(57) **CLAIM**

The ornamental design for a cord puller assembly, as shown and described.

DESCRIPTION

FIG. 1 is a top view of a cord puller assembly.

FIG. 2 is a left view of the cord puller assembly.

FIG. 3 is a front view of the cord puller assembly.

FIG. 4 is a right view of the cord puller assembly.

FIG. 5 is a bottom view of the cord puller assembly.

FIG. 6 is a first perspective view of the cord puller assembly.

FIG. 7 is a second perspective view of the cord puller assembly.

FIG. 8 is a reference view of the cord puller assembly in a usage condition.

FIG. 9 is a top view of a top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 10 is a left view of the top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 11 is a front view of the top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 12 is a right view of the top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 13 is a bottom view of the top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 14 is a first perspective view of the top part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 15 is a bottom perspective view of the first part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 16 is a top view of a bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 17 is a left view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 18 is a front view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 19 is a right view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

FIG. 20 is a bottom view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure. FIG. 21 is a first perspective view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure; and,

FIG. 22 is a second perspective view of the bottom part of the cord puller assembly, with the remainder of the cord puller assembly not included for clarity of disclosure.

The broken lines are included for the purpose of showing environmental structure, and form no part of the claimed design.

1 Claim, 8 Drawing Sheets
