(57) **CLAIM**

The ornamental design for a dual trigger fishing rod handle, as shown and described.

**DESCRIPTION**

FIG. 1 is a rear right perspective view of the dual trigger fishing rod handle in a fishing rod environment, showing my new design;

FIG. 2 is a rear left perspective view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 3 is a front left perspective view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 4 is a front elevation view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 5 is a rear elevation view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 6 is a top plan view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 7 is a bottom plan view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 8 is a left elevation view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 9 is a right elevation view of the dual trigger fishing rod handle in a fishing rod environment;

FIG. 10 is a rear right perspective view of the dual trigger fishing rod handle;

FIG. 11 is a rear left perspective view of the dual trigger fishing rod handle;

FIG. 12 is a front left perspective view of the dual trigger fishing rod handle;

FIG. 13 is a front elevation view of the dual trigger fishing rod handle;

FIG. 14 is a rear elevation view of the dual trigger fishing rod handle;

FIG. 15 is a top plan view of the dual trigger fishing rod handle;

FIG. 16 is a bottom plan view of the dual trigger fishing rod handle;

FIG. 17 is a left elevation view of the dual trigger fishing rod handle; and,

FIG. 18 is a right elevation view of the dual trigger fishing rod handle.

The broken lines comprise environmental structure or boundary only and form no part of the claimed design.
