See application file for complete search history.

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing the first image in the sequence showing my new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof.

The broken line showing of the display screen and of portions of the graphical user interface forms no part of the claimed design.

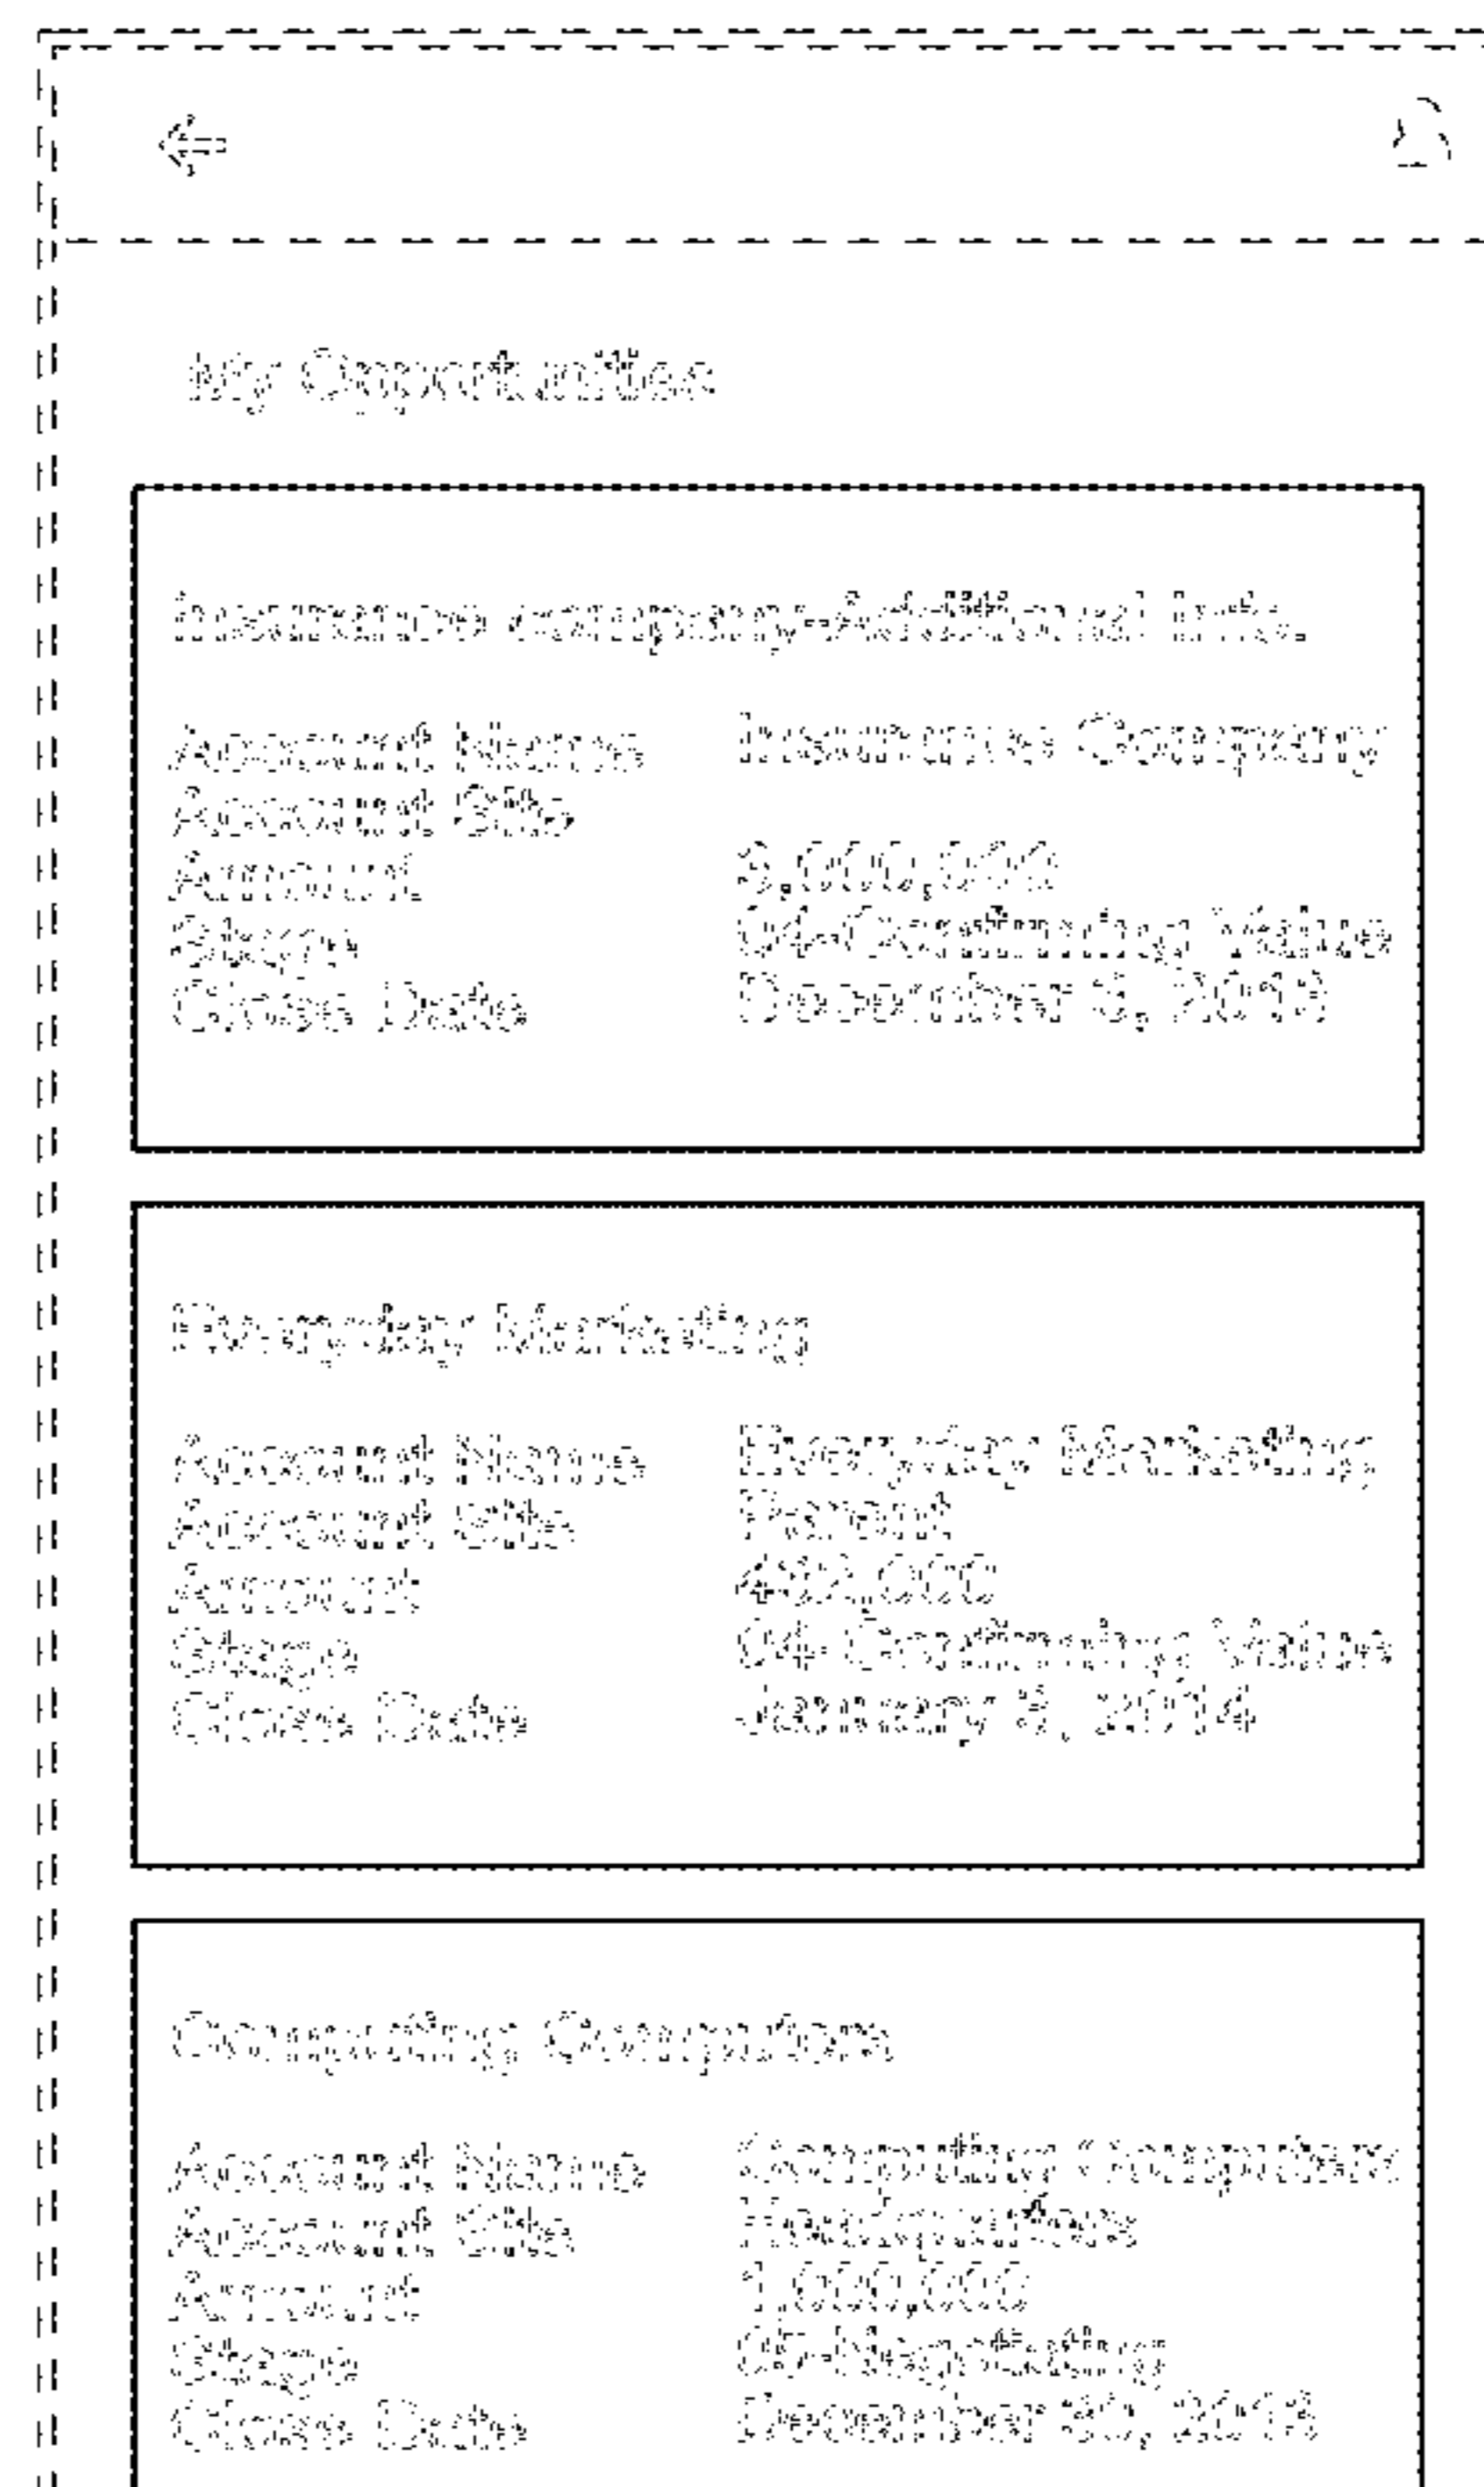

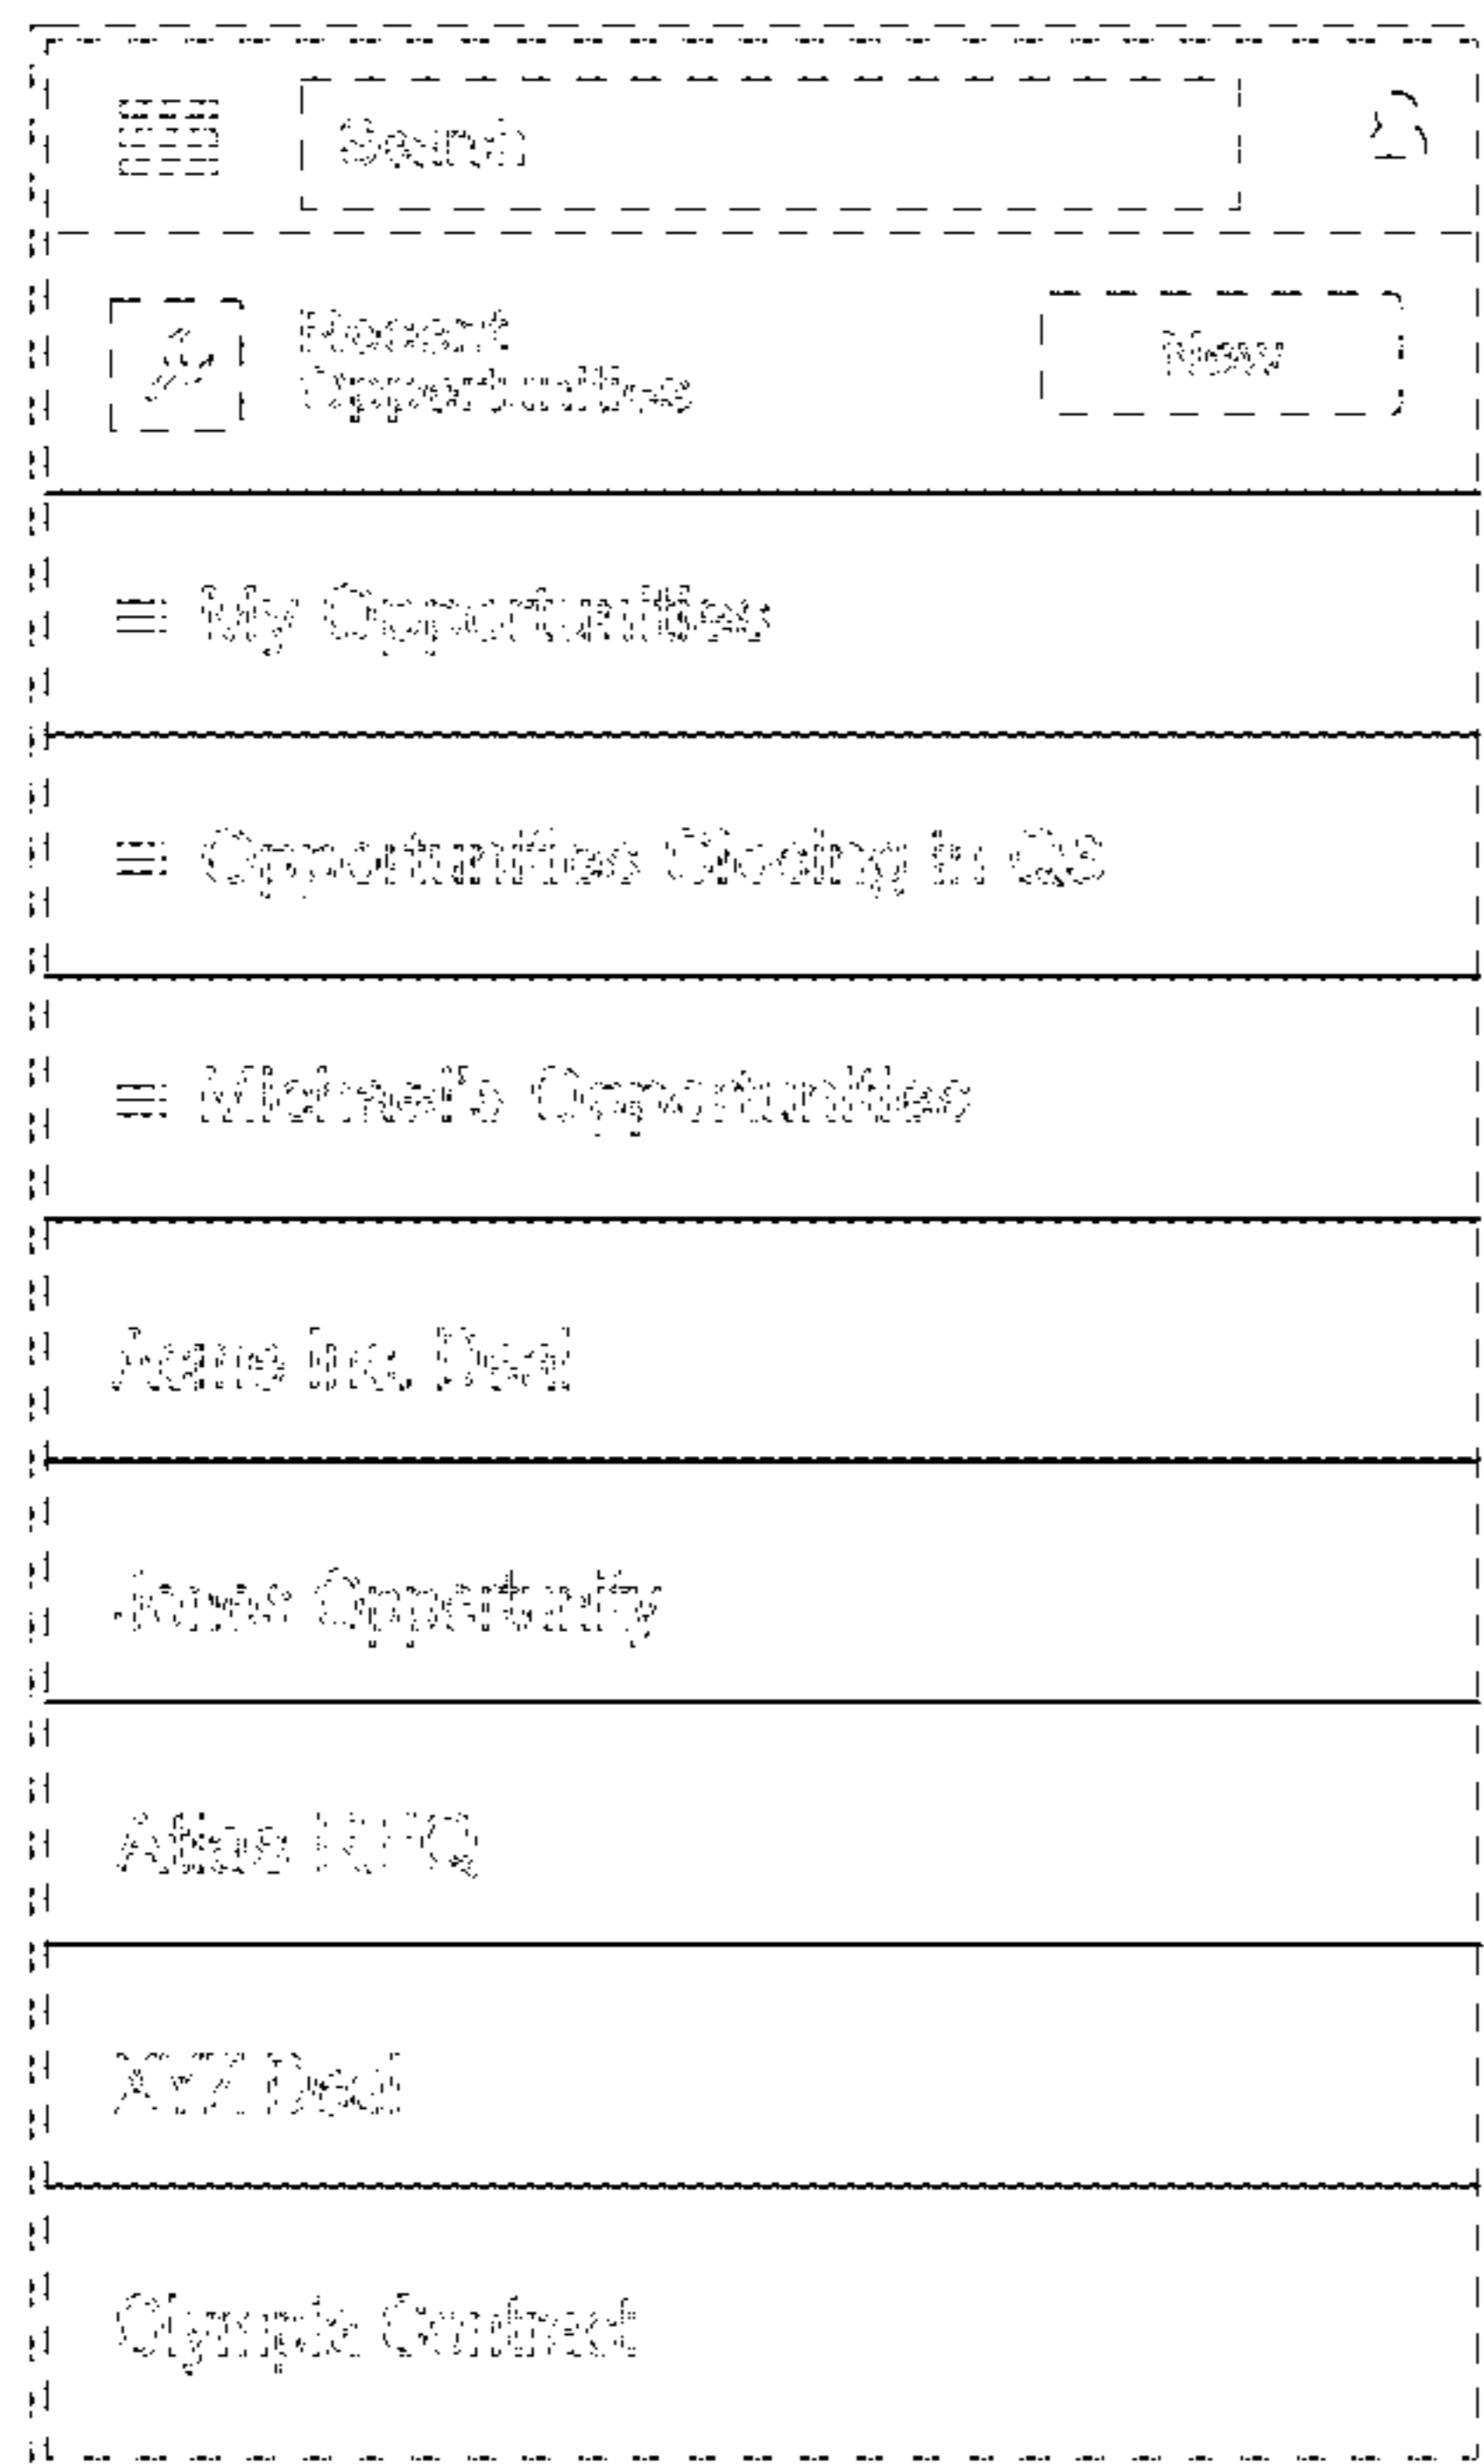

The appearance of the animated images sequentially transitions between the images shown in FIGS. 1 through 3. The process or period in which one image transitions to another forms no part of the claimed design.
