(57) **CLAIM**

The ornamental design for a catheter connector, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a catheter connector showing our new design;
FIG. **2** is a top plan view thereof;
FIG. **3** is a front elevation view thereof;
FIG. **4** is a right side elevation view thereof;
FIG. **5** is a left side elevation view thereof;
FIG. **6** is a rear elevation view thereof; and,
FIG. **7** is a bottom plan view thereof.

The broken lines are for the purpose of illustrating portions of the catheter connector and form no part of the claimed design.

The catheter connector is used to connect a medical catheter to medical or diagnostic fluids and/or energy.
