(57) **CLAIM**

The ornamental design for a watch face, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a watch face showing my new design;

FIG. 2 is a left side elevational view, the right side view being identical thereto;

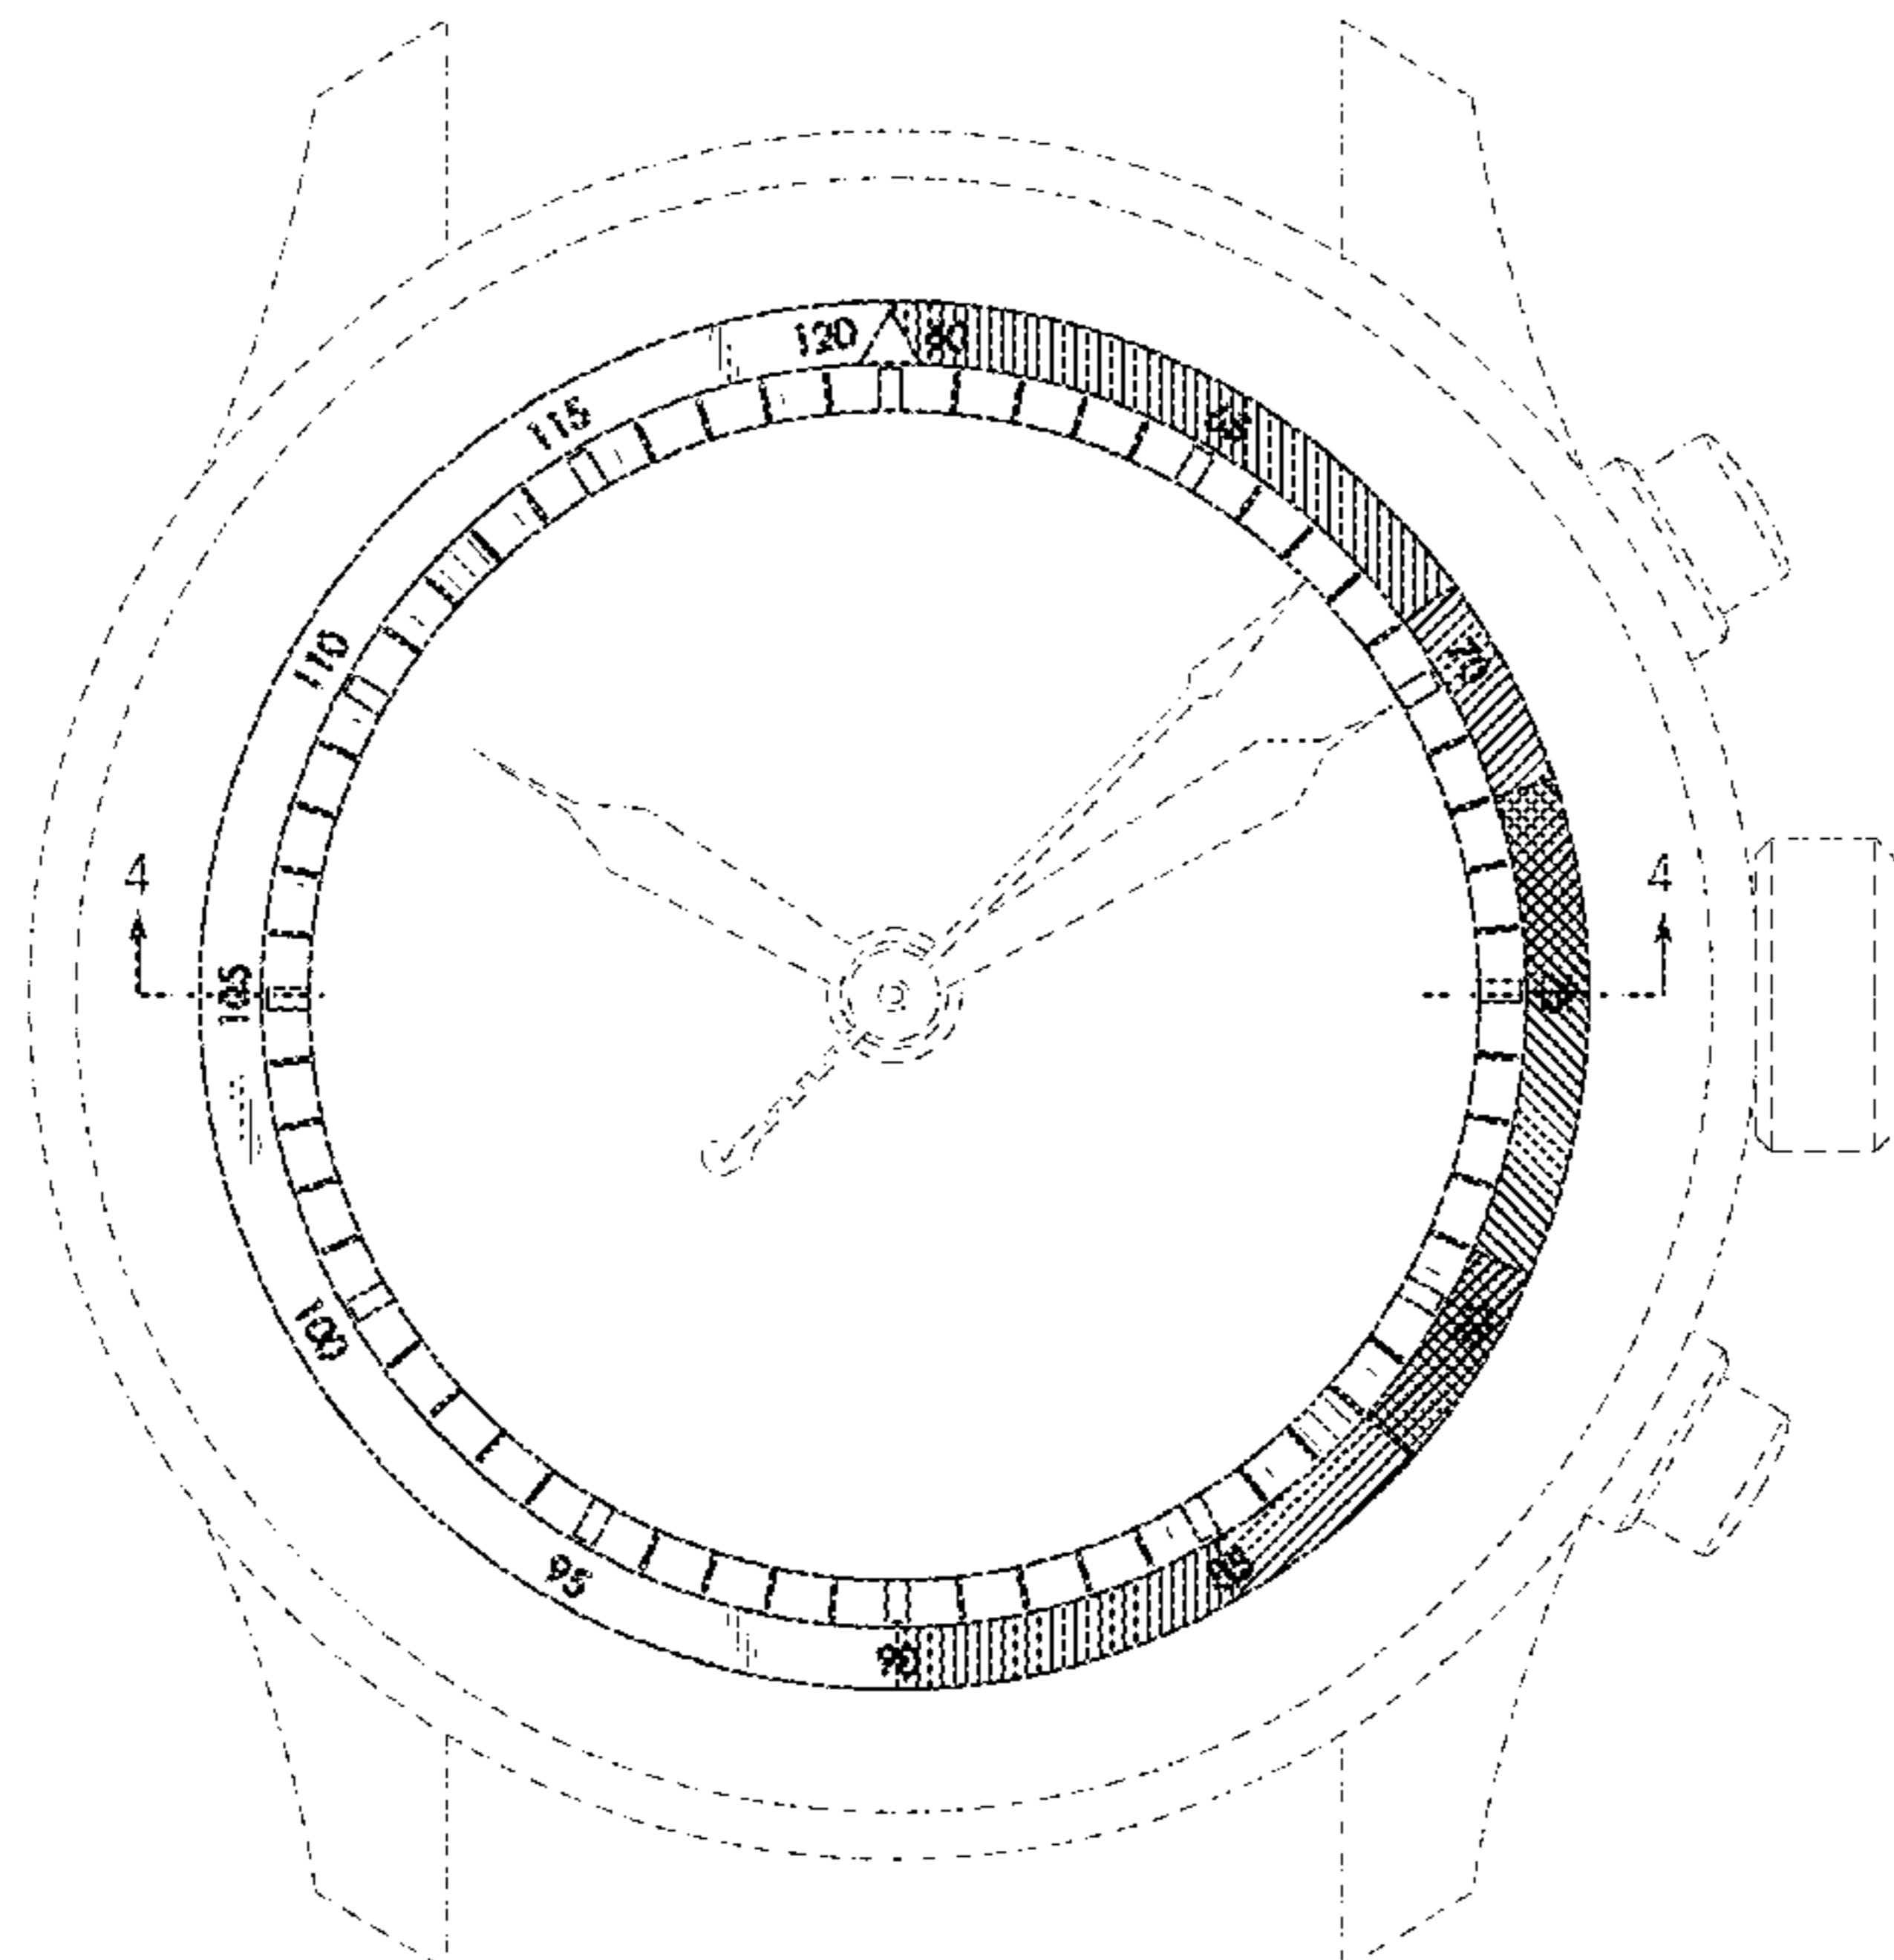

FIG. 3 is a top plan view, the bottom plan view being identical thereto; and,

FIG. 4 is a cross-sectional view thereof taken in the direction of arrows 4-4 in FIG. 1.

The claimed watch face shows aircraft groove length timing along a chapter ring. The color contrast along the chapter ring is the same for the section between the numbers 85-90 and the section between the numbers 60-69. The color contrast along the chapter ring is the same for the section between the numbers 69-72 and the section between the numbers 82-85. The color contrast along the chapter ring is the same for the section between the numbers 72-75 and the section between the numbers 79-82.

The structural features depicted by broken lines in the drawings have been shown for the purpose of illustrating portions of the watch face that form no part of the claimed design.
