(57) **CLAIM**

The ornamental design for a display screen or a portion of a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. **1** is the first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design;
FIG. **2** is the second image thereof;
FIG. **3** is the third image thereof;
FIG. **4** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with animated graphical user interface showing my new design;
FIG. **5** is the second image thereof;
FIG. **6** is the third image thereof;
FIG. **7** is the fourth image thereof;
FIG. **8** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design;
FIG. **9** is the second image thereof;
FIG. **10** is the third image thereof;
FIG. **11** is the fourth image thereof;
FIG. **12** is the fifth image thereof;
FIG. **13** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design;
FIG. **14** is the second image thereof;
FIG. **15** is the third image thereof;
FIG. **16** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design;
FIG. **17** is the second image thereof;
FIG. **18** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design;
FIG. **19** is the second image thereof;
FIG. **20** is the third image thereof;
FIG. **21** is another embodiment showing an alternate embodiment of a first image in a sequence for a display screen or a portion of a display screen with graphical user interface showing my new design; and,
FIG. **22** is the second image thereof.

The appearance of the animated user interface sequentially transitions between the images shown in FIGS. **1-3**; FIGS. **4-7**; FIGS. **8-12**; FIGS. **13-15**; FIGS. **16-17**; FIGS. **18-20**; and FIGS. **21-22**. The process or period in which one image transitions to another forms no part of the claimed design.

The subject matter shown in broken lines, for example, the "X"s in the figures is for illustrative purposes only and forms no part of the claimed design.

The gray annular region does not represent any particular color but does represent the brightness.
