(57) **CLAIM**

The ornamental design for a multi-functional handle, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front, distal side perspective view of the multi-functional handle;  
FIG. 2 is a bottom, rear, proximal side perspective view of the multi-functional handle;  
FIG. 3 is a side view of the multi-functional handle in a front end position, with longitudinal rotational symmetry;  
FIG. 4 is a side view of the multi-functional handle in a middle position, with longitudinal rotational symmetry;  
FIG. 5 is a side view of the multi-functional handle in a back end position, with longitudinal rotational symmetry;  
FIG. 6 is a front view of the multi-functional handle; and,  
FIG. 7 is a rear view of the multi-functional handle.  
As shown in the Figs., and particularly FIGS. 3-5, the inner and outer cylinders are moveable against each other.
