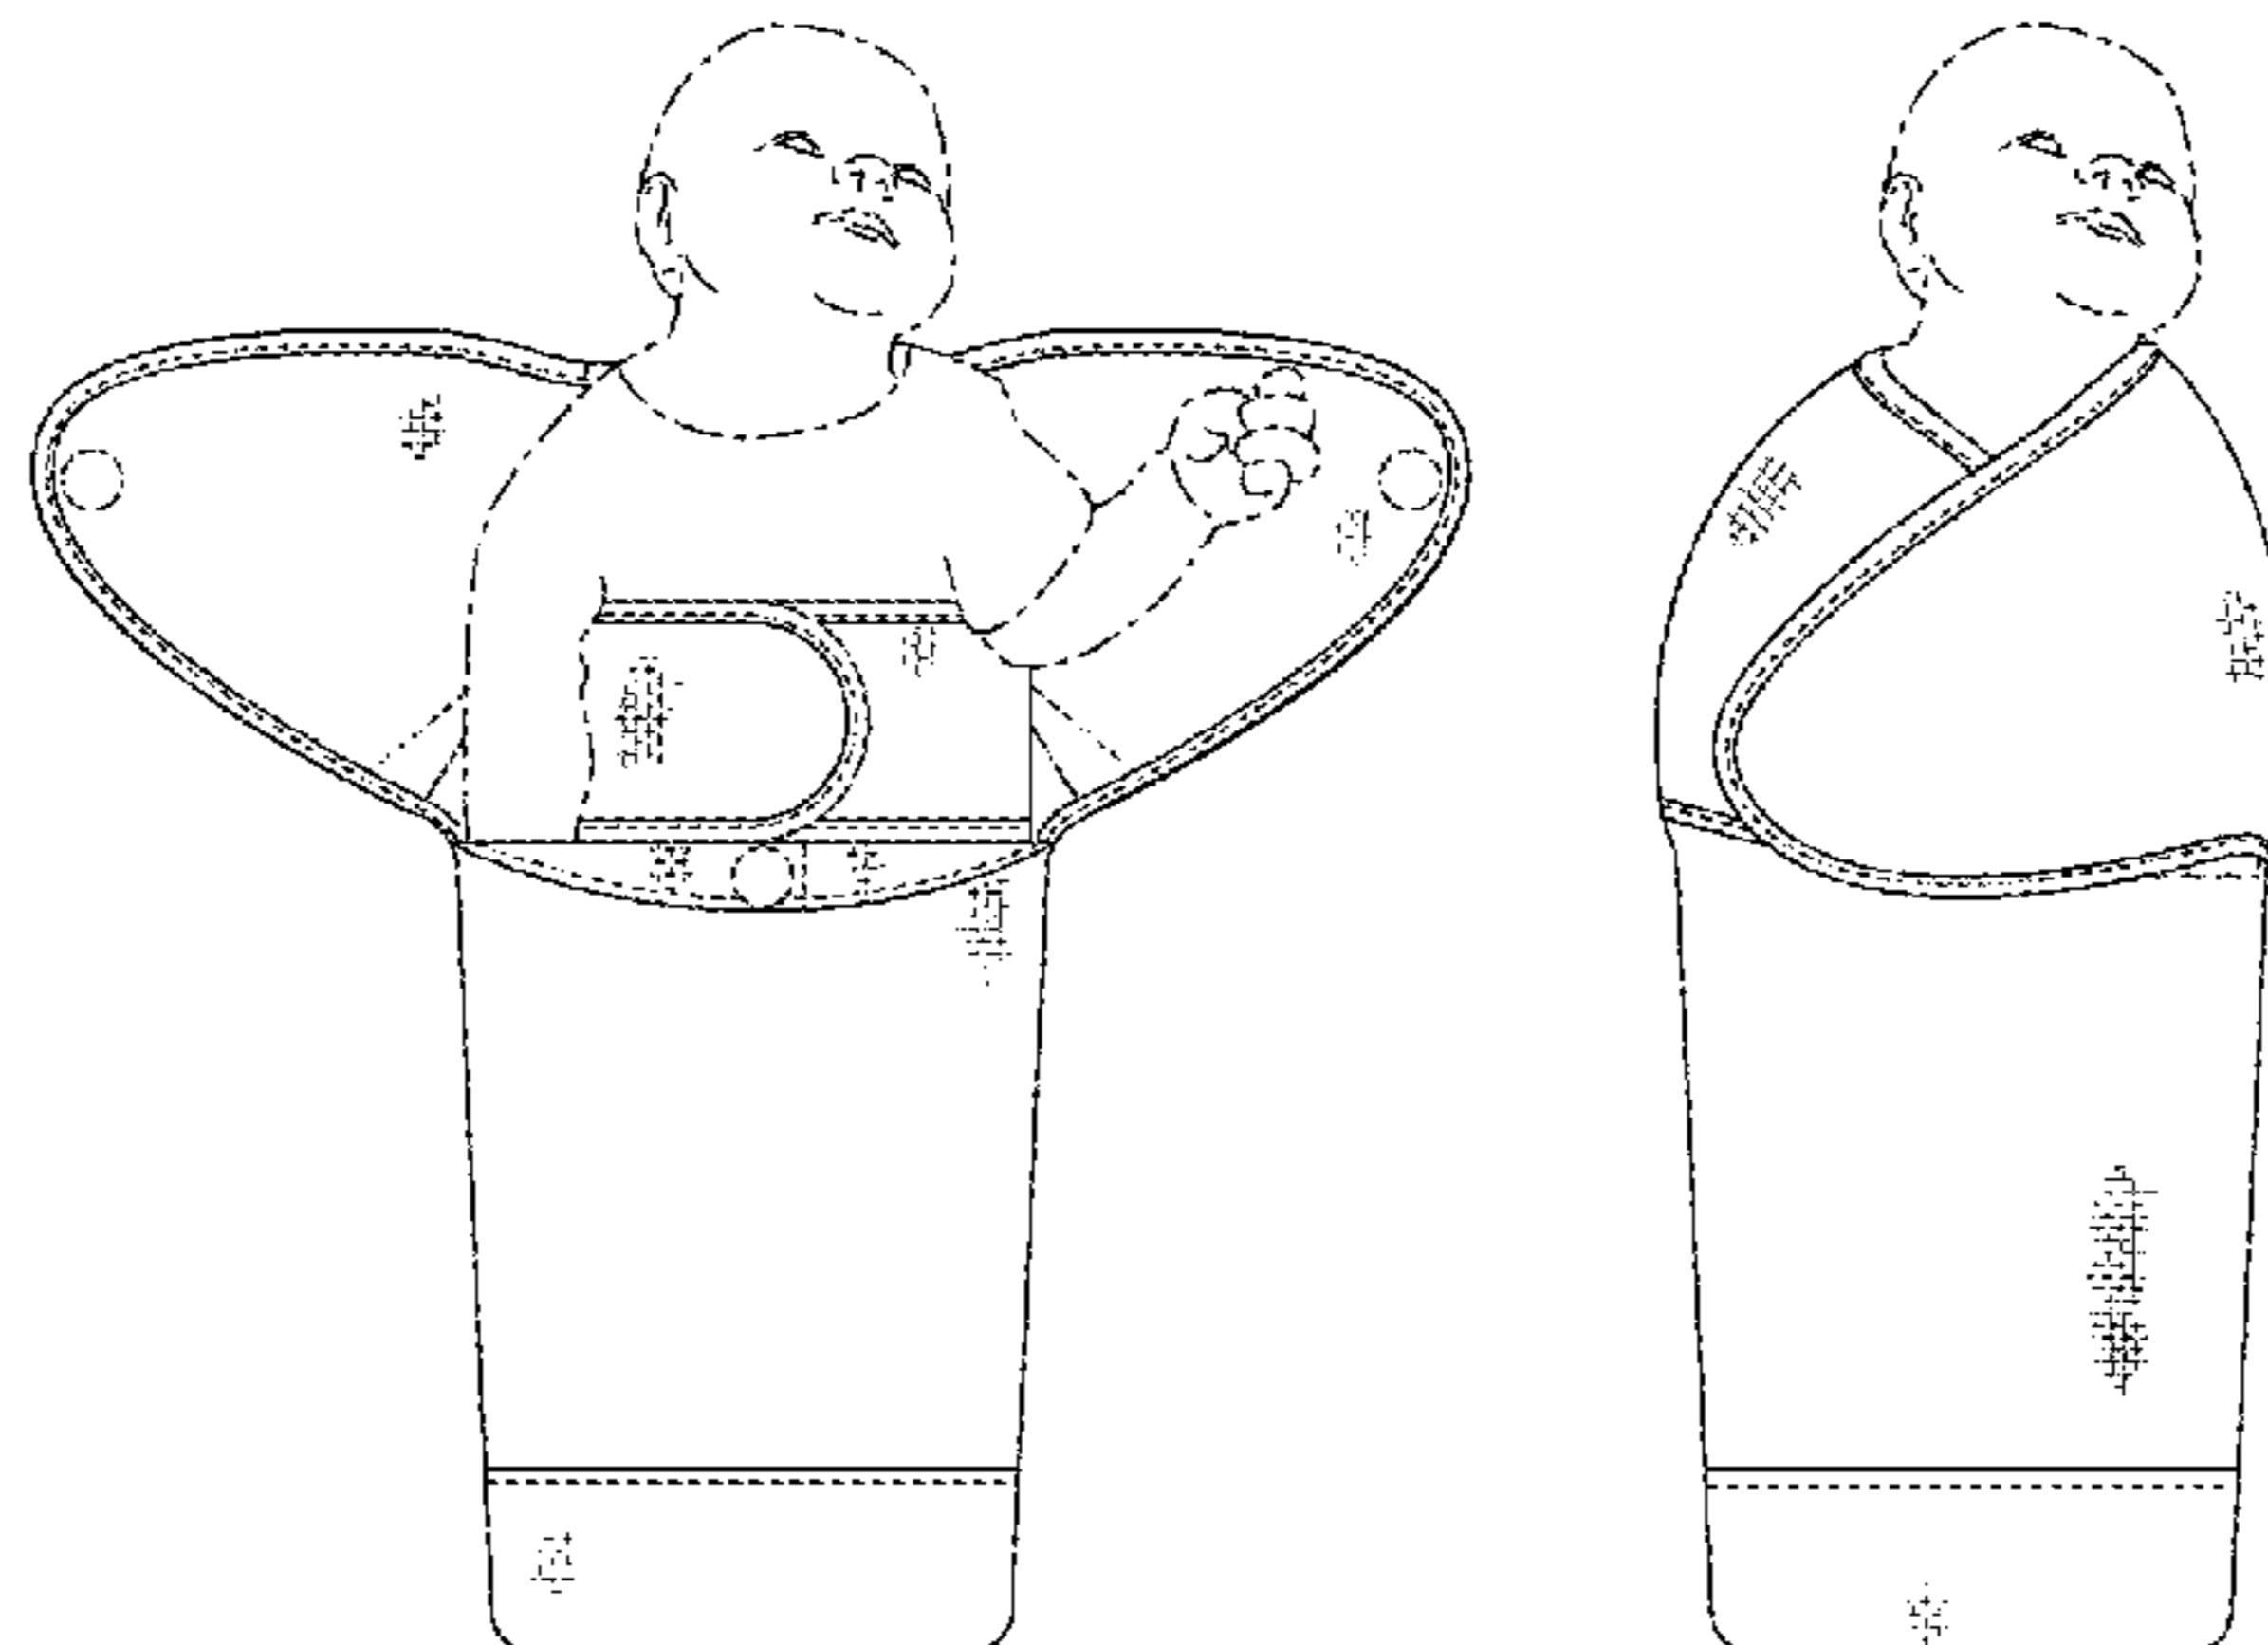

DESCRIPTION

FIG. 1 is a front elevation view of a swaddle blanket showing my new design wherein the outer portion is shown in an open position and the inner portion is shown in a closed position; FIG. 2 is a rear elevation view thereof; FIG. 3 is a front elevation view thereof shown in an environment wherein the inner and outer portions are shown in the open position; FIG. 4 is a front elevation view thereof shown in an environment wherein the outer portion is shown in an open position and the inner portion is shown in a closed position; FIG. 5 is a front elevation view thereof shown in an environment wherein the right wing portion is in the closed position; FIG. 6 is a front elevation view thereof shown in an environment wherein the left wing portion is in a closed position and overlapping the right wing portion; FIG. 7 is a front elevation view thereof shown in an environment in the closed position wherein the with a bottom portion is in an open position; FIG. 8 is a right side view thereof shown in an environment in the closed position wherein the bottom portion is in the open position; and, FIG. 9 is a left side view thereof shown in an environment in the closed position wherein the bottom portion is in the open position.

The pattern sporadically depicted throughout the views is intended to indicate that the pattern is continuous throughout the surface on which the pattern is shown.

The long dash broken lines and the dot-dash broken lines are directed to environment; the broken lines form no part of the claimed design. The evenly spaced broken lines in FIGS. 1-9 represent stitching and form part of the claimed design.
