(57) **CLAIM**

The ornamental design for an undercarriage track component for mobile earthmoving machine, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of an undercarriage track component for mobile earthmoving machine showing our new design; and, FIG. 2 is a front view thereof. The dashed broken lines illustrate environmental structure and form no part of the claimed design. The relatively light shade lines on the surface portions indicate contour and not surface decorations.
