(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in the sequence for an animated graphical display screen with user interface showing my new design;

FIG. 2 is a second image thereof in a state in which the lower left box in FIG. 1 has been selected by the user;

FIG. 3 is a third image in the configuration when the display screen is rotated vertically;

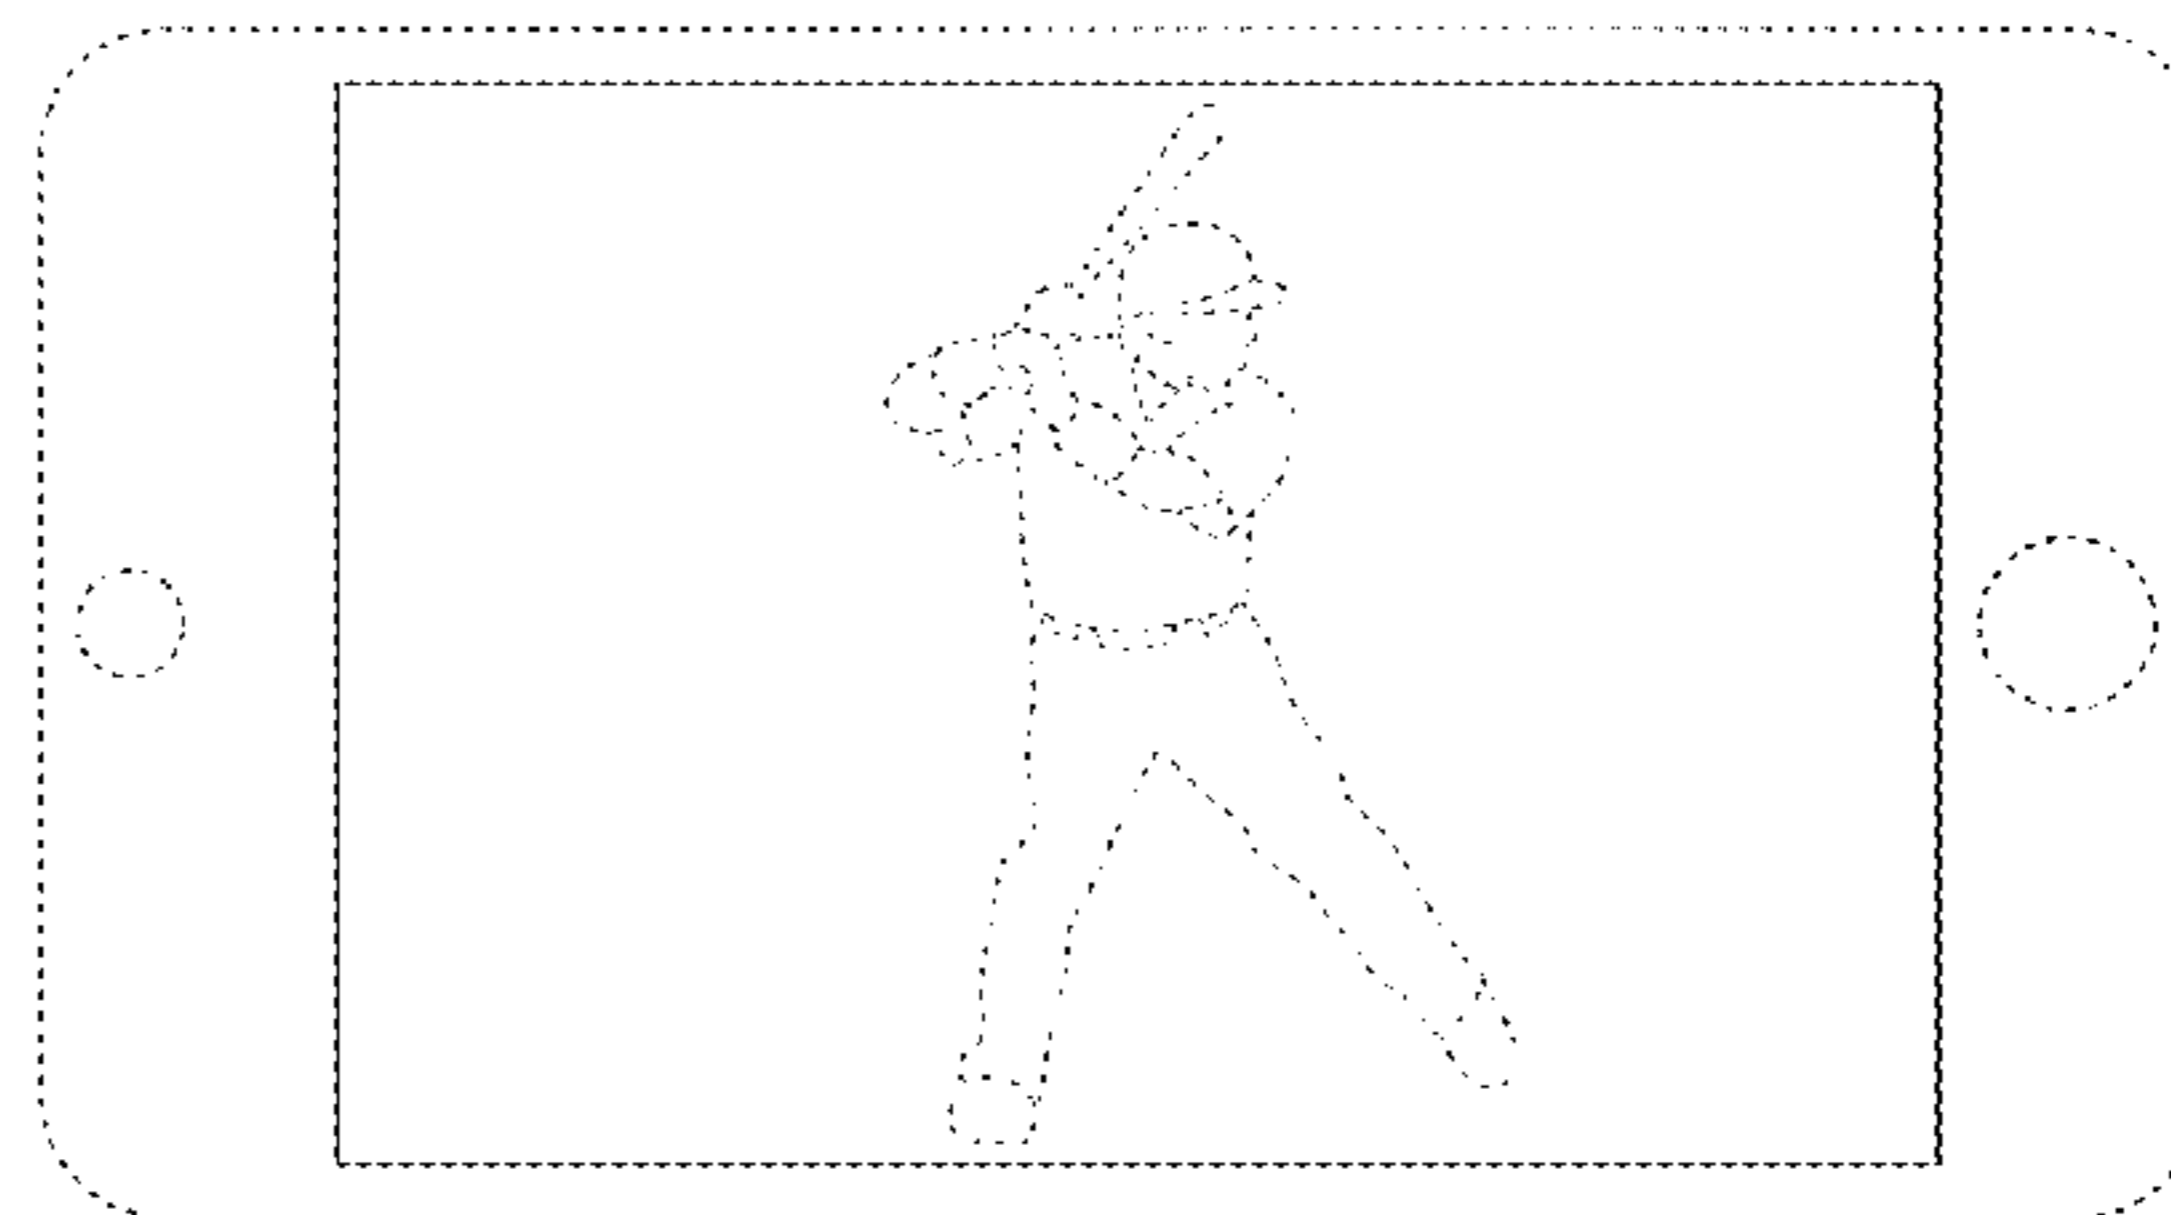

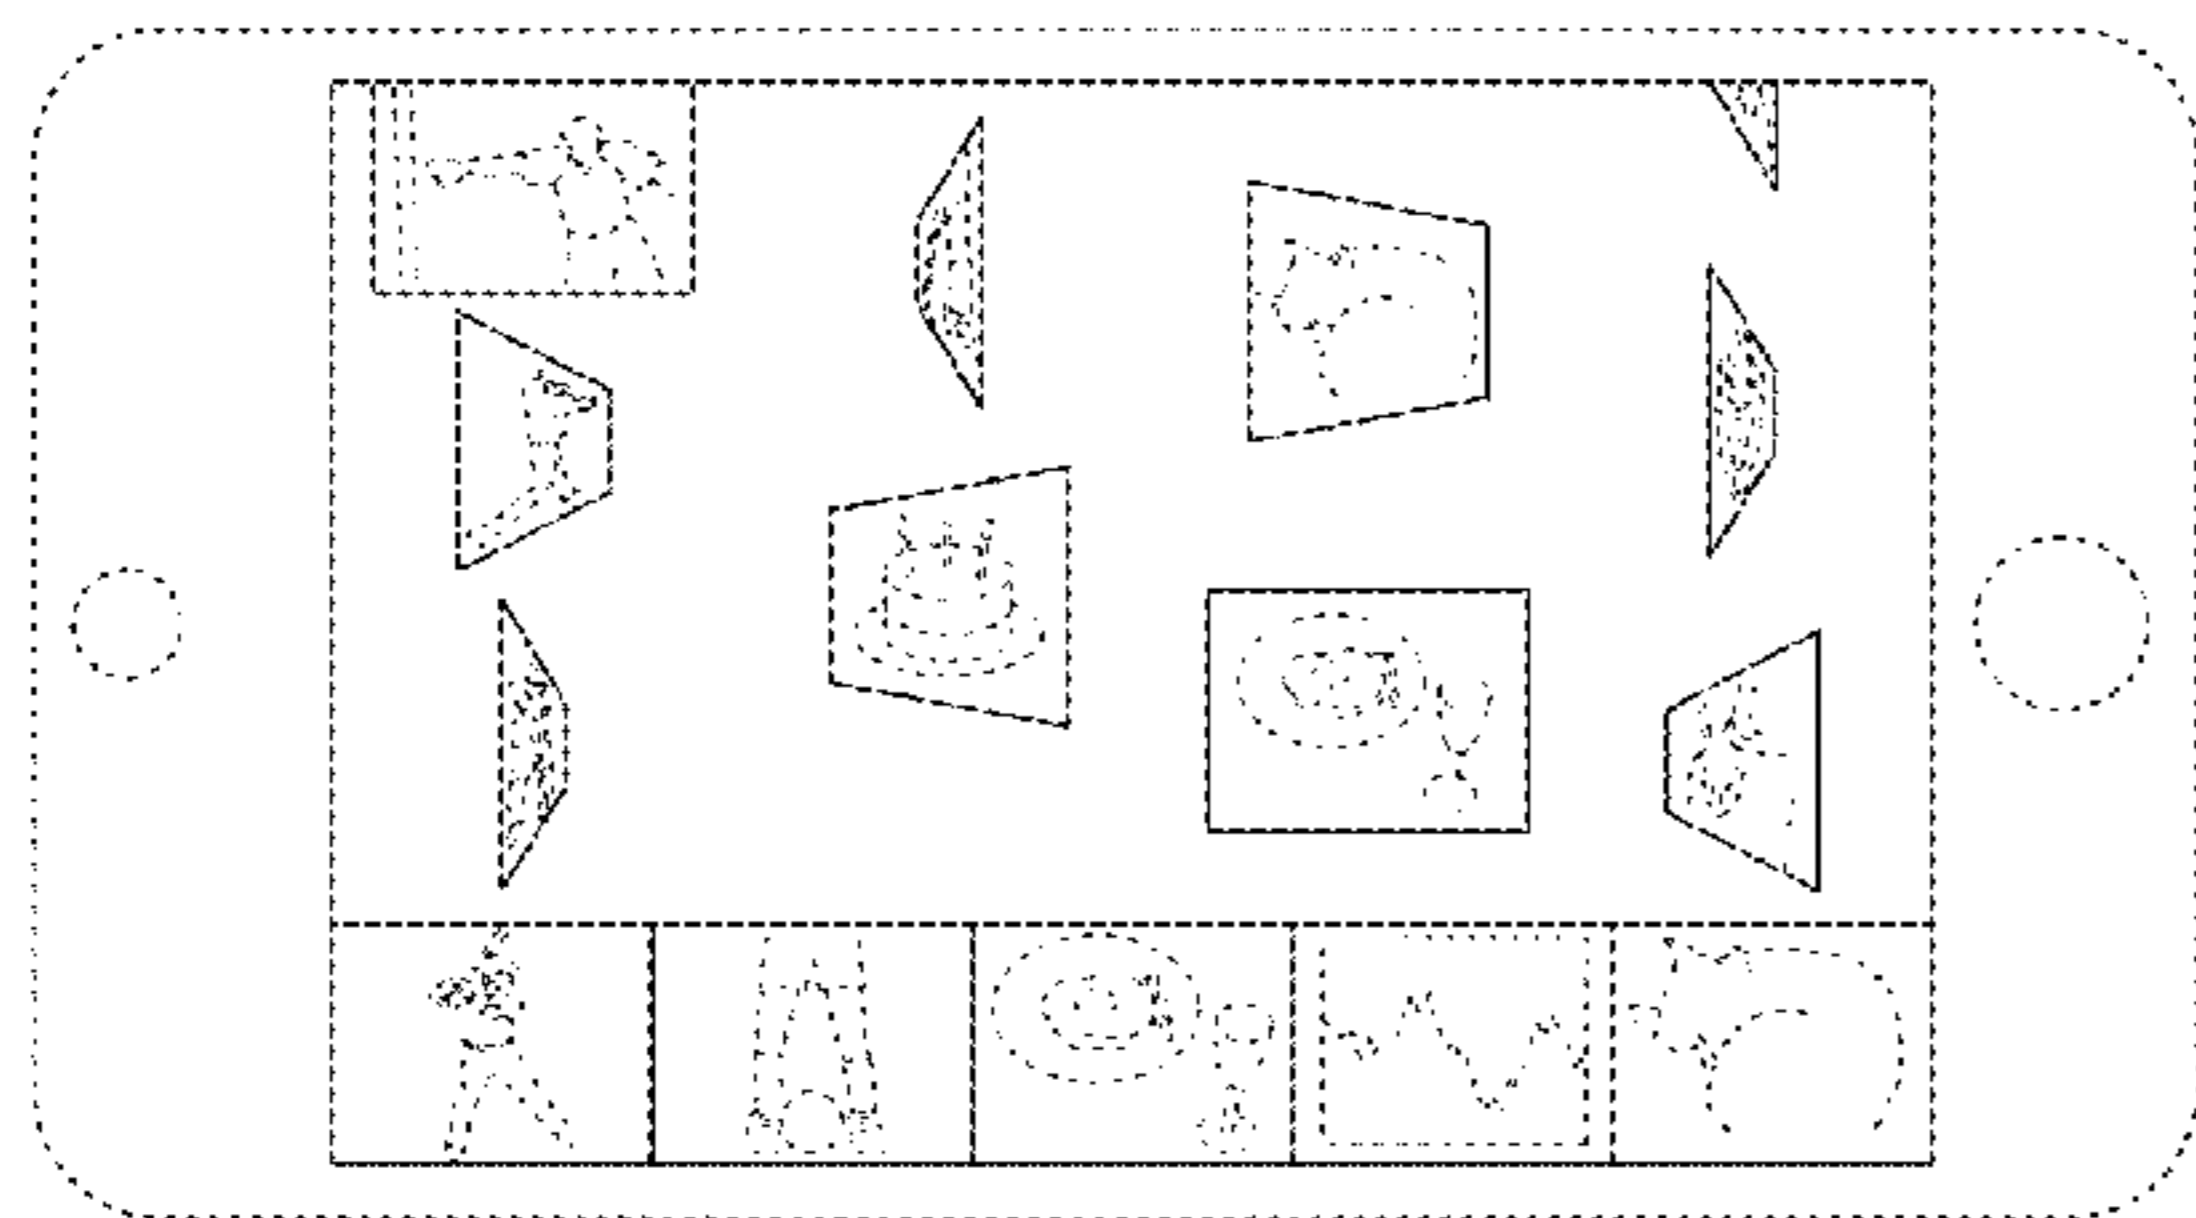

FIG. 4 is a fourth image thereof; and,

FIG. 5 is a fifth image thereof in the configuration when the display screen is rotated horizontally.

The appearance of the animated user interface sequentially transitions between FIGS. 1 to 5. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines showing of the display screen with user interface in all embodiments are for environmental purposes only and form no part of the claimed design.
