See application file for complete search history.

This application claims priority to and benefit of U.S. Non-Provisional Patent application Ser. No. 13/256.615, entitled "Safely-Harness Attachment", filed on Sep. 14, 2011.

FIG. 1 is a front top side perspective view of our new design for a safety-harness attachment;

FIG. 2 is a front side view thereof; the rear side view is a mirror image thereof;

FIG. 3 is a left side view thereof; the right side view is a mirror image thereof;

FIG. 4 is a top side view thereof;

FIG. 5 is a perspective view showing the safety-harness attachment in the environmental context of oilfield equipment; and,

FIG. 6 is an enlarged partial perspective view taken from FIG. 5 showing the safety-harness attachment in the environmental context of oilfield equipment.

The broken lines depict portions of the safety-harness attachment that form no part of the claimed design. the broken lines shown in figs. 5 and 6 illustrating oilfield equipment illustrate environment and likewise forms no part of the claimed design.
