(57) **CLAIM**

The ornamental design for a shade container with shade mode and storage mode, as shown and described.

**DESCRIPTION**

Portions of the present disclosure may contain materials which are subject to copyright or trademark protection. The copyright and trademark owner has no objection to the facsimile reproduction by anyone of the patent document or the patent disclosure, as it appears in the U.S. Patent and Trademark Office patent file or records, but otherwise reserves all copyright and trademark rights whatsoever.

FIG. 1 is a front side elevational view of a shade container with shade mode and storage mode, where the container is in the closed storage-mode position.

FIG. 2 is a back side elevational view thereof.

FIG. 3 is a left side elevational view thereof.

FIG. 4 is a right side elevational view thereof.

FIG. 5 is a top plan view thereof.

FIG. 6 is a bottom plan view thereof.

FIG. 7 is a perspective view of the shade container with shade mode and storage mode, where the container is in the storage-mode position.

FIG. 8 is a perspective view of the shade container with shade mode and storage mode, where the container is in a partially deployed shade-mode position.

FIG. 9 is a perspective view of the shade container with shade mode and storage mode, where the container is in a partially deployed shade-mode position.

FIG. 10 is a perspective view of the shade container with shade mode and storage mode, where the container is in a fully deployed shade-mode position; and,

FIG. 11 is a perspective view of the shade container with shade mode and storage mode, where the shade container is in a fully deployed shade-mode position.

The broken line features shown in the Figures are for illustrating portions of the shade container that form no part of the claimed design.
