(57) **CLAIM**

The ornamental design for a vial holder element assembly, as shown and described.

DESCRIPTION

FIG. 1 is a front, right perspective view of a single element of the vial holder element assembly shown separately for clarity of illustration showing our new design; FIG. 2 is a top plan view of a single element of the vial holder element assembly shown separately for clarity of illustration; FIG. 3 is a left side elevation view of a single element of the vial holder element assembly shown separately for clarity of illustration with the right side elevation view being a mirror image; FIG. 4 is a rear side elevation view of a single element of the vial holder element assembly shown separately for clarity of illustration with the front side elevation view being a mirror image; FIG. 5 is a front, right exploded perspective view of the vial holder element assembly; and, FIG. 6 is a front, right perspective view of the vial holder element assembly. The broken lines showing vials in FIG. 5 are for purposes of illustrating environmental structure and form no part of the claimed ornamental design. The broken lines showing the alignment of the assembly between the elements of the vial holder element assembly in FIG. 5 also form no part of the claimed design.
