In the drawings, the broken lines are for the purpose of illus-  
trating portions of a display screen of a multimedia terminal  
with a transitional graphical user interface and environmental  
structure and form no part of the claimed design.  
The appearance of the transitional image sequentially transi-  
tions between the images shown in FIGS. 1-18. The process  
or period that one image transitions to another image, forms  
no part of the claimed design.
