(57) **CLAIM**
The ornamental design for a packaging assembly with electronic device, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a packaging assembly with electronic device according to our design shown in an assembled and closed configuration thereof;

FIG. 2 is a front elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 3 is a back elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 4 is a right elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 5 is a left elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 6 is a top elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 7 is a bottom elevation view of the packaging assembly with electronic device of FIG. 1;
FIG. 8 is an exploded perspective view of the packaging assembly with electronic device of FIG. 1;
FIG. 9 is a front perspective view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 10 is a front elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 11 is a back elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 12 is a right side elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 13 is a left side elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 14 is a top elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;

FIG. 15 is a bottom elevation view of a first portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 16 is a front perspective view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 17 is a front elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 18 is a back elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 19 is a right elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 20 is a left elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration;
FIG. 21 is a top elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration; and,
FIG. 22 is a bottom elevation view of a second portion of the packaging assembly with electronic device of FIG. 1, shown separately for ease of illustration.
In the drawings, the broken lines depict unclaimed subject matter and form no part of the claimed design.
Dash-dot lines adjacent shaded areas are used to indicate bounds of the claimed design and themselves form no part thereof.
Stipple-fill areas are intended to show a contrast in appearance.
