(57) **CLAIM**

The ornamental design for an arm pouch, as shown and
described.

DESCRIPTION

FIG. 1 is a front perspective view of the present invention.

FIG. 2 is a front elevation view of FIG. 1.

FIG. 3 is a rear elevation view of FIG. 1.

FIG. 4 is a left side elevation view of FIG. 1.

FIG. 5 is a right side elevation view of FIG. 1.

FIG. 6 is a top plan view of FIG. 1; and,

FIG. 7 is a bottom plan view of FIG. 1.

No claim is made to the interior surfaces of the pouch. The
phantom and dashed lines in the views form no part of the
claimed design and reflect either disclaimed portions of the
protective cover surface or are for illustration aid. For
example, the zipper is disclaimed as is the zipper region and
stitching, as shown in dashed lines. One surface panel is a
mesh portion shown discontinuous for ease but claimed in
mesh, which forms a feature of the claim.

The present invention is a design for an arm pouch for use on
the arm.
