The broken line showing of the display screen or portion thereof and the remainder of the graphical user interface forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1 through 7. The subject matter of this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.

The Samsung trademark in the upper portion of FIG. 8 forming part of the claimed design is a registered trademark of Samsung Electronics Co., Ltd.
