(57) **CLAIM**

The ornamental design for a dual beam aiming laser, as shown and described herein.

DESCRIPTION

FIG. 1 illustrates a first top perspective view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

FIG. 2 illustrates a second top perspective view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

FIG. 3 illustrates a top view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

FIG. 4 illustrates a bottom view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

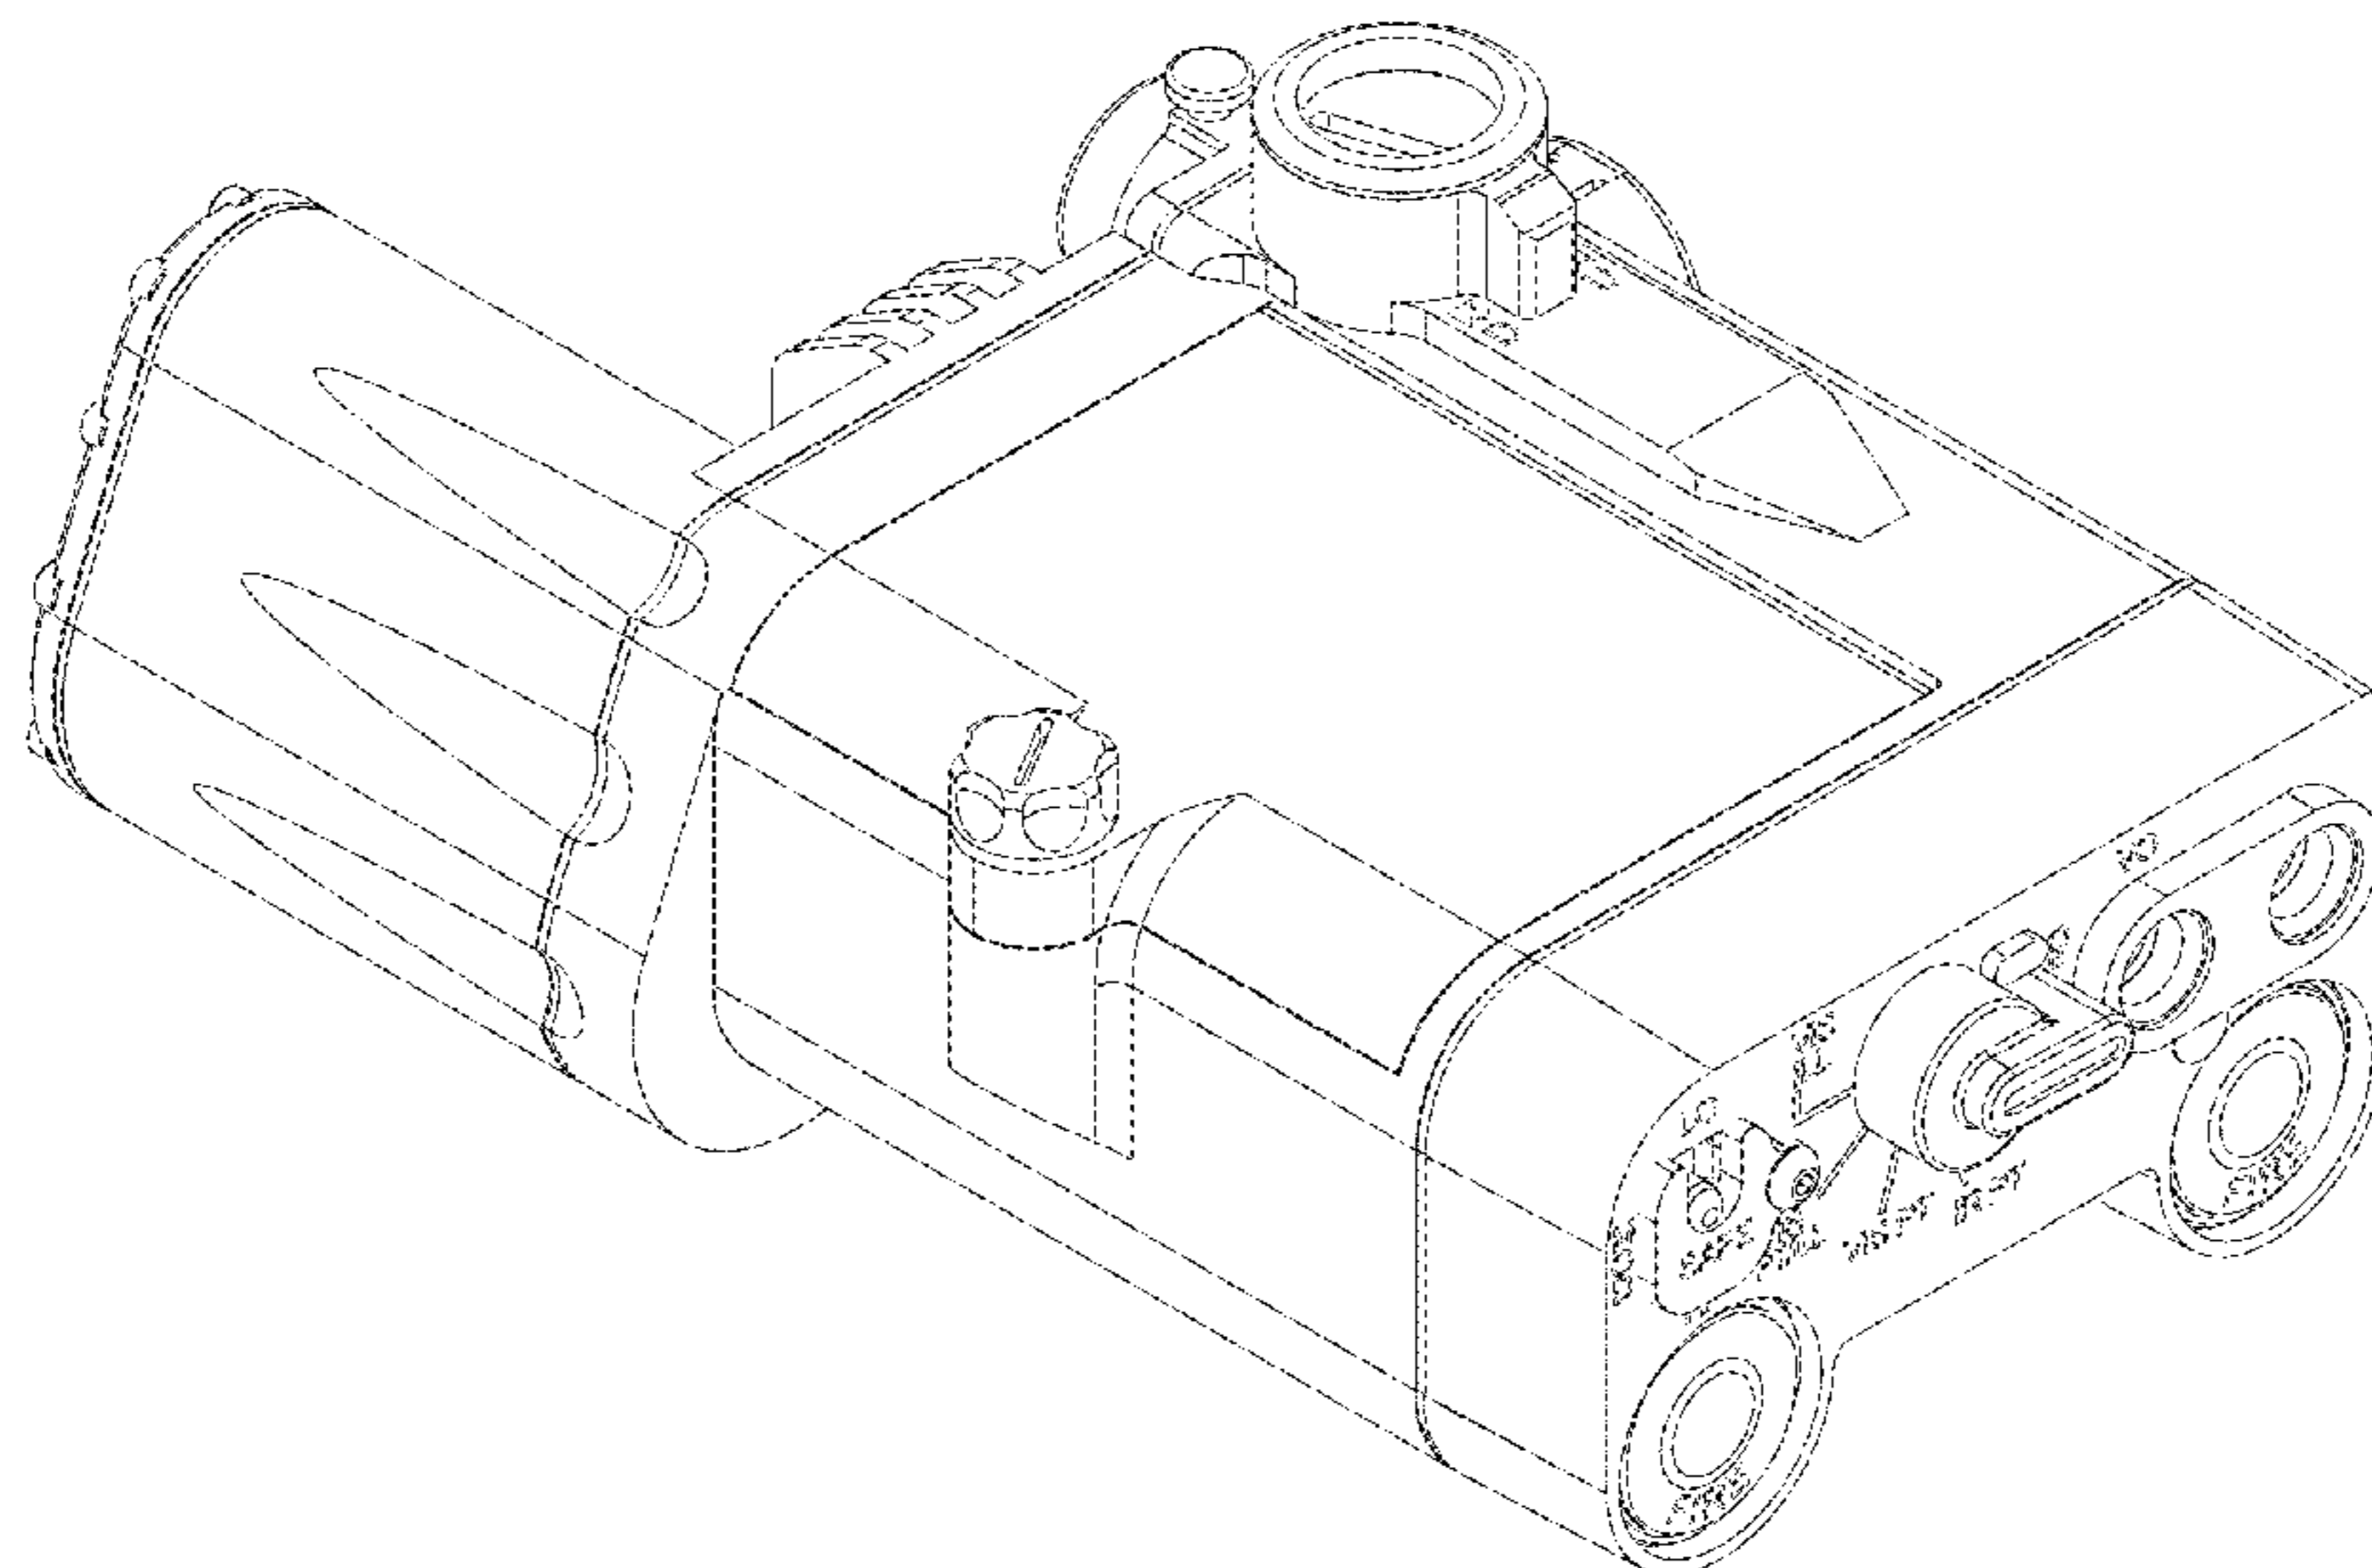

FIG. 5 illustrates a front view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

FIG. 6 illustrates a back view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

FIG. 7 illustrates a first side view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only; and,

FIG. 8 illustrates a second side view of a dual beam aiming laser of our new design; any portion shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.
