See application file for complete search history.

FIG. 1 is a front view of a first image in a sequence of a display screen with an animated graphical user interface showing our new design; and
FIG. 2 is a second image thereof;
FIG. 3 is another front view of a first image in a sequence shown in FIG. 1, but with alternate unclaimed subject matter; and,
FIG. 4 is a second image another front view of a first image in a sequence shown in FIG. 1, but with alternate unclaimed subject matter.

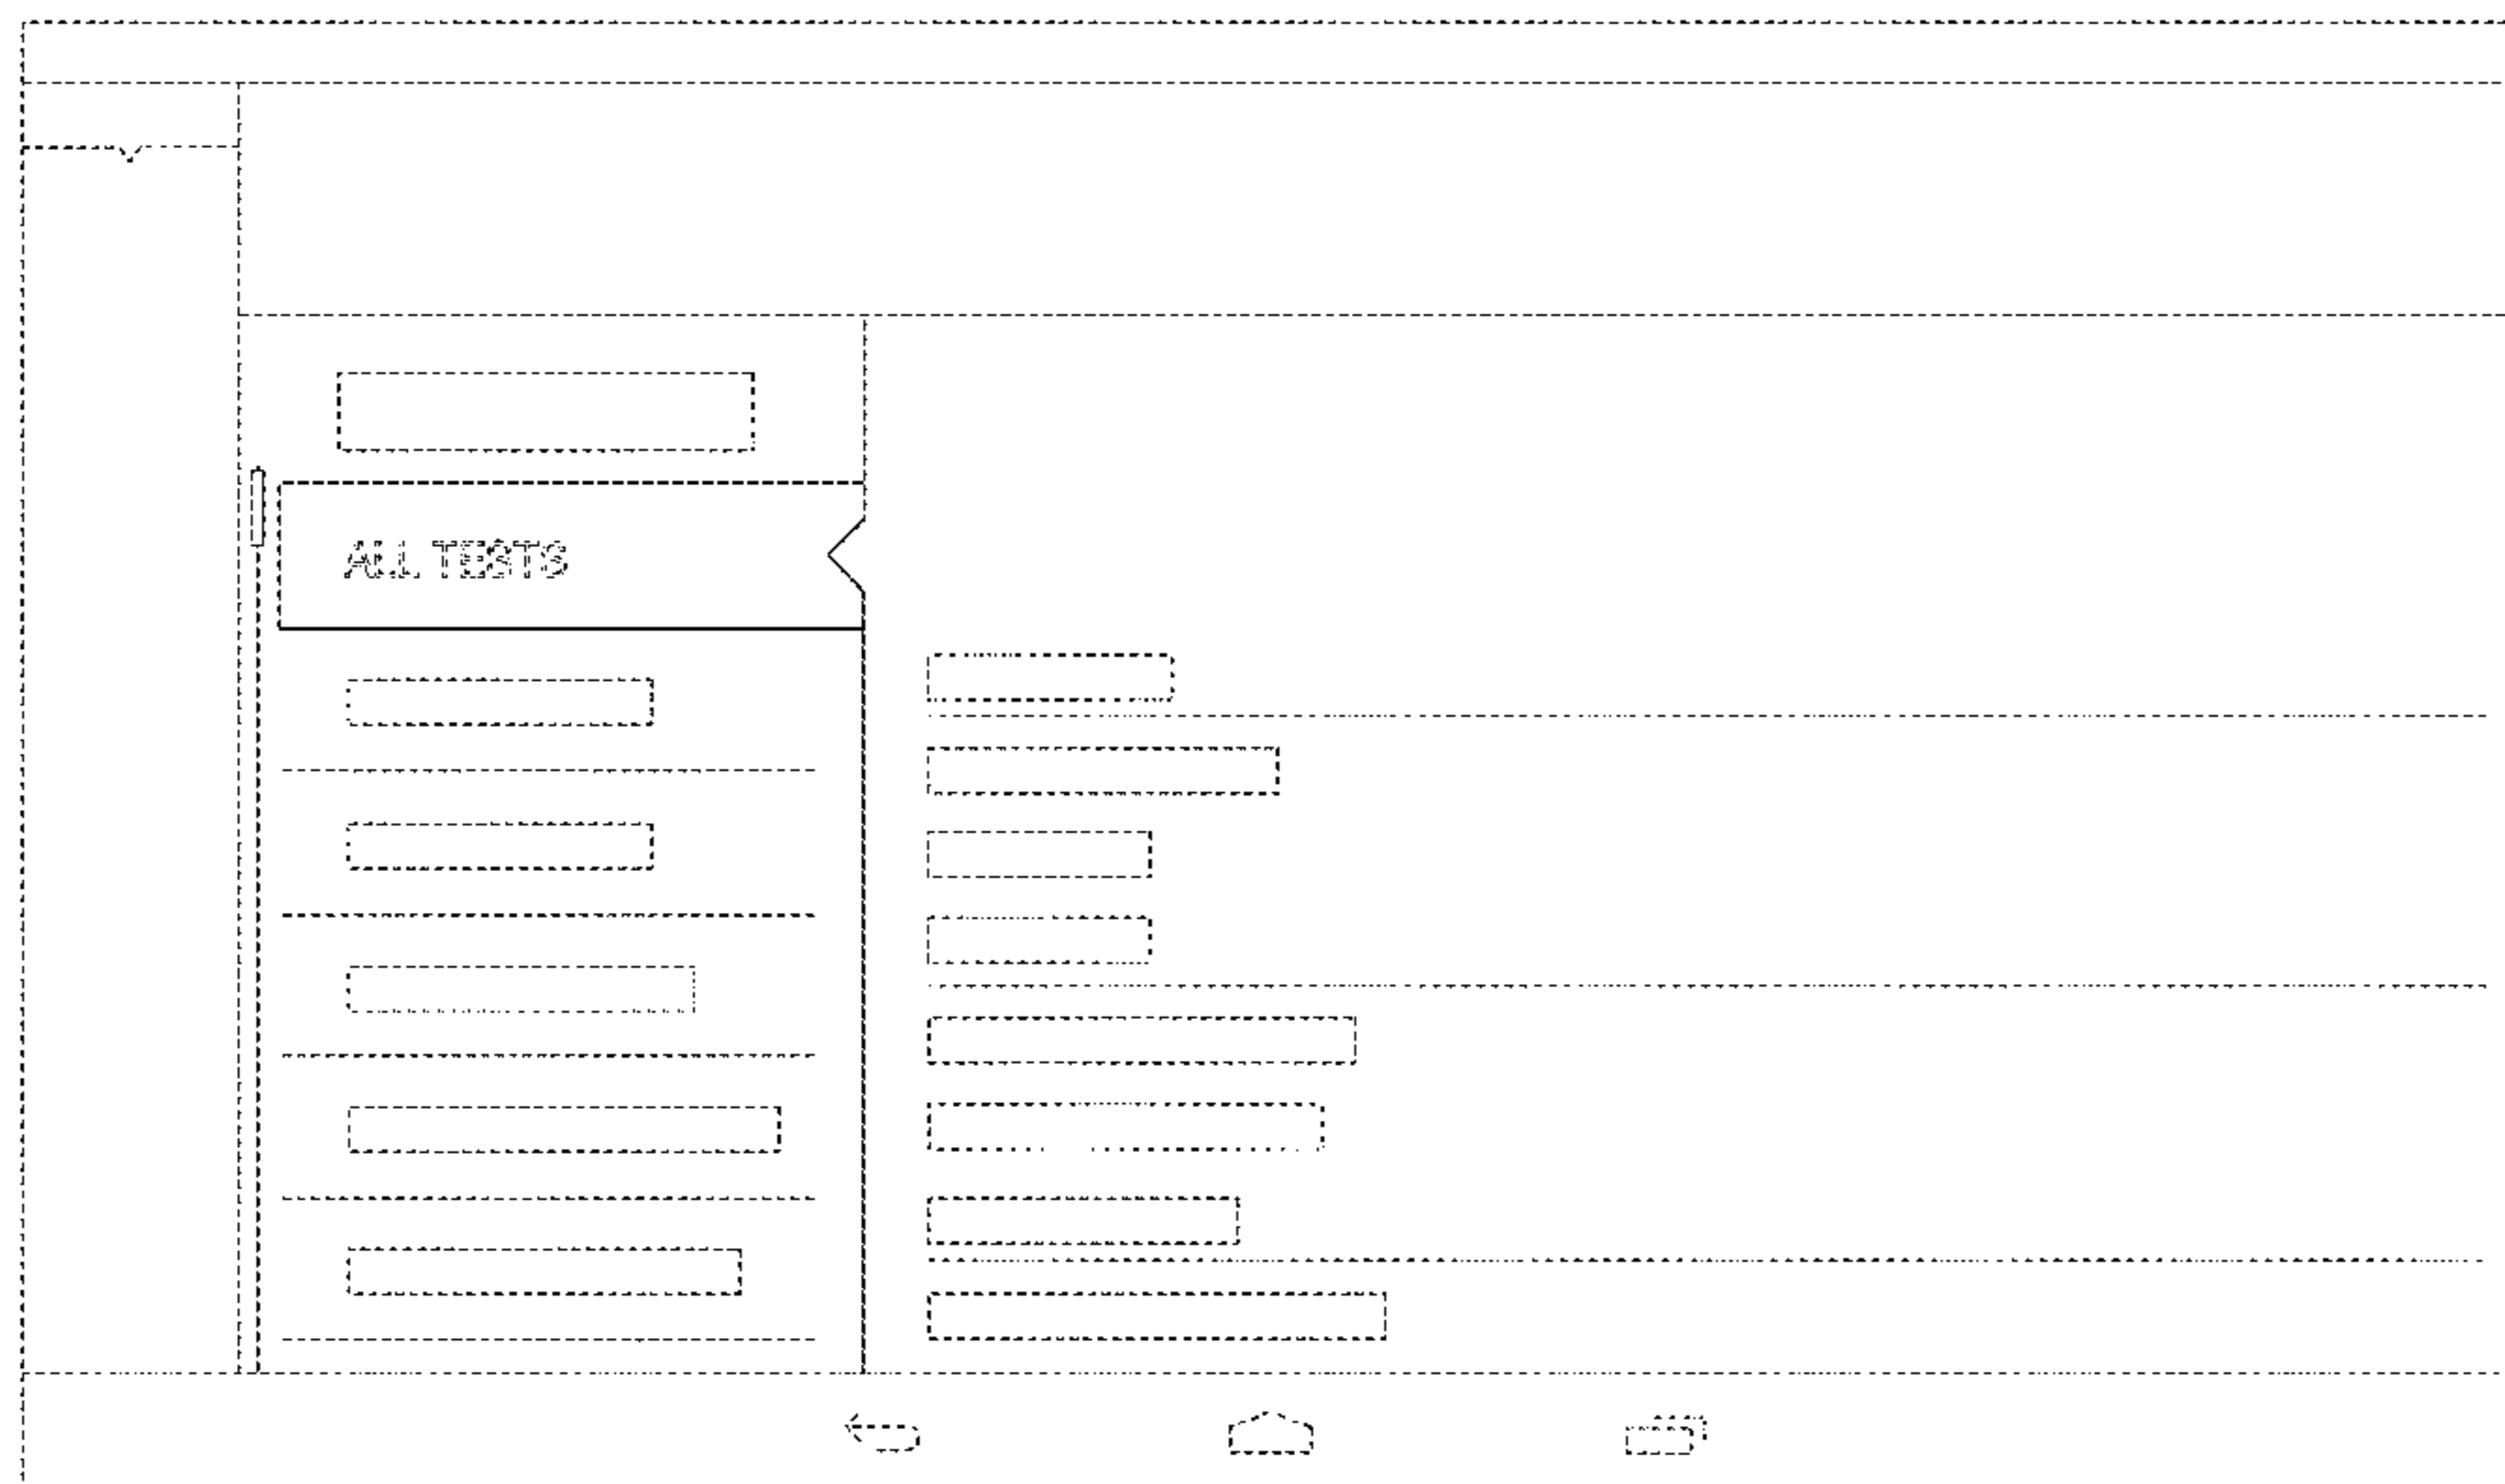

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1 and 2. In the alternate front views of the claim, the appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 3 and 4. The process or period in which one image transitions to another forms no part of the claimed design. The broken line showing of portions of the display screen with an animated graphical user interface forms no part of the claimed design.
