(57) **CLAIM**

The ornamental design for a surgical guide, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a surgical guide configured in accordance with the present invention;

FIG. 2 is another perspective view thereof, shown in the context of a femur;

FIG. 3 is another perspective view thereof;

FIG. 4 is a another perspective view thereof, shown in the context of a femur;

FIG. 5 is a front view thereof;

FIG. 6 is a rear view thereof;

FIG. 7 is a right side view thereof;

FIG. 8 is a left side view thereof;

FIG. 9 is a top view thereof; and,

FIG. 10 is a bottom view thereof.

The broken lines illustrating the bones in FIGS. 2 and 4 are directed to environmental structure and form no part of the claimed design. The broken line showing of the surgical guide is included for the purpose of illustrating portions of the “surgical guide” and forms no part of the claimed design. In addition, the surface shading illustrated in the drawings is provided merely to highlight the contour of design; it is not intended to be illustrative of texture or gloss.
