(57) **CLAIM**

The ornamental design for a beverage cooling system, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a beverage cooling system according to the present invention including a beverage cooling device being carried by a beverage cooling container.

FIG. 2 is an exploded perspective view of the beverage cooling system illustrated in FIG. 1 showing the beverage cooling device being removed from the beverage cooling container.

FIG. 3 is a side elevation view of the beverage cooling container of the beverage cooling system illustrated in FIG. 1.

FIG. 4 is a top plan view of the beverage cooling container illustrated in FIG. 3.

FIG. 5 is a bottom plan view of the beverage cooling container illustrated in FIG. 3.

FIG. 6 is a perspective view of a beverage cooling device of the beverage cooling system illustrated in FIG. 1.

FIG. 7 is a front elevation view of the beverage cooling device illustrated in FIG. 6; and,

FIG. 8 is a side elevation view of the beverage cooling device illustrated in FIG. 6.

The beverage cooling container and device are shown separately for clarity of illustration.
