CLAIM

The ornamental design for a tablet computer case with detachable stand, as shown and described.

DESCRIPTION

This application claims priority to Registered Community Design (RCD) Application No. 001438840, filed Aug. 17, 2015 in the European (EU) Office for Harmonization in the Internal Market (OHIM), the entire disclosure of which is hereby incorporated herein by reference.

The application is related to U.S. patent application Ser. No. 29/538,610, filed Sep. 4, 2015, the entire disclosure of which is hereby incorporated by reference.

The application is related to U.S. patent application Ser. No. 29/538,622, filed Sep. 4, 2015, the entire disclosure of which is hereby incorporated by reference.

FIG. 1 is a perspective view of a tablet computer case with detachable stand showing my new design arranged in a first configuration;

FIG. 2 is a front elevational view of the first configuration;

FIG. 3 is a rear elevational view of the first configuration;

FIG. 4 is a right side elevational view of the first configuration;

FIG. 5 is a left side elevational view of the first configuration;

FIG. 6 is a top plan view of the first configuration;

FIG. 7 is a bottom plan view of the first configuration;

FIG. 8 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a second configuration;

FIG. 9 is another perspective view of the second configuration;

FIG. 10 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a third configuration;

FIG. 11 is another perspective view of the third configuration;

FIG. 12 is yet another perspective view of the third configuration;

FIG. 13 is a side elevational view of the third configuration;

FIG. 14 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a fourth configuration;

FIG. 15 is another perspective view of the fourth configuration;

FIG. 16 is yet another perspective view of the fourth configuration;

FIG. 17 is a side elevational view of the fourth configuration;

FIG. 18 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a fifth configuration;

FIG. 19 is another perspective view of the fifth configuration;

FIG. 20 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a sixth configuration;

FIG. 21 is another perspective view of the sixth configuration;

FIG. 22 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a seventh configuration;

FIG. 23 is another perspective view of the seventh configuration;

FIG. 24 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in an eighth configuration;

FIG. 25 is another perspective view of the eighth configuration;

FIG. 26 is a perspective view of the tablet computer case with detachable stand showing my new design arranged in a ninth configuration, the ninth configuration being the same as the second configuration;

FIG. 27 is another perspective view of the third configuration, FIG. 27 being similar to FIG. 10 but depicting in broken lines unclaimed environmental structure that is not depicted in FIGS. 10-13; and,

FIG. 28 is another perspective view of the fourth configuration, FIG. 28 being similar to FIG. 14 but depicting in broken lines unclaimed environmental structure that is not depicted in FIGS. 14-17.

The broken lines in FIGS. 27 and 28 form no part of the claimed design.
