(57) **CLAIM**

The ornamental design for a medical instrument guiding device, as shown and described.

**DESCRIPTION**

FIG. 1 is an isometric view of the medical instrument guiding device of the present invention;

FIG. 2 is a front view of the medical instrument guiding device of FIG. 1;

FIG. 3 is a rear view of the medical instrument guiding device of FIG. 1;

FIG. 4 is a side view of the medical instrument guiding device of FIG. 1, as seen from the left side of FIG. 4;

FIG. 5 is a side view of the medical instrument guiding device of FIG. 1, as seen from the right side of FIG. 4; and,

FIG. 6 is a top plan view of the medical instrument guiding device of FIG. 1.

The broken line showing an instrument attachment portion is included for contextual purposes and forms no part of the claimed design.
