(57) **CLAIM**

The ornamental design for a drawer with extension, as shown and described.

**DESCRIPTION**

FIG. 1 is a right, top, and front perspective view of a drawer with extension showing a drawer in a closed position and an extension in a retracted position;  
 FIG. 2 is a right side view of the drawer with extension shown in FIG. 1, the left side view being a substantially mirror image of FIG. 2;  
 FIG. 3 is a front view of the drawer with extension shown in FIG. 1;  
 FIG. 4 is a top view of the drawer with extension shown in FIG. 1;  
 FIG. 5 is a bottom view of the drawer with extension shown in FIG. 1;  
 FIG. 6 is a rear view of the drawer with extension shown in FIG. 1;  
 FIG. 7 is a right, top, and front perspective view of the drawer with extension showing the drawer in an opened position and the extension in the retracted position, the rear view of the drawer with extension being substantially identical to the rear view shown in FIG. 6;  
 FIG. 8 is a right side view of the drawer with extension shown in FIG. 7, the left side view being a substantially mirror image of FIG. 8;  
 FIG. 9 is a front view of the drawer with extension shown in FIG. 7;  
 FIG. 10 is a top view of the drawer with extension shown in FIG. 7;  
 FIG. 11 is a bottom view of the drawer with extension shown in FIG. 7;

FIG. 12 is a right, top, and front perspective view of the drawer with extension showing the drawer in the closed position and the extension in an extended position, the rear view of the drawer with extension being substantially identical to the rear view shown in FIG. 6;

FIG. 13 is a right side view of the drawer with extension shown in FIG. 12, the left side view being a substantially mirror image of FIG. 13;

FIG. 14 is a front view of the drawer with extension shown in FIG. 12;

FIG. 15 is a top view of the drawer with extension shown in FIG. 12;

FIG. 16 is a bottom view of the drawer with extension shown in FIG. 12;

FIG. 17 is a right, top, and front perspective view of the drawer with extension showing the drawer in the opened position and the extension in the extended position, the rear view of the drawer with extension being substantially identical to the rear view shown in FIG. 6;

FIG. 18 is a right side view of the drawer with extension shown in FIG. 17, the left side view being a substantially mirror image of FIG. 18;

FIG. 19 is a front view of the drawer with extension shown in FIG. 17;

FIG. 20 is a top view of the drawer with extension shown in FIG. 17; and,

FIG. 21 is a bottom view of the drawer with extension shown in FIG. 17.

The broken, dashed lines shown in the drawings are for illustrative purposes only and form no part of the claimed design. Pairs of closely spaced, jagged dot-dash lines indicate indeterminate length and form no part of the claimed design. In the front views shown in FIGS. 3, 9, 14, and 19, thicker solid lines indicate a part of the drawer with extension that is closer, while thinner solid lines indicate a part of the drawer with extension that is farther away.
