(57) **CLAIM**

We claim the ornamental design for a combined rebar positioner and fastener, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a first embodiment of our combined rebar positioner and fastener.

FIG. 2 is a top view of the first embodiment of our combined rebar positioner and fastener.

FIG. 3 is a front elevational view of the first embodiment of our combined rebar positioner and fastener.

FIG. 4 is a rear view of the first embodiment of our combined rebar positioner and fastener.

FIG. 5 is a bottom view of the first embodiment of our combined rebar positioner and fastener.

FIG. 6 is a right-side view of the first embodiment of our combined rebar positioner and fastener.

FIG. 7 is a left-side view of the first embodiment of our combined rebar positioner and fastener.

FIG. 8 is a perspective view of a second embodiment of our combined rebar positioner and fastener.

FIG. 9 is a top-view of the second embodiment of our combined rebar positioner and fastener.

FIG. 10 is a rear-view of the second embodiment of our combined rebar positioner and fastener.

FIG. 11 is a front elevational view of the second embodiment of our combined rebar positioner; and,

FIG. 12 is a bottom view of the second embodiment of our combined rebar positioner.
