(57) **CLAIM**

The ornamental design for a wireless device for signal relay device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of the front, right, and top sides of a wireless device for signal relay device showing our new design;

FIG. 2 is a perspective view of the rear, left, and bottom sides thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a rear view thereof;

FIG. 5 is a left side view thereof;

FIG. 6 is a right side view thereof;

FIG. 7 is a top view thereof;

FIG. 8 is a bottom view thereof;

FIG. 9 is a perspective of the wireless device for signal relay device in an environment of use; and,

FIG. 10 is a perspective view of the wireless device for signal relay device in a second environment of use.

The broken lines showing the antenna in FIGS. 1-10 are included for the purpose of illustrating portions of the article and form no part of the claim. The Broken lines showing a laptop and wireless relay device in FIGS. 9-10 are included for the purpose of illustrating environmental subject matter and form no part of the claimed design.
