CLAIM

The ornamental design for a display screen with an animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of the display screen with an animated graphical user interface in a first appearance state; FIG. 2 is a front view of the display screen with an animated graphical user interface in a second appearance state; and, FIG. 3 is a front view of the display screen with an animated graphical user interface in a third appearance state. The broken line showing of the display screen, graphic elements and text in all views form no part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.
