CLAIM

We claim the ornamental design for an adhesive bandage with decorated pad, as shown and described.

DESCRIPTION

FIG. 1 is a plan view of a first embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 2 is a side elevational view of the embodiment of FIG. 1, the opposite side elevational view being a mirror image thereof;

FIG. 3 is an end elevational view of the embodiment of FIG. 1, the opposite end elevational view being a mirror image thereof;

FIG. 4 is a plan view of a second embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 5 is a side elevational view of the embodiment of FIG. 4, the opposite side elevational view being a mirror image thereof;

FIG. 6 is an end elevational view of the embodiment of FIG. 4, the opposite end elevational view being a mirror image thereof;

FIG. 7 is a plan view of a third embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 8 is a side elevational view of the embodiment of FIG. 7, the opposite side elevational view being a mirror image thereof;

FIG. 9 is an end elevational view of the embodiment of FIG. 7, the opposite end elevational view being a mirror image thereof;

FIG. 10 is a plan view of a fourth embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 11 is a side elevational view of the embodiment of FIG. 10, the opposite side elevational view being a mirror image thereof;

FIG. 12 is an end elevational view of the embodiment of FIG. 10, the opposite end elevational view being a mirror image thereof;

FIG. 13 is a plan view of a fifth embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 14 is a side elevational view of the embodiment of FIG. 13, the opposite side elevational view being a mirror image thereof;

FIG. 15 is an end elevational view of the embodiment of FIG. 13, the opposite end elevational view being a mirror image thereof;

FIG. 16 is a plan view of a sixth embodiment of an adhesive bandage with a decorated absorbent pad showing my new design;

FIG. 17 is a side elevational view of the embodiment of FIG. 16, the opposite side elevational view being a mirror image thereof; and,

FIG. 18 is an end elevational view of the embodiment of FIG. 16, the opposite end elevational view being a mirror image thereof.

The back side plan view, opposite the illustrated plan views, of the embodiments of FIGS. 1-18 is not shown because that side of the claimed areas of the adhesive backing layer is plain and unornamented, and the back side of the absorbent pad along with the back side of the portion of the adhesive backing layer to which the absorbent pad is adhered is illustrated in broken lines and thus is disclaimed.
