(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with transitional graphical user interface with a plurality of coded icons showing a first image in the sequence showing our new design; and, FIG. 2 is a perspective view of a second image thereof. The broken lines in FIGS. 1-2 depicting the display screen are for environmental purposes only forming no part of the claimed design. The appearance of the images sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.
