(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for automated sample incubator, as shown and described.

DESCRIPTION

The FIGURE is a front view of a display screen with graphical user interface for automated sample incubator of our new design.

The portions of the display screen, text, and other features depicted in broken lines are not part of the claimed design. The outer edge of the display screen is understood to be congruent with the outer edge of the graphical user interface.
